Matters Controlled by BHAVAS

Kuppu Ganapathi

Houses, Cusps or Bhavas are like Boxes which contain many things that are to be taken out and given to the Native for his reaping the good or bad done during his previous births. How this is done is a different matter. But it is necessary for any one who is interested in Astrology to completely have a mastery over these so that when he reads a Chart he can find out which event is to happen in the life of the Native and when. Therefore in this two part Article I am giving full details of the matters relating to each Bhava arranged alphabetically. I am sure this will help every one who is reading this Ezine of Mr. Kanak Bosmia.

E-Mail: tw853@yahoo.com

The Krishnamurti Padhdhati expert Shri Tin Win ji currently lives in USA. He is a leading figure in the world of K.P. dealing with various K.P. issues, research, and also contributing his work towards K.P. He is always generous to provide assistance and help others with references. KP community knows him as a walking encyclopedia of KP knowledge and correct citations with full references to through light on many tough matters.

There is nothing in the world like a horoscope to help a man in the acquisition of wealth, to save him like a boat in a sea of troubles and to save him as a guide in his journey.

--Vaidyanatha Dikashita in Jatakparijata

Horoscope

1. The starting point in astrological prognostications is the horoscope or astrological chart which shows the positions of the planets and the Lagna or the Ascendant and other cusps in rasis or signs. To avoid faulty judgments and pronouncements it is necessary to correctly and properly cast the horoscope with the accuracy. These days, computer horoscopes are very common and they are prone to errors. This article is supposed to be helpful in the use of the astrological SWs and to compare the results of manual calculation with the accuracy of computer SW.

2. To cast a horoscope, three essential birth data are required - time of birth, date of birth and place of birth. The standard ephemeris and the Tables of Houses of Placidus System are also essential. To find the longitude and latitude of the birth place and the correct TZ, the www.astro.com website and the SWs using ACS Atlas like KPAstro 3.0 are helpful.

Standard Time and GMT

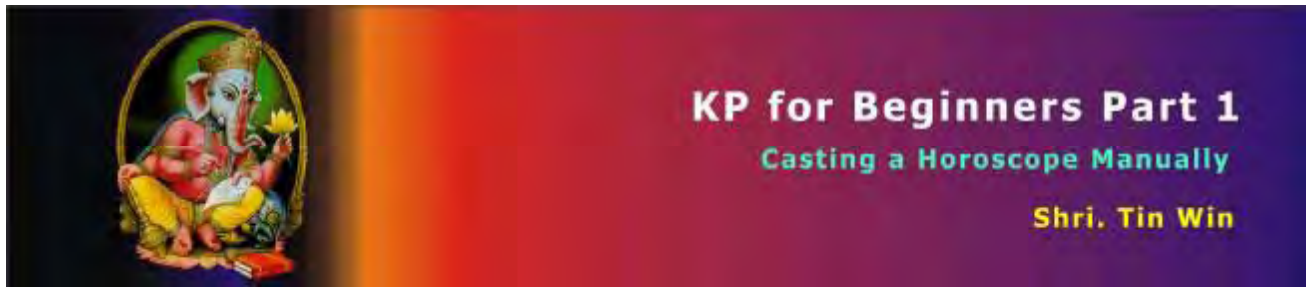

3. Generally the TOB is given in the Standard Time (ST), ie., time by the clock, used in each country. In India, the ST was chosen with Time Zone (TZ) 5 ½ hours in advance of Greenwich Mean Time (GMT) or Universal Time (UT) at the meridian of 82°30' East of GMT.

4. In using the Western ephemeris like Raphael in old days and Swiss in these days, we need GMT of birth as the positions of planets are provided at 12 noon GMT in Raphael and at 00:00 UT midnight in Swiss. To get GMT or UT we add the Time Zone to the Standard Time of birth, if the birth was West of Greenwich, or subtract the Time Zone from the Standard Time of birth, if the birth was East of Greenwich. If the time of birth is Summer Time or Daylight Saving Time (DST), generally 1 hour should be deducted from the Standard Time of birth. The DST is generally the adjusting of clocks or ST forward one hour near the start of spring and backward in autumn or fall. The details vary by country and change occasionally.

5. For the Example Chart-1, May 15, 1963, 12:05 PM IST, (-5:30), Ahmedabad, 72E37, 23N02, the Indian Standard Time (IST) of birth was 12:05 PM and Time Zone is - 5:30, East of Greenwich. So the GMT of birth was 12:05 PM minus 5:30, which was equal to 6:35 AM GMT.

Local Mean Time

6. One rotation of the earth in 24 hours is equivalent to 360° of longitude. Thus each degree of longitude corresponds to 4 minutes of time. The Local Mean Time (LMT) is computed from the exact longitude of birth and not the time zone. The GMT is used to calculate the position of the planets and the LMT is used to calculate the ascendant and the cusps of the houses. The LMT can be arrived at by multiplying the longitude of the birth place by 4 min. for each deg. by taking Greenwich as the place of reference. In the example chart-1, for 72E38, the difference of time from GMT is $(72+38/60) \times 4 \text{ min} = 4\text{h}:50\text{m}:28\text{s}$, which is to be added to 6:35 AM GMT of birth to get LMT 11:25:28. If the longitude of

birth is West of Greenwich, such calculated time difference is to be subtracted from the GMT of birth.

7. GMT is the LMT for zero degree of longitude at Greenwich. The IST is the LMT for 82E30, ie., 82.5 x 4 = 5h:30m time zone. So another method of calculating the LMT is to add 4 min. for each degree of difference of longitude between the place of birth and the reference point of time zone to the ST of birth, if the place of birth is West of the reference point of time. In the example chart-1, the difference between the place of birth 72:37 and the reference point of IST 82:30 is 9:53. The difference in time is $(9+53/60) \times 4 \text{ min.} = 39\text{m}:32\text{s}$, which is to be subtracted from 12:05 PM IST to get LMT 11:25:28. Such calculated difference in time is to be added to the ST of birth, if the place of birth is West of the reference point of time.

Ayanamsa

8. The zodiac that corresponds to the actual constellations or the fixed stars is called the sidereal or nirayana or Hindu zodiac. Around two thousand years ago, the two zodiacs coincided. Since then, along with the precision or ayanamsa, the two zodiacs have been slowly moving apart. The tropical or sayana or Western zodiac shows the astrological positions of some two thousand years ago. Thus the Hindus use the real zodiac and the Westerners a symbolic one. The sayana positions are converted to nirayana position by subtracting the ayanamsa value from the sayana positions. In this regards, the great scientist Albert Einstein has said, "We owe a lot to Indians who taught us how to count without which no worthwhile discovery could have been made". In casting a KP horoscope the KP ayanamsa is to be used. It has been found in Mr. Kanak's research that the New KP Ayanamsa works better than Lahiri Ayanamsa in the KP dasa analysis, especially in the Sookshma dasa level.

9. The three differences in around 30 ayanamsas in use are the year of coincidence of two sayana or year of zero ayanamsa and nirayana zodiacs, the annual precession rate and its adjustment rate. The New KP Ayanamsa (2003) formula is as given under and the year of zero ayanamsa is 285 AD. (The NKPA values and the Ayanamsa adjustment for any Day of the Year are given in the Table 11 and 12.)

$$\text{NKPA} = B + [T * P + (T * T * A)] / 3600$$

where,

B = Base = 22+1350/3600 = 22-22-30 @ 15 Apr 1900

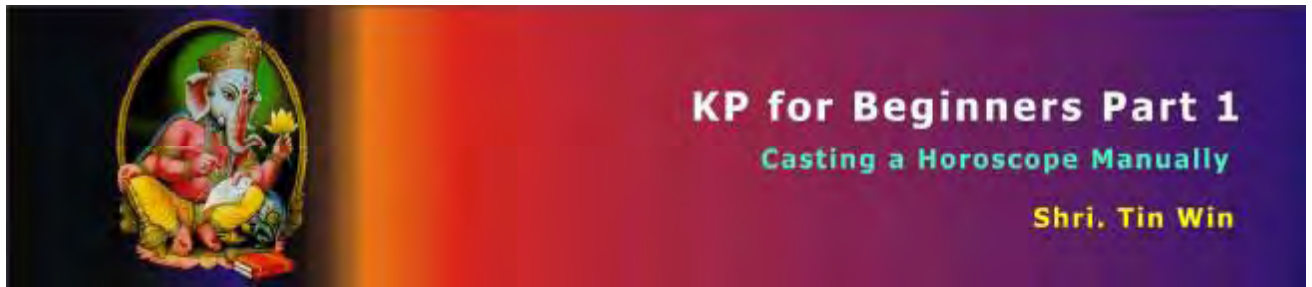

T = Y-1900, Y= Calendar year for which ayanamsa is required

P = 50.2388475 (Newcomb's annual precession rate)

A = 0.000111 sec per year (Adjustment rate of the annual precession rate)

Sidereal Time

10. Referring the Swiss 6000 years Ephemeris (www.astro.com) and the Raphael Ephemeris, the Sidereal Time (SidT) for the example chart- 1 is calculated as show in the Table 1 and 2. (The KP Astro 3.0 gives the Sid. Time 02-54-33.)

Calculation of Cusps

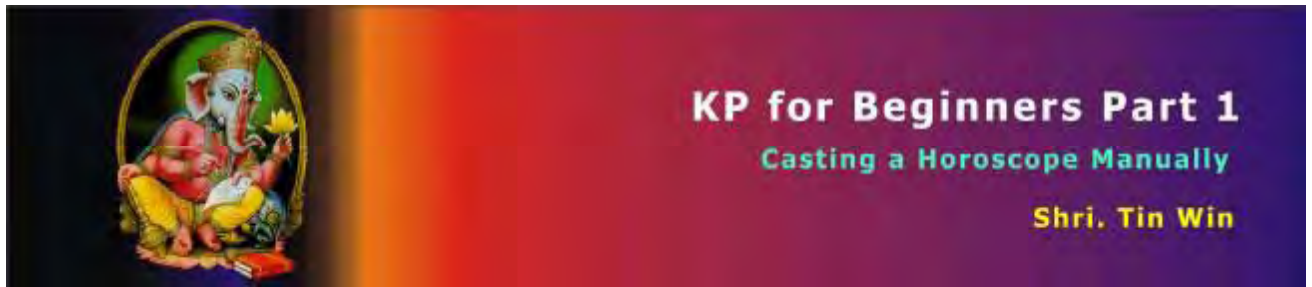

12. Referring the Universal Table of House, for the example chart-1, the calculation of 10th, 1st, 11th, 2nd and 3rd cusps are shown in the Table 5, 6 and 7. By adding 180 deg. to these cusps, the other 4th, 7th, 5th, 8th and 9th cusps are obtained and the calculated positions of all cusps are shown in the Table 9.

Comparison of the Results

13. The manually calculated results for the example chart-1 are compared with the computer SW results in the Table 9 and 10, and it has been observed that:

- 1) The manual calculation cannot give the same accurate result as provided by the SW due to rounding in the given values of the ephemeris and table of houses, especially the rounded values to degrees in Raphael Tables of Houses.
- 2) The discrepancies of the example charts in the KP Readers from the SW results seem due to rounding and some differences in the values of the ephemeris and table of houses used and also taking approximate values in the manual calculation other than the difference in the old and new KP ayanamsas.

Division of Subs

1. The Hindu zodiac, Vimshottari dasa system and the Western Placidus house system are three pillars of the KP. The Hindu zodiac of 360 deg is divided into 12 equal rasis or signs of 30 deg each and also into 27 equal nakshatra or star or constellation of 13d20m each. The constellation is further divided into 9 unequal subs in the proportion in which the planets are allotted to the total 120 years in the Vimshottari dasa system. On the basis of such divided 249 subs, the KP Horary of number 1-249 is invented.

Fixed Ascendant of a Horary Chart

2. In casting a Horary chart, the commencing position of the Sub of the Horary number in the attached Table --- of Subs for Horary Numbers (1 to 249) is taken as the Nirayana Ascendant position which remains the same irrespective of the date or time or place of casting the chart.

Place and Time of Casting a Horary

3. Based on the 1st cusp or Ascendant position of a Horary number, the cuspal positions of other houses are to be calculated for the latitude of the place of judgment by the astrologer irrespective of the place from which the query has been raised by phone, e-mail etc, using the Placidus Tables of Houses. The planetary positions should be worked out for the date and time when the astrologer commences analyzing the chart.

Calculation of the Cuspal Positions

7. The direct calculation method by a calculator is used in this article. The traditional methods by means of Logarithms and interpolation table values in the Tables of Houses are also applicable.

Horary number: 105 (given by the querist)

Place of Casting (POC) or Judgment – Ahmadabad (LG Hospital), 23N00, 72E36

Time of Casting (TOC): January 5, 2008 at 10:04:48 AM IST

Query: When will be marriage?

1) To find out the Nirayana Ascendant rising 149:13:20 for the Horary number 105 from the attached Table 19 of Subs for Horary Numbers (1-249).

2) To convert the Nirayana Ascendant position to the Sayana one to use the Placidus Tables of Houses in Sayana values, ie. adding the New KP Ayanamsa 23:52:43 for the date of casting (DOC) to the Nirayana Ascendant rising 149:13:20 to obtain the Sayana Ascendant rising 173:06:03.

3) To find the Sidereal Time corresponding to the above Sayana Ascendant rising 173:06:03 in the Placidus Tables of Houses and then to calculate the other cuspal positions according to the latitude of place of casting the Horary chart.

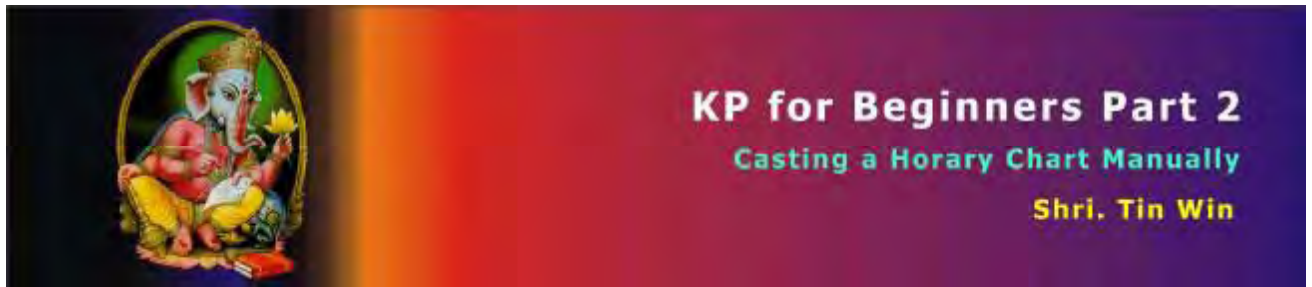

4) In the KP Universal Tables of Houses (UTOH) or Michelsen Placidus Tables of Houses, for the latitude 23° North the Ascendant or 1st cusp 173:06:03 (d:m:s) falls between the lower value 172d38m corresponding to the earlier local Sidereal Time (LST) 5m28s and the higher value 173d33m corresponding to the later LST 5m32s as shown in the Column 3, Row 2 and 3 of the following Table 1.

5) LST increment = 5m32s – 5m28s = 4 min

Asc. value change for 4 min = 173:34m – 172:38m = 56 min

Asc. value change from the lower value = 173d6m3s – 172d38m = 28m3s

For 56 min change in Asc. value, there is 4 min increment in the LSidT.

For 28m3s change in Asc. value, how much increment is in the LSidT?

$$= [(28+3/60)/56] \times 4 = (28.05/56) \times 4 = 2.0036 \text{ min} = 2\text{m}0.2\text{s}$$

6) The constant proportionate increment ratio (PIR) of 2m0.2s to 4m is to be multiplied by the changes in other cuspal positions within 4 min as shown in Row 3 to get proportionate changes in Row 4. By adding the figures in Row 2 and 4, the Sayana positions of cuspal positions are obtained in Row 5. To obtain the Nirayana positions as shown in Row 6, the NKPA 23:52:43 is to be subtracted from the figures in Row 5.

As the planetary positions in the Raphael's Ephemeris are at GMT 12h Noon, the time of casting IST is to be converted to GMT as follows:

TOC at GMT = 10:04:48 AM IST minus 5:30 = 4:34:48 GMT on January 5, 2008

Motion from Noon of Jan 4 to TOC at GMT = 12 + 4:34:48 = 16:34:48

Calculation of Cusps for Southern Latitudes

9. The general rule for finding Southern latitude cuspal positions from the currently available Tables of Houses for Northern latitudes is to add 12 hours to the sidereal time or 180 deg to the cuspal positions (RAMC expressed in arc), calculate the cusps as if the latitude were North, and then reverse the zodiacal signs of all the cusps found, i.e. the calculated 1,2,3,10,11,12 cusps for the North latitude are to be changed to the opposite 7,8,9,4,5,6 cusps for the South latitude respectively.

10. Suppose to calculate the cuspal positions for Horary no. 105 at the place of casting (POC) Belata Vista do Paraíso, Brazil, 23S00, 51W12. The fixed Nirayana Ascendant rising 149-13-20 is added by the NKPA 23-53-43 to obtain the Sayana Ascendant rising 173-06-03 as before, and then 180 deg is added further to get the adjusted Sayana Ascendant rising 353-06-33. This Ascendant position falls between the values 352-00 and 353-20 corresponding the sidereal time 17-36 and 17-40 respectively as shown in Table 10, and further calculation is done as calculating the cuspal positions for the North latitudes.

+ Opposite signs of 1,2,3,10,11,12 cusps of the North latitude are taken for 7,8,9,4,5,6 cusps of the South latitude.

11. This process can be made easier by using the Sidereal Time in the Tables of Houses added by 12 hours, if it is less than 12 hours and subtracted by 12 hours, if it is more than 12 hours, after locating the corresponding RAMCs as mentioned above. In this example, the LST 17-36 and 17-40 are to be deducted by 12 hours to obtain 5-36 and 5-40. It is also necessary to change the sign of each cusp to the opposite side of zodiac by adding 180 deg. For instance, 353-19.7 and 351-59.9 for I cusp are to be changed to 173-19.7 and 171-59.9 for VII cusp, which is based in place of I cusp, for calculation of the other cusps; 30-27.1 and 29-16.6 for II cusp to 210-27.1 and 209-16.6 for VIII cusp and so on as shown in Table 12.

Geocentric Correction

12. In the calculation of cuspal positions, these days there is a tendency of preferring Geocentric latitude of a place of birth other than Geographic latitude assuming for better accuracy. "Geocentric Correction" is supported by many SWs like KPAstro 3.0, Astraura, Jyotishya Deepika, Solar Fire. It is to note that the ephemeris gives the Geocentric positions of the planets (i.e. the positions are as seen from the center of the earth), and the charts with the common indication of Geocentric are generally Geocentric for planetary positions only but Geographic for cuspal positions. It is supposed to be the

same with the example charts in the KP Readers as it is said that Guruji Sri K.S. Krishnamurti used Geographic latitude only. So it is better to mention "Geocentric Correction", if it is used, to make it clear in comparing with the commonly used Geographic cuspal positions.

13. In using the "Geocentric Correction", the Geographic latitude of birth place given by the atlas is to be converted into the Geocentric latitude by subtracting the minute for correction given in the Table 14. The minute for correction increases up to around 11 minutes till 45 latitude and then declines. As 1 min roughly covers 1.8 km, this maximum 11 min would cover about 20 km. This difference is not much with compared to the differences in Ayanamsa values to change the sub-lords except in the border line cases. However, the better accuracy is preferable like taking the correct suburb of birth in the case of big cities like Kolkata, Delhi, Mumbai and Chennai. A short article will be presented on different views on which one, Geographic or Geocentric latitude, is more accurate.

14. In the Example Chart 2, Geographic latitude 23N is converted into Geocentric latitude 22N52 by subtracting 8min for 23deg as given in Table 25. To get the cuspal position for 22N52 by interpolation from the values for 22° N and 23° N, the cuspal positions for 22° N are calculated as follows.

Finding Sub and Sub-Sub Lords

16. By using Table 19 of Subs or any table of star and sub lord finder and Table 20 of Sub-Sub in each Sub, the sign-lord, star-lord, sub-lord and sub- sub-lord for any position of planet or cusp can be found. For example, 11th cusp position 89-55-04 is to be found first in the Table 19, under Horary no. 62, Gem sign from 89-26-40 to 90-00-00, being in the Sign-lord, Star-lord and Sub-lord (Sgl, Stl, Sbl) of Mer-Jup-Moo respectively. Find the difference between the required position and the commencing position of sub-lord Moo, ie. 89-55-04 minus 89-26-40 = 28m24sn, and then locate this difference in the Moo Sub of Table 20 because this position 89-55-04 is in the Moo Sub. Up to 38m53 is the Sat Sub-Sub

lord (Ssl) in the Moo Sub and so it is in the Sat Sub-Sub. Thus the position 89-55-04 is in the Sgl, Stl, Sbl and Ssl of Mer-Jup-Mar-Mer respectively.

Observations

17. In the Raphael's Tables of Houses (first published in 1821) and Rosicrucian Tables of Houses, only ascendants are given to the degree and minute and other cuspal positions to the nearest degree only. The UTOH and Michelsen Tables of Houses give the same results close to the AFA Tables values in line with the SW figures. The manual calculation from the American Ephemeris gives the accuracy of KPAstro 3.0/Astrodienst SWs. The Geocentric correction is open to study.

Introduction

1. Raphael ephemeris and table of houses ruled the astrological world when Guruji KSK was doing research and writing KP. These days, the highly accurate Swiss ephemeris dominates the current astrological SWs like KPAstro 3.0, Jagannatha Hora (J Hora), Astro-Kundli, Jyotishya Deepika, Astracadabra and Solar Fire in providing better results with high precision than hand calculation. The SWs have also enabled the astrologers to apply more time-consuming techniques in research work.

KP Settings

2. In casting a KP chart by the computer SW, it is essential to check the following options whether they are set as default and to make changes as required.

- 1) Placidus house system,
- 2) Geocentric positions of planets,
- 3) True positions of planets,
- 4) Mean nodes,
- 5) 365 d/y Vimshottari dasa,
- 6) Geographic latitude,
- 7) Orb application

3. In some SWs like KPAstro 3.0, Raichur's SW, Jyotisha Deepika 2.0 and Astracadabra, the New KPA is directly applicable and the customizing or offset facility to adjust the old KPA to the New KPA is available in others like Jagannatha Hora (J Hora), Astro-Kundli and Astraaura (paid version). In J Hora it is necessary to switch to the KPA option and 365 d/y option in finding the Vimshottari sub dasas. In using the Astrodienst (<http://www.astro.com>) online chart, it is to take the Mean nodes which can differ from the True nodes by up to $1\frac{3}{4}$ degrees. A note will be presented on Mean Node vs True Node. The 'Western geocentric (tropical)' default setting indicates the Geocentric positions of planets but not the Geocentric latitude, which is supported by other SWs like KPAstro 3.0, Astraaura, Jyotishya Deepika, Astracadabra, Solar Fire and only Geocentric latitude is used in the Raichur's SW. The application of orb, 3.333 or 5 deg will affect the occupation and conjunction and aspect of the planets.

Hand Calculation of New KP Ayanamsa (2003)

a) Calculation from the Tables

4. Example Chart 1, May 15, 1963: from the Table of New KPA in 'KP for Beginners- Part 1', it is 23:15:01 for Jan 1, 1963 plus 18 sec for May 15 from the Adjustment Table for Any Day of the Year, giving 23:15:19 (as per KPAstro 3.0, 23:15:20).

b) Calculation by Formula

5. In the NKPA formula given in 'KP for Beginners- Part 1', the base is changed to Jan 1, 1900 to be comparable with the above mentioned NKPA Table for Jan 1 of every year.

$$\text{NKPA} = B + [T * P + (T * T * A)] / 3600$$

where
Page 32

B = Base = $22 + 1335.7 / 3600 = 22:22:15.7$ @ 1 Jan 1900, 0h GMT

T = Y-1900, Y= Calendar year for which ayanamsa is required

P = 50.2388475 (Newcomb's annual precession rate)

A = 0.000111 sec per year (Adjustment rate of the annual precession rate)

For Jan 1, 1963 of Example Chart 1, the NKPA is

= $22:22:15.7 + [63 \times 50.2388475 + (63 \times 63 \times 0.000111)]$

= $22:22:15.7 + 00:52:45.5 = 23:15:01.2$

For May 15, approximately $(75/360) \times 50 = 10.4$ sec (2m:15d = 75d)

NKPA for May 15, 1963 = $23:15:01.2 + 10.4 = 23:15:11.6$ (same as per KPAstro 3.0)

6. By using the original base for April 15, 1900, i.e.

B = Base = $22 + 1350 / 3600 = 22:22:30$ @ 15 Apr 1900, 0h GMT

For Apr 15, 1963 of Example Chart 1, the NKPA is

= $22:22:30 + [63 \times 50.2388475 + (63 \times 63 \times 0.000111)]$

= $22:22:30 + 00:52:45.5 = 23:13:15.5$

For May 15, approximately $(30/360) \times 50 = 4.2$ sec (30d from Apr 15 to May 15)

NKPA for May 15, 1963 = $23:13:15.5 + 4.2 = 23:13:19.7$ (same as per KPAstro 3.0)

Birth Data and Some Confusion

7. The following source and links are helpful to find the birth data and biography:

<http://www.astrologyweekly.com/natal-charts/celebrity.php>

<http://www.astrotheme.fr/en/celebrities>

8. It may cause some confusion that the AstroDatabank (ADB) and the folks at ACS Atlas (the world's experts in time changes) subtract 1 from the time zone number for daylight saving time (DST). For example, George W Bush, July 6, 1946, 07:26 AM EDT (+4:00), New Haven, CT, USA, 41 N 18 / 72 W 55, TZ number is (+4:00), after subtracting 1h for DST from the original TZ number 5. The same is in <http://www.astro.com> as 'Time Zone: 4h west, Daylight Saving'. Thus the time zone 5 with a DST is the same as TZ number 4 in ADB. For Tony Blair, May 06, 1953, 06:10 BST (-1:00), Edinburgh, Scotland, 55N57, 3W13, TZ number is (-1:00) after subtracting 1 for summer time from GMT TZ zero. Another difference in the Eastern practice is that such TZ (+4:00), 4h West, is shown by (- 4), and (-1), 1h East

as (+1). (ACS= Astro Communications Service; EDT= Eastern Daylight Time and EST is used for other time; TZ number 5 is used for EST and 4 for EDT; BST= British Summer Time)

9. The best way is to compare the calculated Ascendant position with the one given by the data source or to check the GMT and Sidereal Time from <http://www.astro.com> by entering the birth details. KP Astro 3.0 (<http://www.kpastrosystem.com>) with the built-in ACS World Atlas automatically enter longitude, latitude, time zone, and daylight savings of over 2,60,000 cities.

10. Another point is the variation in the latitude and longitude of big cities like Delhi, which is found as 28N40, 77E13 by Astrodienst, Astro-Kundli, Prashara Light 6.1 and Atlas of the World (Rand McNally, Masterpiece Edition, 1993, US); 28N40, 77E14 for Chandni Chowk by KP Astro 3.0; 28N39, 77E13 by Astraaura, Astro 3 and KP Astro 3.0 for Station; 28N36, 77E12 by J Hora; and 28° 38' 07.11" N, 77° 13' 29.86" E by Google Earth. In such big cities, it is to take the particular locality concerned from the available sources like a few hundred localities of Delhi in KP Astro 3.0 built-in Atlas or Google Earth which is free to download. For example, Google Earth shows 28° 38' 47.02" N, 77° 10' 21.84" E for particular Rajendra Nagar location and for this locality KP Astro indicates 28N39, 77E11. The place of casting the Example Chart 2 (Horary) is Ahmedabad (LG Hospital), 23N00, 72E36 and Google Earth gives 22° 59' 51.51" N, 72° 36' 07.22" E for LG Municipal General Hospital.

11. J Hora shows one day earlier weekday as 'Vedic day' for TOB before sunrise as per the Vedic or Hindu day, from sunrise to next sunrise. For example, Atal Bihari Vajpayee, Dec 25, 1924, 5:00 AM IST, Gwalior, 26N14, 78E10, as TOB was before sunrise, J Hora indicates Vedic weekday 'Wednesday' for DOB Dec 25, 1924. KP Astro 3.0 shows the calendar weekday (from midnight to next midnight) 'Thursday' but the Hindu day concept is applied in the KP analysis like KPDP matching for marriage.

12. It is easy for beginners to cast a KP chart and to find the Sign, Star, Sub and Sub-Sub lords, significators (KP pointers) and the dasa up to Sookshma level at the Astraaura astrology free on-line. [Cast your Hindu Vedic Horoscope](#) is for a natal chart and [Cast KP Horary Chart](#) is for a Horary chart (1-249) or (1-1249).

13. It has a built-in longitude and latitude finder ([Know Longitudes / Latitudes of Places \(Atlas\)](#)) and also the direct links to the mostly used atlas query <http://www.astro.com> and the TZ finder ([Know Time Zone of places](#)) <http://www.timezoneconverter.com/cgi-bin/tzc.tzc>.

14. In the calculation of the Example Chart 2 [from 'KP for Beginners- Part 2', Horary no. 105 (1-249), 10:04:48 AM IST, Jan 5, 2008, Ahmedabad (LG Hospital), 23N00, 72E36], the lower difference of 26

sec between the Old KPA 23:52:17 used by the Astraaura and the New KPA 23:52:43 (provided in 'KP for Beginners- Part 1') is subtracted from the calculated positions of cusps and planets to obtain the positions as per NKPA. The OKPA is a default setting and Geocentric latitude is available as an option.

15. A KP natal or Horary chart (1-249) can be calculated using the NKPA. The star, sub, sub-sub lords and the balance of dasa at birth are provided, and the dasa periods can be obtained by manual calculation or running the Astraaura or JHora.

16. It is to note that the cuspal positions given by this SW are for the Geocentric latitude of birth palace by converting the Geographic latitude to Geocentric one.

Free J Hora

<http://www.vedicastrologer.org/jh> OR <http://www.VedicAstrologer.org/jh>

17. A comprehensive atlas and time zone finder is embedded in the full version of this SW which is free to download from the above link. Under the 'Preferences' window on top of the screen, it is to choose 'Calculation', then 'Ayanamsa', among them 'KP', and then to run the program for the first round calculation after entering the birth details. By looking at the old KPA used by the J Hora, it is adjustable to the New KPA by going back to the 'Ayanamsa' option and choosing the 'Custom' (user define). For Example Chart 1 (form 'KP for Beginners- Part 1', May 15, 1963, 12:05 PM IST, Ahmedabad, 23N02, 72E37), the 'lower' difference of 5 sec between NKPA 23:15:20 and OKPA 23:15:15, is to 'subtract' from the difference of 5m3s from Lahiri Ayanamsa to get the Custom NKPA 23:15:20. For the Example Chart 2 (as mentioned in point 14), the 'higher' difference of 26 sec between the OKPA 23:53:09 and NKPA 23:52:43 is to 'add' to the difference from Lahiri Ayanamsa, 5m8s. Then it is to run the program again to obtain the positions as per NKPA. At the bottom of the screen, the 'Houses' window gives the KP cusps by pressing first at the left and then right side of the mouse to choose Placidus house system, and then the 'KP' window provides the StI-Sbl-Ssl of the cusps and planets only after getting the KP cusps. To find the Vimshottari sub dasas, it is to go to the 'Dasa' window on top of the screen and then to choose 365 d/y option.

18. To cast a Horary chart (1-249), it is first to enter the Horary data, and then to go to 'Miscellany' on top of the screen, then Prasana (Horary) on bottom of the screen, after that to enter KP Horary number and to choose the 'Prasna lagna derived from no. chosen'. For display it is to use 'Basic' window on top and 'Key I nformation' window on bottom of the screen. To get the KP cusps and the StI-Sbl-Ssl, it is to go to 'Houses' and then 'KP' windows as explained above. 1 or 4 or 5 year Vimshottari dasa for annual or oath chart can be calculated there but it may not be so easy for KP beginners.

Free Astrodienst

<http://www.astro.com>

19. The accurate (Sayana) tropical chart with high precision of Swiss ephemeris can be calculated online by Astrodienst, which is also the most commonly used atlas query and time zone finder. The 'Western geocentric (tropical)' or Sayana chart and Placidus house system are the default settings and the 'Hindu/Lahiri geocentric (sideraeal)' or Nirayana chart using Lahiri Ayanamsa is available as an option.

20. By subtracting the NKPA from the calculated Sayana positions, the Nirayana KP chart, exactly the same as given by KPAstro 3.0, can be obtained. The sign, star and sub lords can be found from Table 1 of Star-Lord and Sub-Lord or any such table available in the KP literature or the link given below, and the dasa can be calculated manually or by running the Astraaura or J Hora for the calculated Moon position by Astrodienst.

12:03:52, Sayana values of Asc 12Sg21:17 and Moon 27Aq10:17; NKPA for Jan 1, 1776 is, 1900-1776 = -124; 20:22:15.7 + [- (124 x 50.2388475) + (124 x 124 x 0.000111)] = 20:22:15.7 -1:43:47.9 = 20:38:27.8; For July 4, approximately (184/360) x 50 = 25.5 sec; NKPA for July 4, 1776 is 20:38:27.8 + 25.5 = 20:38:53. In Nirayana values by NKPA, Asc is 21Sc42:23 and Moon 6Aq31:24. By running this chart on J Hora for the same Moon position by adjusting the NKPA, it gives Mars Dasa Balance at birth of 0y:0m:28d and the first circle of Vimshottari dasa ending Jan 31, 1889, and the second circle of Vimshottari dasa ending Aug 1, 2009 is also readily available there. Moon Dasa is from 01-08-1999 to 31-07-2009, Mo-Ve DB from 01-06-2007 to 29-01-2009, Mo-Ve-Ju DBA from 05-04-2008 to 25-06-2008 and Mo-Ve-Ju-Ve DBAS from 15-05-2008 to 29-05-2008.

Calculation of Vimshottari Dasa

a) Dasa Balance at Birth

22. Out of total 120 years in Vimshottari dasa, the shares are given 7y to Ketu, 20y to Venus, 6y to Sun, 10y to Moon, 7y to Mars, 18y to Rahu, 16y to Jupiter 16, 19y to Saturn and 17y to Mercury. The Dasa balance at birth (DBB) can be calculated as follows:

DBB= (Dasa yr of planet concerned x Remaining part of Moon's nakshatra)/ 13°20'

23. In the Example Chart 1, Moon 14Cap38:56 is in the nakshatra of Sravana ruled by Moon and the remaining part to the end of nakshatra 23Cap20* is 8°41'4", i.e. 23Cap20 minus 14Cap38:56. (*from Table 19 of Subs in 'KP for Beginners- Part 2')

DBB= (10 x 8°41'4")/ 13°20' = 10(8+41/60+4/3600)/ (13+20/60) = 6Y:6M:5D (Moon)

24. The difference of 1 min in the Moon position will make a difference in the dasa period from 2.7 days for Sun dasa balance at birth to 9.0 days for Venus dasa balance at birth. For the dasa period longer than 120 years, the next circle of the Vimshottari dasa is to be applied and such dasa circle is readily available in the J Hora as explained in the USA chart. The following links are helpful in calculation of dasa manually.

b) Bhukti, Antara, Sookshma

25. The above shares to the planets hold the same proportion in all dasa periods, Dasha, Bhukti, Antara, Sookshma (DBAS) and so on, giving --

Bhukti = Dasha period (Bhukti /120);
 Antara = D (B/120) (Anthara /120);
 Sukshma = D (B/120) (A/120) (Sukshma/120) and so on,

Ven-Sat DB = $20 (19/120) = 3.166667 = 3y + 0.166667 \times 12 = 3y:2m$

Ven-Sat-R-Jup DBA = $20 (19/120)(16/120) = 0.42222y \times 12 = 5m:0.06666 \times 30d = 5m:2d$

Ven-Jup-Rahu-Sat DBAS = $20(16/120)(18/120)(19/120) = 0.063333y \times 12 \times 30 = 23d$.

Observation

26. As found in the several previous comparisons of SW results, there is not much significant differences in the commonly used KP SWs to change the sub-lords or even sub-sub-lords, consequently the results of KP analysis, which is mainly based on only up to the sub-lord level, except in the border line cases where even one second can matter. For instance, if 1st cusp of the Horary chart for no 105 were taken as 149-13-19, then the Sgl-Stl-Sbl-Sssl would be Sa-Su-Ma-Mo in place of Sa-Su-Ra-Ra for 149-13-20.

27. The choice of KP SW depends on accuracy of cuspal and planetary positions, easiness and mobility in operation and availability of a variety of well done KP related features interested by the user. In research work, the accuracy does matter especially in the calculation of old charts more than one hundred years backward and a built-in ACS Atlas will be vary helpful.

It is adjusted for 1 sec difference for Raichur's and Jyotishya Deepika 2.0 (<http://www.krishnamurtipaddhati.com>), 25 sec difference for Astro-Kundli (Courtesy of Swami RCS), 54 sec difference for Astraura, 5 sec difference for JHara and 16 sec difference for Leo Gold (<http://www.leogold.com>) (Courtesy of Vasudhakar Goswami).
- 2) Significantly different 1/7 & 6/12 cuspal positions of Col. 3 due to the use of Geocentric latitude have the same Sgl-Stl-Sbl-Ssl in Table 5, Col. 2 as other SWs using the Geographic latitude.

- 1) On the basis of the Sidereal Time corresponding to the fixed position of Ascendant by the chosen Horary no, other cusps are calculated and so here is not relevant to adjust the difference in KPAs as shown under the Table 2. Practically J Hora gives almost the same positions of Astraura whether with the OKPA 23-52-11 or NKAP 23-52-43 with a negligible change in positions due to 32 sec difference in KPAs.

Confusion of the New KP Ayanamsa

1. The choice of ayanamsa, out of around 30 practically available, is up to the preference of an astrologer to get the accurate predictions. There is no need to discuss the correctness of ayanamsa which may depend on the rules and techniques applied by different schools of thought.

2. However, in the KP analysis it is to use the New KP Ayanamsa adopted in 2003 because of the following reasons:

- 1) Guruji KSK has openly recommended to use only the KP Ayanamsa to make the correct prediction by the KP rules, and given the ayanamsa values for the year 1840 to 2001 in degree and minute only. This Old KP Ayanamsa was presumed to be constant for the entire calendar year. Not the formula but two basic figures, i.e. year 291 A.D of zero ayanamsa, when both Sayana and Nirayana zodiacs are assumed to be coincided, and the Newcomb's annual precession rate of 50.2388475 sec., were given by Guruji KSK.
- 2) Guruji KSK has given the implicit approval of using the ayanamsa correct to seconds for any date in the calendar year by giving blessing for Manu's Astrological Tables for All, in which the supporting tables are given in this regard.
- 3) There is not any significant difference between the Old KPA and New KPA. (Table 1) The New KPA gives a formula provided by Prof. K. Balachandran for calculating the ayanamsa correct to seconds for any date in any calendar year, using the two figures given by Guruji KSK.
- 4) The New KPA was adopted in the K.P. & Astrology Year Book 2003 and it supersedes all the previous KP ayanamsa tables with a request from K. Subramaniam, second son of Guruji KSK, for the co-operation of all the KP followers in this regard.
- 5) It has been found in the Kanak Boshmia's study on around 120 life events of 15 AA rated charts that the New KP Ayanamsa is working better than Lahiri Ayanamsa in the application of KP rules, especially at the Sookshma dasa level.

3. It should not be confused the New KP Ayanamsa adopted in 2003 with the KP Straight Line ayanamsa calculated by the following formula and called the New KP Ayanamsa in some astrological books and SWs. It is also said to be close to the ayanamsa in the Universal Tables of Houses (UTOH). In fact, while the controversy of the correct ayanamsa was going on, the Lahiri Ayanamsa was adopted in the UTOH, though not so stated. Thus the Straight Line ayanamsa is very close to Lahiri Ayanamsa but differs from the Old or New KP Ayanamsa (Table 1) despite the application of the two figures given by Guruji KSK.

$$\text{Ayanamsa} = (50.2388475 / 3600) * ((\text{Yr} - 292) + (261 / 365) + ((\text{Mn} - 1) * 30 + \text{Dy}) / 365) \quad (1)$$

where,

Yr = Year of Birth

Mn = Month of Birth

Dy = Date of Birth

Ayanamsa for January 1st 1900,

$$\begin{aligned} \text{Ayanamsa} &= (50.2388475 / 3600) * ((1900 - 292) + (261 / 365) + ((1 - 1) * 30 + 1) / 365) \\ &= (50.2388475 / 3600) * (1608 + 262 / 365) = 22.4500 = 22^\circ 27' \end{aligned}$$

Ayanamsa for May 6th 1953,

$$\text{Ayanamsa} = (50.2388475 / 3600) * ((1953 - 292) + (261 / 365) + ((5 - 1) * 30 + 6) / 365) \\ = (50.2388475 / 3600) * (1661 + 387 / 365) = 23.1944 = 23^\circ 11' 40''$$

4. In the above formula in equation (1), the base year 291 assumed by Guruji KSK is used but one more year than 291, i.e. 292 is subtracted to compensate for the addition of a portion of the year from the base date of April 15th to end of the year, i.e. 261/365. This formula is the same as the KP Straight Line ayanamsa formula, which was assumed after a lot of discussion on the old KP ayanamsa, using the two figures as given by Guruji KSK since K.M. Subramaniam (Sublord Speaks) just would not change his view on those two figures. This KP Straight Line ayanamsa is supported by the KPAstro 3.0 since its initial version under the name of KP Straight Line (Adjusted) ayanamsa as some KP astrologers have used this ayanamsa, for instance in the articles of the earlier KP & Astrology Year Books, and the formula is given as under.

$$\text{Ayanamsa} = (F - 291) * (50.2388475) / 3600 \quad (2)$$

where

F = fractional year taking days between the required date and April 15th

Ayanamsa for January 1st 1900, the date before April 15th 1900, the previous year 1899. is taken to calculate the fractional year (F) as follows:

$$F = 1899 + (365 - 105) / 365 \text{ (from Jan 1st to Apr 15th is 105 days)}$$

$$F = 1899 + 260 / 365 = 1899 + 0.7123 = 1899.7123$$

$$\text{Ayanamsa} = (1899.7123 - 291) * (50.2388475) / 3600 = 22.4500 = 22^\circ 27'$$

Ayanamsa for May 6th 1953 (attached example chart), the date is after April 15th 1953, the current year 1953 is taken to calculate the fractional year (F) as follows:

$$F = 1953 + 21 / 365 = 1953.0575 \text{ (from 15 Apr to 6 May = 21 days)}$$

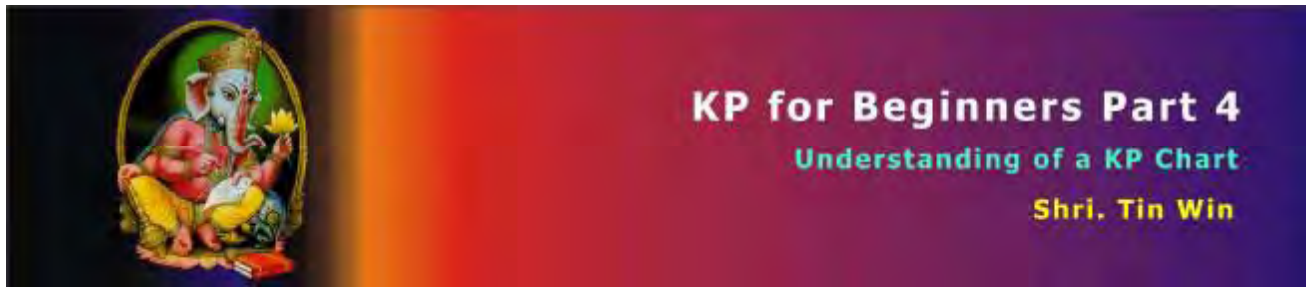

$$\text{Ayanamsa} = (1953.0575 - 291) * (50.2388475) / 3600 = 23.1944 = 23^\circ 11' 40''$$

5. The Straight Line ayanamsa values by the above two straight line formulas in equation (1) and (2) and KPAstro 3.0 are the same and it is very close to Lahiri ayanamsa within 1 min but it differs from the Old or New KP ayanamsa around 5 min (Table 1). The small difference in ayanamsa used by various KP astrologers need not bother a beginner unduly. Generally a slight change in the ayanamsa value does not change the important elements of KP, i.e. the star lord and the sub lord. A beginner should go to the essentials, rather than worry about the technicalities of ayanamsa.

Fortuna

6. In a KP chart, Fortuna is usually included by deriving from the calculated positions of Ascendant, Sun and Moon in the birth chart according to the following formula which is the same for day-born or night-born. It is not a planet and it represents a mathematical point like Rahu/Ketu.

$$\text{Fortuna} = \text{Ascendant} + \text{Moon} - \text{Sun}$$

7. Fortuna deserves serious attention, as it indicates certain results which are not so clearly shown by the aspects formed by the transiting planets to those in the natal chart. One should not omit to include Fortuna while erecting a chart and offering the prediction. Fortuna improves the matters signified by the house in which it is located in the chart. (Krishnamurti Padhdhati, Original Vol I, page 471-2) Fortuna is supposed to give fortune to the native during the conjoined dasa period of its star lord and sub lord.

8. The above Fortuna formula is comparable to the formula calculating –

- 1) Punya Saham or Fortune of day-born, which is solely used in the Hindu Annual Horoscope or Varshapha or Tajik (Acharya Neelkantha, B.V. Raman, Sumeet Chugh);
- 2) Pars Fortuna or Part of Fortune of day-born chart in Arabian Parts, which is actually originated from Greek. (Day time is different in Hindu day and calendar day.)

9. In the Varshaphal and Arabian Parts, a night-born (night time) chart reverses the signs before the Sun and Moon as shown under:

$$\text{Fortuna} = \text{Ascendant} + \text{Sun} - \text{Moon}$$

10. But the day time formula only has been used by modern western astrologers like Llewellyn George (The New A to Z Horoscope Maker and Delineator), Robert Hand (Horoscope Symbol) and it is the same with William Lilly's procedure.

11. It is not to attribute too much to the Fortuna as per study of H J Gouchon, M P Hall, J Mayo and J Wilson. (Geoffrey Dean: Recent Advances in Natal Astrology, A Critical Review 1900-1976).

12. For the attached example chart, May 6th, 1953, 05:10 GMT, 55N57, 03W13, New KPA 23° 6' 56", Asc 11° Ta43' 32", the Fortuna (Fo) is calculated as given under.

$$\text{Fortuna} = 41^\circ 43' 32'' + 288^\circ 22' 43'' - 22^\circ 15' 34'' = 307^\circ 50' 41'' = 7^\circ \text{Aq } 50' 41''$$

13. Since the Fortuna is in 11th house of the attached chart, and in the star and sub of Rahu, the native is supposed to be fortunate in matters of 11th house and to get fortune during Rahu-Rahu Dasa-Bhukti.

Cusp and House

14. The beginning degree of each house is called cusp. A house begins from the concerned cusp and ends at the next cusp. The cuspal degrees are like boundaries of the house. In the attached chart, the

1st cusp or Asc is $11^{\circ}\text{Ta}43' 32''$, 2nd cusp $1^{\circ}\text{Ge}51' 20''$, 3rd cusp $17^{\circ}\text{Ge}3' 15''$, 4th cusp $2^{\circ}\text{Cn}56' 7''$, 5th cusp $24^{\circ}\text{Cn}20' 58''$, (no cusp falls in Leo.) 6th cusp $3^{\circ}\text{Vi}10' 15''$ and so on. The range of 1st house is from 1st cusp $11^{\circ}\text{Ta}43' 32''$ to 2nd cusp $1^{\circ}\text{Ge}51' 20''$ with dimension of $20^{\circ} 7' 48''$; 2nd house is from 2nd cusp $1^{\circ}\text{Ge}51' 20''$ to 3rd cusp $17^{\circ}\text{Ge}3' 15''$ with dimension of $15^{\circ} 11' 55''$; 3rd house is from 3rd cusp $17^{\circ}\text{Ge}3' 15''$ to 4th cusp $2^{\circ}\text{Cn}56' 7''$ with dimension of $15^{\circ} 52' 52''$; 4th house from 4th cusp $2^{\circ}\text{Cn}56' 7''$ to 5th cusp $24^{\circ}\text{Cn}20' 58''$ with dimension of $21^{\circ} 24' 51''$; 5th house from 5th cusp $24^{\circ}\text{Cn}20' 58''$ to 6th cusp $3^{\circ}\text{Vi}10' 15''$ with dimension of $38^{\circ} 49' 17''$ and so on, by counting from a cusp to the next cusp.

15 The lord of the house is the lord of rasi sign where the concerned cusp is located. The 1st cusp or Asc is in Taurus and so the Taurus sign lord Venus is the lord of the Asc or 1st house. Since the 2nd and 3rd cusps fall in Gemini, the lord of 2nd and 3rd houses is the Gemini sign lord Mercury, and similarly the lord of 4th and 5th houses is Moon, sign lord of Cancer and so on. The 4 signs, Leo & opposite Aquarius and Libra & opposite Aries are empty signs without any cusp falling in these signs, which are called intercepted signs (floaters by Westerners), and the lords of these empty rasi signs do not own any house. However, Saturn is lord of 10th and 11th houses as these 2 cusps fall in Capricorn owned by Saturn, and Venus is Asc lord and Mars is lord of 7th house.

16. In the chart, Sept 18th 1905, 18:30 GMT, $59^{\circ}\text{N}20'$, $18^{\circ}\text{E}03'$, NKPA $22^{\circ}27' 3''$, Asc $12^{\circ}\text{Ta}52' 41''$, all three cusps, 2nd cusp $1^{\circ}\text{Ge}42' 47''$, 3rd cusp $14^{\circ}\text{Ge}55' 3'$ and 4th cusp $28^{\circ}\text{Ge}24' 17''$ are located in the same sign Gemini, i.e. the 2nd house is from 2nd cusp $1^{\circ}\text{Ge}42' 47''$ to 3rd cusp $14^{\circ}\text{Ge}55' 3'$ with dimension of $13^{\circ} 12' 10''$; 3rd house is from 3rd cusp $14^{\circ}\text{Ge}55' 3''$ to 4th cusp $28^{\circ}\text{Ge}24' 17''$ with dimension of $13^{\circ} 29' 14''$, and Gemini sign lord Mercury is the lord of all 2nd, 3rd and 4th houses.

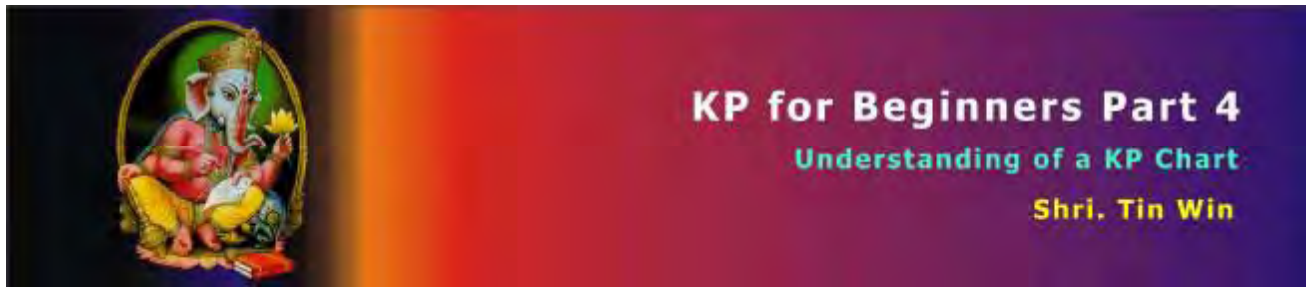

17. As shown above, the dimension of each house is different in the KP Placidus houses. The house may be less or greater than 30° . The 1st and opposite 7th cusps are the same in all house systems (Placidus, Equal, Koch etc), and in addition the 4th and opposite 10th cusps are the same in Placidus and Koch house systems. The location of planets can be different depending on the house system used, for instance, in the attached example chart, Moon is in 10th of Placidus and Koch houses and 9th of Equal houses, and Saturn is in 6th of Placidus houses and 5th of Koch and Equal houses. In a KP chart, it is to use the Placidus House system, which is one of three pillars of KP.

Location of Planets in Houses

18. In the attached chart, since the 12th house is from 12th cusp $3^{\circ}\text{Pi}10' 15''$ to 1st cusp $11^{\circ}\text{Ta}43' 32''$, Venus at $21^{\circ}\text{Pi}54' 29''$, Mercury at $3^{\circ}\text{Ar}16' 24''$, Sun at $22^{\circ}\text{Ar}15' 34'$, Jupiter at $6^{\circ}\text{Ta}5' 10'$ and Mars at $10^{\circ}\text{Ta}20' 25'$ are considered as located in the 12th house. If the orb theory is taken into consideration, Mars is located very close to the next 1st cusp within $1^{\circ} 23'$ and it can be supposed to be on the cusp of 1st house and to give the results of 1st house. The orb of $3^{\circ} 20'$ is commonly used. But the influence of such located planet on the next house can be certain if the orb is within 1° to 2° and there is no planet in the next house. Similarly Moon at $18^{\circ}\text{Cp}22' 43''$ and Rahu at $14^{\circ}\text{Cp}19' 59''$ are placed behind the 11th cusp of $24^{\circ}\text{Cp}20' 58''$ and after 10th cusp of $2^{\circ}\text{Cp}56' 7''$, and so they are said to be in the 10th house.

Aspects

19. The Hindu aspects are applied counting from sign to sign. All planets aspect the 7th sign counted from the signs occupied by them. In addition Mars aspects the 4th and 8th signs, Jupiter aspects the

5th and 9th signs, while Saturn aspects the 3rd and 10th signs by special aspect. Rahu/Ketu does not aspect any planet or house since it is not a planet having physical body but it is only a sensitive intersecting point in the pathway of Sun and Moon.

20. In the attached example chart, Sun in Aries is in conjunction with Mercury as the planets in the same sign are supposed to be conjoined. Moon in Capricorn is in conj. with Rahu and it aspects Ketu in Cancer and also 4th and 5th cusps in Cancer by its 7th aspect. Mars in Taurus is in conj. with Jupiter and aspects 7th cusp in Scorpio by its 7th aspect and also 8th and 9th cusps in Sagittarius by its 8th special aspect. Jupiter aspects Saturn in Virgo by its special 5th aspect and also Moon and Rahu in Capricorn by its 9th special aspect. Rahu in Capricorn acts as agent of Moon by conj. with Moon and of Jupiter by aspect of Jupiter. Ketu in Cancer acts as agent of Moon by aspect of Moon.

Planets in Own Star and Planets without any Planet in their Stars

21. In the attached example chart, only Moon is in its own star Moon and Jupiter and Rahu do not have any planet in their stars.

Basic Significators

1. A planet signifies the matter through the following three levels according to the occupation and lordship of the houses:

- 1) The planet signifying the *source* of the matter;
- 2) The star lord of the planet revealing the *nature of the results* of the matter;
- 3) The sub lord of the planet showing as the *deciding factor* whether the matter is favorable or not.

2. A star lord is stronger than a planet and a sub lord is more powerful than a star lord. KP is the sub lord theory, nothing else. The discovery of the influence of the sub lord has added a new dimension to the stellar astrology. If the indication at the star level is general, the sub makes it specific. If a planet is in the star of the occupant of the 2nd house of finance, but in the sub of occupant of the 12th house of loss, the result will be financial loss. If the sub lord is a strong significator of 11th house of gain, it is the indication of financial gain. If the sub lord is a strong significator of 6th house of loan, there will be financial gain through borrowing.

3. The sub lord is useful as the *deciding* factor in the following cases:

- 1) Whether a planet is auspicious or inauspicious for the house signified by that planet according to the sub lord of that planet;
- 2) Whether the matter denoted by the house in question is promised or not according to the cuspal sub lord of that house;
- 3) Whether the DBA lords are favorable or unfavorable for the event under study as per their sub lords;
- 4) Which *sub dasa* would give the marriage and which *sub dasa* would cause the divorce during the *same dasa* by only gleaning from the sub only in KP;
- 5) Whether a planet is the strong significator of the houses for which that planet is the cuspal sublord depending on whether there is any planet in the star of that planet;
- 6) What planets should be selected as the *fruitful significators* when the planets are the significators of many or almost all houses.

4. The division of star, sub and sub-sub etc as *dasa*, *bhukti*, *antara* and *sookshma* was known before to find out the timing of an event only. Credit goes to Guruji KSK for using these divisions up to the star and sub in the Hindu astrology for the first time to examine whether the cusps and planets are really fruitful or not.

5. Guruji KSK has provided his rasi chart together with the navamsa chart side by side in the *KP Reader III* and the unprecedented 3-page detailed table of navamsa calculation in the *KP Reader I* without applying the navamsa anywhere. It is perhaps his expression of gratitude to the navamsa for giving the idea of nakshatra navamsa or one-ninth division of the nakshatra in the manner of Vimshotari Dasa system.

6. The star lord effect of the *dasa* lord planets, i.e. analysis of the planet together with its star lord, has been taken into consideration since about 2000 years ago in Satyacharya's *Dhruvanadi* and nowadays

KP for Beginners Part 5

Significators

Shri. Tin Win

in B.V. Raman's *My Experiences in Astrology, How to Judge a Horoscope and Notable Horoscopes*. Without applying the influence of the sub lord in prediction and the Placidus house system in casting a horoscope, it is not KP. Also it is no more KP, if the sub is not considered as *the deciding factor*.

7. In order to get the better prediction results, all the houses signified at *all three levels of planet, star and sub* are to be jointly considered (like C. R. Bhatt, K.M. Subramaniam of *Sub Lord Speaks*, Kanak Bosmia, Umang Taneja), for instance:

- 1) The houses signified at the first two levels of star and planet are going to give the desired results, if they are supported by the sub signification. In the context of culmination of the particular event, the planet can be said to be the strongest.
- 2) On the other hand, the houses signified in the first two levels cannot give the desired results, if they are opposed by the sub signification. Here the planet is rendered weak.
- 3) In some cases, the houses strongly signified at the sub level only, although not signified in the first two levels, can give the desired results but with difficulty. The planet is supposed to be average.

Order of Significators

8. The order of significators from grade A to E preference is as follows:

- A) Planets posited in the star of the occupant of the concerned house;
- B) Occupant of the concerned house;
- C) Planets posited in the star of the lord of the concerned house;
- D) Lord of the concerned house;
- E) Planets which are in conjunction with or *aspected by* the significators (referring the Original *Krishnamurti Padhdhati Vol. 2 <1966> pp 114, 118, 301, 303, 308; KP Reader III pp 342; IV pp 118, 128, 201; V pp 149, 201; VI pp 157, 197, 247*).

9. Based on the logic of a star lord being stronger than a planet and the occupant in a house being stronger than the owner of the house:

- A) A planet in the star of the occupant of a house is stronger than the occupant and the planet is the strongest grade A significator of the house occupied by its star lord;
- B) If there is no planet in the star of the occupant, then the occupant, grade B significator, becomes the strong grade A significator;
- C) The planet in the star of the owner of a house, grade C significator, is stronger than the owner, grade D significator, and if the house is vacant, i.e. no grade A and B significators, then the planet of grade C significator becomes the strong grade A significator;
- D) If the house is vacant, i.e. no grade A and B significators, and if there is no planet in the star of the owner of the house, i.e. no grade C significator, then the owner of the house of grade D significator becomes the strong grade A significator of that house.
- E) As the grade A significators are strongest, the weakest grade E significators are generally applied as the last resort. In this regard, Guruji KSK has encouraged to apply the Western aspects but not practically applied or explained how to deal with the nature of Western aspects like good for *trine*, bad for *square*, other than to find out the exact distance. (*KP Reader I*)

M.P. Shanmugam's view in *Astrosecrets & KP Part 1* that when the outer planets (Mars, Jupiter, Saturn) aspect the inner planets (Moon, Mercury, Venus), the inner planets are subjected to the significations of the outer planets- has been found working in some DBA analysis by Kanak Bosmia. In the *example chart*, Jupiter aspects Moon and Moon has to give the results of Jupiter as per KP signification. As another example; Moon has to give the results of Mars in the case of Mars is in conj. with Moon.

Tables of Significators

10. For the attached *example chart*, the significators of planets are as compiled under.

Table 1: Significators of Planets

Plt (Cusp Sublord)	A	B	C	D	Sub (Significators)
Su	12	12	1		Sa(6,10,11)

* Planet in own star

+ Planet having any planet in its star

Close to the 1st cusp within 3° 20' orb

11. For the row of *Sun* in the above Table 1, as per the cuspal positions of the *example chart*, Sun is not the cuspal sub lord of any cusp and so there is no cusp for Sun in the 1st column. From the planetary positions, Sun is in the 12th house (significator B) and does not own any house as no cusp falls in Leo owned by Sun (blank significator D). The empty Leo is called the intercepted sign. Sun is in the star of Venus and sub of Saturn. Venus is in 12th (significator A) and lord of 1st house (significator C). Sun's sub lord Saturn is in 6th and lord of 10, 11th houses as shown in the last column. The sub lord does not favor the matters of 12th house as the sub signifies 11th house (12th to 12th house).

12. Similarly, *Moon* is the sub lord of 7, 9th cusps in the 1st column. Moon is in 10 (B), lord of 4,5 (D), in own star Moon in 10 (A), lord of 4,5 (C) and in the sub of Mercury in 12, lord of 2,3,6 as shown in the Moon's row. The 10th signification by Moon is strong with the support of 2, 6th signification by the sub Mercury. *Mars* is in the sub lord of 1st cusp, in 1 by being close to the 1st cusp within 3° 20' orb (in 12 without applying the orb theory), lord of 7, in the star and sub of Moon in 10, lord of 4,5, and so Mars is a strong significator of 10th house. *Mercury* is the sub lord of 2nd cusp, in 12, lord of 2,3,6, in the star of Ketu in 4, also signifying 6,10,11,5 and in the sub of Sun in 12. Thus Mercury is a strong significator of 12th house. Without having any planet in its star, *Jupiter* is a self strong planet to give the strong

positional signification of 12th house and the additional strong signification of 10th house by being the sub lord of 10th cusp. Saturn is strong to signify 6,10,11th houses by being in own sub.

13. For *Rahu/Ketu*, the computerized table of significators usually shows its positional house and the houses occupied and owned by its star lord only. Its signification as the agent of the planets is shown in the bracket and explained in the section of the *Rahu/Ketu significators*.

14. It can be found in the above Table 1 that the *1st house* significators are Saturn in grade A column, Mars in grade B column, Sun in grade C column and Venus in grade D column and they are accordingly noted down in the Table 2 as shown below.

Table 2: Significators of Houses

15. The *2nd house* significators are none in A and B, Venus in C and Mercury in D. The *3rd house* significators are none in A and B, Venus in C and Mercury in D, the same as for the 2nd house. Finally the *12th house* significators are Sun, Jupiter, Venus in A, Sun, Mercury, Jupiter, Venus in B, none in C and Jupiter, Rahu in D. According to the grading A to D, the order of the 12th house significators is Sun, Jupiter, Venus, Mercury and Rahu but it will be changed to the order of Jupiter, Sun, Venus, Mercury and Rahu, after taking into consideration of the frequency in appearance. Moreover, the 12th signification of Jupiter, Venus, Mercury and Rahu is in line with their sub signification of 12th house, and Sun's signification is opposed by its sub signification of 11th house (12th to 12th house). The grading of Rahu can be moved ahead as per signification order by conjunction, aspect, star lord etc.

Rahu/Ketu Significators

16. Generally Rahu/Ketu indicates (in *KP Readers* and Bhatt's *Nakshatra Chintamani*):

- 1) Firstly, the results of planet with which it is conjoined;
- 2) If no planet is in conjunction, the results of planets aspecting it;
- 3) If neither is conjoined nor aspected, the results of the star in which it is deposited;
- 4) Lastly, the result of the lord of the sign in which it is deposited.

17. In the review of the practical examples of Rahu/Ketu signification in the *KP Readers*, the findings are as follows: (Details in *Rhu/Ketu Rules in KP*, *KP E-Zine*, May 2007)

- 1) The *Hindu* aspects of house to house and conjunction in the same rasi are used;
- 2) Aspect of Rahu/Ketu is *not applied at all*;
- 3) The importance of strong significators is considered whenever appropriate by taking into account of the occupation of star lord, Rahu/Ketu in own star, Rahu/Ketu having no planet in its star and the empty houses.
- 4) Although it is quoted "only when it is neither conjoined with, nor aspected by any planet, it represents the sign lord" , whether Rahu/Ketu being in position of *planet or star lord or sub lord*, the results of the followings are taken into consideration depending on relevance to the matter under consideration regardless of their sequence of preference:
 - (a) House occupied by Rahu/Ketu,
 - (b) Planet in conjunction with Rahu/Ketu,
 - (c) Planet in aspect to Rahu/Ketu, and
 - (d) Star lord of Rahu/Ketu,
 - (e) Sign lord of rasi in which Rahu/Ketu is located.
- 5) Rahu/Ketu as the agent of the planets in conjunction or aspect or sign lord is supposed to give whatever the planet concerned is to signify (*KP Reader VI p 234*) but only the houses occupied and owned by the planet are commonly considered, and further results of the planet's star lord are rarely considered.

18. In the attached *example chart*, Rahu is in 10, in the star of Moon in 10, lord of 4,5 and in the sub of Jupiter in 12, lord of 8,9,12. Rahu acts as the agent of Moon in 10, lord of 4,5 *by conjunction*; Jupiter in 12, lord of 8,9,12 *by aspect* and Saturn in 6, lord of 6,10,11 *by sign lord* of Capricorn. Rahu in 10, in the star of Moon in 10, lord of 4,5 and in the sub of Jupiter in 12, lord of 8,9,12. So Rahu is the significator of 10,4,5,12,8,9,6,11 houses.

Cuspal Sub Lord Significator

19. It has been experienced (by Kuppu Ganapathi, Vaikari Ramamurthy, Kanak Bosmia and others) that a planet having no planet in its star is a strong significator of the houses for which it is a cuspal sub lord. It is the additional significator to the basic and Rahu/Ketu significators.

20. In the attached *example chart*, Jupiter and Rahu do not have any planet in their stars. So Jupiter is a strong significator of 10th house as it is the sub lord of 10th cusp. It is additional to the Jupiter's normal signification of 12,8,9 houses as shown in the Table 1. Rahu is the sub lord of 4, 5, 11, 12th cusps to be a strong significator of these houses.

A Planet Close to the Next House Cusp

21. An experience of the orb theory (by K.S. Krishnamurti, K.M. Subramaniam, T. Rajendra Kumar, C.V. Tyagaraja Iyer, K. Subramaniam, Carl Woebcke, Michael McClain, Chandrakant R. Bhatt, Anant Raichur,

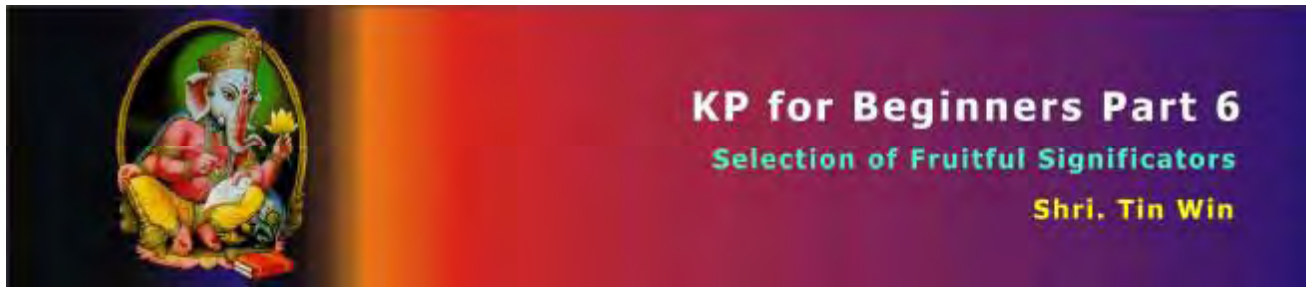

Sunil Gondhalekar, Robert Hand in *A Note on the Influence of a Planet near the House Cusp*, *Astrovision*, June 2008)

is that a planet deposited close to the next house cusp within 3° 20' orb can give the results of the next house, and the planet is considered as if it is in the next house. The tighter an orb is within 1°- 2 and no other planet is in the next house, the stronger the signification of the next house will be. This is not an additional significator but a shift in the signification of a house from the previous house to the next one.

22. If a planet is supposed to have influence on both the *previous house*, in which the planet is physically posited, and the *next house*, to whose cusp the planet is close, the results of the next house may not be effective as the previous house is detrimental or Vyaya or negative to the matters of next house. (*KP Reader III, IV; Bhatt's Nakshatra Chintamani*)

23. In the attached *example chart*, Mars at 10° Ta 20' 25" is close to the 1st cusp at 11° Ta 43' 32" within the commonly used orb of 3° 20'. So, as per the orb theory, it is to consider Mars as if it is in the 1st house, although it is physically located in 12th house. Since it is very close to the 1st house cusp within only 1° 23' orb and there is no planet in the 1st house, Mars will give the results of the 1st house other than the matters of 12th house. If Mars is supposed to give the results of both 12th and 1st houses, the results of 1st house may not be effective as the 12th house is *12th or detrimental or negative* to the 1st house.

Importance of Fruitful Significators

1. An event happens during the joint period of DBAS of the significators of houses under consideration. Many a time many planets and even all the 9 planets become the significators of the relevant house. In cases where the significators of the houses under consideration exceed more than four, the really beneficial or fruitful significators amongst them are to be found out after eliminating the unimportant significators which are only tempters. This is really a very difficult task even for an experienced KP astrologer and most failures in prediction are mainly due to the wrong selection of fruitful significators. The KP analysis starts from the cuspal sub lord for a matter that ends as an event with the help of fruitful significators.

First Method

2. The first method of selecting fruitful or beneficial significators is to see the cuspal sub lord of the concerned houses, and to check which of the significators are posited in their stars. Those significators who are in the stars of such cuspal sub lords can be taken straightaway as fruitful significators. The rest can be dropped or eliminated by further consideration.

3. The sub lord of the significator is the *deciding* factor regarding the matters of the star lord and planet. If the sub lord is harmonious to the matters indicated by the star lord and planet, the significator gives favorable results. It is to take the planet which is posited in the sub of a significator whose star is not tenanted. If the sub lord is detrimental to the matters indicated by the star lord and planet, the significator does not give favorable results. It is to take the planet which is posited in the sub of a significator whose star is not tenanted.

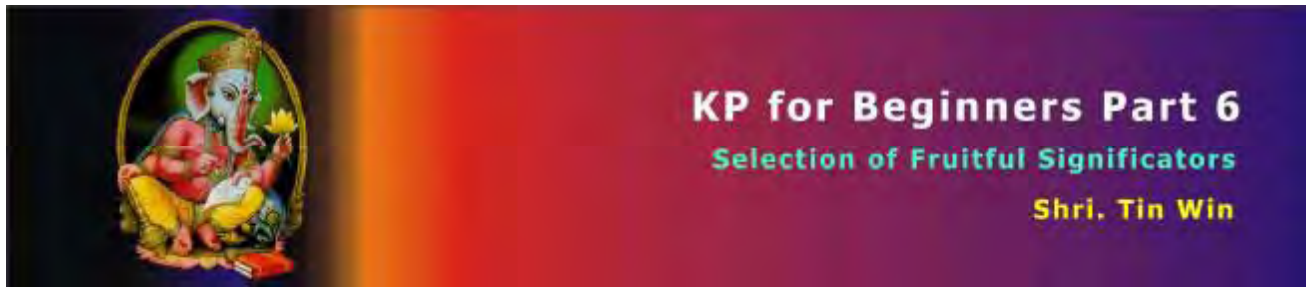

4. It is to find out whether a planet is a strong significator or a weak significator in the order in which one makes the selection of the significators. For example of marriage, if a planet is not at all connected with houses 2, 7, 11, except that one of the significators aspects it, then it is a weak planet. If the sub lord of a planet is a strong significator of the matter under consideration, then that planet is to be selected as a fruitful significator. But if the sub lord is one of the weak significators, then it is a weak planet.

Second Method

5. The second method is to select the fruitful significators with the help of the Ruling Planets (RPs) invented by Guruji KSK. According to "The RPs at the time of query would be the RPs at the time of fructification of the event expected.", the significators which are in common with the RPs are to be selected as the fruitful significators for the event in question to get the correct result.

6. In their order of preference or strength, the following planets are called the RPs of the time when the chart is cast and judgment undertaken:

- 1) Asc star lord
- 2) Asc sign lord
- 3) Moon star lord
- 4) Moon sign lord
- 5) Day lord

7. The day is from sunrise to next sunrise. The RPs are to be taken at the time of query or judgment. Their help should be sought only when there is an urge to decide the significators which can bring out the event under consideration. The RP which is in the star or sub of a retrograde planet should be omitted and to take the remaining.

8. If Rahu or Ketu is in conjunction or aspect with the RP, or if it occupies the sign owned by the RP, then Rahu and/or Ketu should be included in the RP.

9. Some KP followers have added two more RPs of Asc sub lord and Moon sub lord. For the purpose of selecting the fruitful significators, the lesser number of RPs, i.e. the original 5 seems more appropriate.

10. Even here, it is to select such of those planes which are deposited in such a sub that contributes to the matter concerned. It is also to reject such a planet which happens to be both the significator of positive and negative houses, for example of marriage, the positive houses 2, 7 and 11, and also the significator of the negative houses 12 to 2 or 7 or 11, i.e., 1 or 6 or 10. If the dasa of such significator is running, in a few cases it may not give marriage; and so the next period alone may give marriage. So that method of selection of fruitful significators is always useful.

Third Method

11. The third method of selecting fruitful significators is to check each significator whether its sub lord is included in the list of the significators. If yes, such a planet can be selected as a fruitful significators or else dropped.

General Rules

12. As a general rule, all those significators which signify 12th to the relevant houses under consideration should be rejected. The planet whose sub lord is the significator of the house negating the house concerned i.e. in the 12th to the house concerned should be rejected as an unfruitful significator. The planets which are in 6,8,12 to the concerned house are supposed not to contribute to the matters signified by such houses. Similarly any house which is in 6, 8 and 12 to any house are supposed to negate the matters governed by the house concerned.

13. Preference should be given to Rahu or Ketu, if it represents any significator. A planet which appears many times amongst the significators/RPs or connected with various significators as their star or sign or as a sub lord should be selected as the strongest to give the result. Conversely a planet which is not in the sub lords of the concerned houses should be treated as the weakest in producing the result.

1. Fixing the timing of event is the most difficult and important part of prediction. To get the basic idea in this regard, an example of timing has been discussed in this article.

Example Chart

2. Example Chart: Female born on 16 September 1983, 2:23:30 AM IST, 5:30 East of GMT, 79E57 23N10; Asc Cn 10:19:40, Moon Sg 18:41:27, New KPA 23:32:22 (Chart by KPAstro 3.0 is attached.)

Is marriage promised?

3. Marriage is promised as 7 cuspal sublord (CSL) Moon signifies 7,11 in the following manner:

- 1) 7 CSL is Mo and no planet is in the star of Mo. So Mo is the strong significator of 7; (Kuppu Ganapathi, Vaikari Ramamurthy, Kanak Bosmia and others)
- 2) Mo is in 6 I/o1; in the star of Ve in 1 I/o 4,11;
- 3) Mo is in the sub of Ra in 11; aspected by Ju+ in 5 I/o 6,9; signlord Ve in 1 I/o 4,11;
- 4) Mo is aspected by Sa in 4 I/o 7,8.

4. In judging marriage potential, the possibility of 2nd marriage and child birth also can be checked. The 2nd marriage rules are checked as under:

- 1) 7 CSL Mo is in the dual sign Sg and it signifies 7,11. First rule is met.
- 2) 2 CSL Ma is in 1 I/o 5,10; in the star of Me in 2 I/o 3,12; in the sub of Ju in 5 I/o 6,9. Second rule assuming the 2nd house as 2nd wife is not fulfilled as 2 CSL does not signify particularly 7 (legal bondage) and 11. So 2nd marriage is not promised.
- 3) 9 CSL Sa is in 4 I/o 7,8; in the star and sub of Ra. Ra is in 11; aspected by Ju+ in 5 I/o 6,9; in the star of Ma in 1 I/o 5,10; signlord Ve in 1 I/o 4,11. 9 CSL signifies 11,9. Third rule assuming the 9th house as 2nd wife is satisfied.

House for 2nd Wife

5. There are two views on the house for 2nd wife as given under:

- 1) 2nd house is assumed as 2nd wife by

6. Child birth is promised as 5 CSL Ve signifies 2,11, i.e. Ve is in 1 l/o 4,11; in the star of Me in 2 l/o 3,12; in the sub of Sa in 4 l/o 7,8.

Fruitful Significators

7. In selecting the fruitful significators,

- 1) select the planets, only if both the significator and its sub lord signify the 2,7 and 11 houses, and reject those planets in the sub signifying only 1,6 and 10 as they are 12th house to the house 2,7 and 11;
- 2) take the planets which are among the RPs at the time of judgment.

8. For the example chart, the significators for 2,7 and 11 are given as under:

H No	A	B	C	D
2	Su, Me, Ma, Ve, Ke	Su, Me	Su, Me	Su
7			Ju	Sa
11	Sa	Ra	Mo	Ve

- 1) Among the significators for 2, only Ve in the sub of Sa signifying 7 is considered as a fruitful significator and all other Su, Ma, Me, Ke are rejected for the following reasons:
 - a) Su and Me are in the sub of Ma signifying 1 (12 to 2) and 10 (12 to 11), without signifying 2,7 and 11.;
 - b) Ma and Ke are in the sub of Ju signifying 6, without signifying 2,7 and 11.
- 2) Among the significators for 11, Ra is rejected for being in the sub of Ju signifying 6, without signifying 2,7 and 11.
- 3) Finally the fruitful significators for marriage are Ve, Ju, Sa and Mo.

Ruling Planets

9. The Ruling Planets on 29 Aug 2008 at 09-09-12 PM DST (5hr West of GMT) at 39N05, 77W09 are as given under:

Planet	Sgl	Stl	Sbl
Lanna	Ma	Ve	Ve
Moon	Su	Ke	Mo
Day Lord	Venus		

- 1) Ma & Ke are in the sub of retrograde Ju and so they are rejected from the RPs.
- 2) It is to study whether the additional RPs of the sublords of Lagna and Moon are practically helpful in selecting the fruitful signficators.

Fixing DBAS

10. Current running Dasa is Mo (from.03 Sep 2001 to 03 Sep 2011). As discussed above in point 3, Mo signifies 7,11 and is the sub of Ve signifying 11. So Moon Dasa is capable of giving marriage.

11. In Mo Dasa, Ve Bhukti is chosen as shown below:

- 1) Current running Bhukti is Me (from 04 Jul 2007 to 03 Dec 2008). Me is in 2 I/o 3,12; in the star of Su in 2 I/o 2; in the sub of Ma in 1 I/o 5,10. Me is rejected for being in the sub of Ma signifying 1 (12 to 2) and 10 (12 to 11), without signifying 2,7 and 11.
- 2) Next Bhukti is Ke (from 03 Dec 2008 to 03 Jul 2009). Ke+ is in 5 and no planet is in the star of Ke. Ke is conj with Ju+ in 5 I/o 6,9; in the star of Me in 2 I/o 3,12; signlord Ma is in 1 I/o 5,10; in the sub of Ju in 5 I/o 6,9. Ke is rejected for being in the sub of Ju signifying 6 (12 to 7), without signifying 2,7 and 11.
- 3) The following Bhukti is Venus (from 03 Jul 2009 to 03 Mar 2011). Venus in 1 I/o 4,11; in the star of Me in 2 I/o 3,12; in the sub of Sa in 4 I/o 7,8. Ve signifies 2,11 and in the sub of Sa signifying 7. Ve is also among the RPs. So Ve is selected as a fruitful signficator for Bhukti.

12. In Ve Bhukti, the choice of Mo Antara is as explained below:

- 1) Su is in 2 I/ 2; in own star and sub of Ma in 1 I/o 5,10. It is rejected for being in the sub of Ma signifying 1 (12 to 20 and 10 (12 to 11), without signifying 2,7 and 11.
- 2) Mo signifies 7, 11 and in the sub of Ve signifying 11. Mo is among the RPs and so chosen as a fruitful signficator for Antara.

13. In Mo Antara, Sa Sookshma is selected as shown under:

- 1) Ma and Ra are in the sub of Ju signifying 6 (12 to 7), without signifying 2,7 and 11 and so they are rejected;
- 2) Ju is not among the RPs;

- 3) Sa is among the RPs. Sa is in 4 I/o 7,8; in the star and sub of Ra in 11. Also taking into consideration of Punarphoo by aspect of Sa on Mo, Sa is selected as a fruitful Sookshma lord.

14. Thus Mo-Ve-Mo-Sa DBAS (Dec 4 to 13, 2009) is chosen as a possible period for marriage.

Transit

15. Generally an event happens during the joint DBAS period of the signifiers when transit agrees. Particularly at the time of event, Sun, Moon and joint period DBAS lords are generally found to be transiting-

- 1) mainly in the star or sub of the same joint period DBAS lords;
- 2) additionally in the star of the signifiers of the event (other than the joint period DBAS lords) in the horoscope.

16. It is supposed to check not all planets but only chosen DBAS lords whether they are transiting in the star or sub of the same DBAS lords. Here it is not open-ended to take the signification of transiting DBAS lords which is not promised in the natal chart for them. And then for accurate timing, it is to choose the transiting Sun and Moon, which are mostly found in the star or sub of Sookshma lord at the time of event. For slow moving planets, in addition to stars and subs, the bhavas they are transiting may be also taken into account and needless to say the subs will decide the signification of transiting planets. . (KP Reader V, 2004, page 163: "One should not always calculate the Ascendant for the place of birth unless the native is permanent in his birth place.")

17. During the chosen Mo-Ve-Mo-Sa DBAS (Dec 4 to 13, 2009), a favorable transit for marriage after 13:07:22 PM IST on 06 Dec 2009 is as follows:

Planet	Sgl	StI	Sbl
Su	Ma	Me	Ve
Mo	Mo	Sa	Ju
Ve	Ma	Sa	Mo
Sa	Me	Su	Ve

Horary Marriage Prediction

1. Here is an interesting case where Antara lord does not tally with the RPs.

Question: When would I likely to get married (searching for two years)?

Horary No: 34/249

Horary Date: 11/10/2008

Horary Time: 14:05:12 PM IST

Horary Place: L.G. Hospital- Ahmedabad, 23 N 00, 72 E 36

2. Mr. Kanak Bosmia's analysis is as under:

- 1) Period lords are Ra-Ju-Mo-Ma.

Ra(9), aspected by Ma(6, 7-12), in the star of Mo(10, 3), in the sub of Ve(6, 1-6).

Ju(8, 8-11), in the star of Ve(6, 1-6), in the sub of Ju(8, 8-11).

Mo(10, 3), in the star of Ra(9), in the sub of Ju(8, 8-11).

Ma(6, 7-12), in the star of Ra(9), in the sub of Sa+(4, 9-10).

Ra is agent of Ma(6, 7-12), Sa+(4, 9-10).

- 2) RPs

Sat_Sun_Rahu_Jup_Mer

Dasa lord Rah is in RPs, and also signifies 7, promising marriage.

Bhukti lord Jup is in RPs and signifies 11, promising marriage.

So marriage is promised during this Jup Bhukti up to 15/6/2009.

- 3) How would she look like?

7th sublord is Mer, in the star of Moon. Moon is in Kumbha and so she will be slim and good looking.

- 4) Is it happening any time soon - within 6 months?

As mentioned above, it would happen within 8 months from the date of judgment (most probably in Rah Antara from 06 Feb to 15 Jun 2009).

- 5) If Antara lord is to be tallied with RP, it would need to select next Sat Bhukti which is not signifies 2,7,11 even though it appears 3 times in RPs. Next Mer Bhukti period may be too far away for a Horary prediction.

3. Another interesting thing in this chart is that the sublord of 9 cusps including 2,7,11 for marriage is Me(5, 2-5), in the star of Mo(10,3) and in the sub of Ju(8, 8-11). So 2,7,11 houses are deemed to be connected and their cuapal sublord signifies 2,11 indicating marriage. Let us wait and see what actually will happen.

Natal Green Card Prediction

4. Male born on 24 Feb 1997, 15:15 PM IST, 5:30 East of GMT, 23N02, 72E,34, Asc Ge 27:36:21, Moon Ar 23:43:09, New KPA 23:26:52 (Courtesy of Swami ji and chart by KP Astro 3.0 is attached.) All processes to get the US Green Card are over and some of his friends have already received it. He is also very likely to receive very soon and the question on 6 Sept 2008 is to predict the probable dates of receiving Green Card.

5. Generally to go abroad, the 12 cuspal sublord should signify 3, 9 (preferable) or 12. In addition, the Asc cuspal sublord should signify 3, 9 or 12 to settle abroad. The signifiers of 3,9,12 are also to be connected to each other.

6. In this chart the 12 cuspal sublord Ju+ signifies 3,12 and Asc cuspal sublord Ve signifies 12. Among the significators Su, Ju for 3, Sa, Ke for 9 and Mo, Ju+, Ra for 12, Mo is in conjunction with Ke and Sa aspects Mo (Punarphoo). So the Green Card (permanent stay permit with the prospect of citizenship) is promised.

7. After living in US over 10 years since Dec 1977, the US is the native's current residence (house 4). So to get the Green, the houses 1 (self effort), 4 (current residence), 6 (success of effort) and 11 (fulfillment of desire) are mainly to be signified to let him stay on at the current place of residence other than to move him out by the houses 3 (change in place), 9 (foreign going) and 12 (foreign land).

8. The current running Dasa is Rahu (from 26 Jul 2004 to 26 Jul 2022).

Ra(4), aspected by Mo(11, 2), in the star of Ma(7, 6-11); Ra's signlord and sublord is Ve(10, 5-12). Dasa lord Ra signifies 4,6,11 and is connected with 12 by sub.

So it is possible to get the Green Card in Ra Dasa.

9. The current running Bhukti is Jupiter (from 08 Apr 2007 to 02 Sept 2009).

Ju+(11, 7-10). No planet is in the star of Ju and Ju is the sublord of cusps 6,12.

Ju is in the star of Su(8, 3), in the sub of Rah(4) whose signification has been discussed above. Bhukti lord Ju signifies 6,11,12 and is connected with 4,6,11 by sub.

The event can happen in this Ju Bhukti.

10. The current running Antara is Venus (from 13 Jun 2008 to 07 Nov 2008).

Ve(10, 5-12), in the star of Me(8, 1-4), in the sub of Ra(4) whose signification has been discussed above. Antara lord Ve signifies 1,4,12 and is connected with 4,6,11 by sub.

It is favorable for the fructification of event.

11. Thus Ra-Ju-Ve DBA would be capable of getting the Green Card. In the Ve Antara, to choose a fruitful Sookshma the signification of current and coming Sookshma lords is checked as below:

1) The current running Sookshma is Jupiter (from 27 Aug to 16 Sept 2008).

Ju is already taken as Bhukti lord and it is too early to choose it for Sookshma.

2) The next Sookshma is Saturn (from 16 Sept to 09 Oct 2008).

Sa+(1, 8-9). No planet is in the star of Sa and Sa is a self strong planet for 1. Sa is in the star and sub of M(8, 1-4). Sookshma lord Sa signifies 1,9 and is connected with 1,4 by sub. It is favorable for the event to happen

3) The following Sookshma is Mercury (from 09 Oct to 30 Oct 2008).

Me(8, 1-4), in the star of Ma(7, 6-11), and in the sub of Ju+(11, 7-10). Me signifies 1,4,6,11 and is connected with 6,11,12 by sub. But Me is not in RPs.

4) The last Sookshma of Ve Antara is Ketu (from 30 Oct to 07 Nov 2008).

Ke(10), conj with Mo(11, 2); aspected by Sa+(1, 8-9). Signlord is Ma(7, 6-11); in own star and sub of Su(8, 3). Ke is rejected for being in the sub signifying 3 (12 to 4) and 8 (disappointment).

12. With the help of the following RPs, Sa Sookshma is chosen and Ra-Ju-Ve-Sa DBAS is the probable period to get the Green Card.

RPs at TOJ 8 Sept 2008, 16:36:22 PM IST at 27N11 78E02 (Courtesy of Swami ji)

Asc: Sa--Mo--Sa (Sgl-Stl-Sbl)

Mo:--Ju--Ke--Ve (which is Ra's signlord)

Day Lord -- Mo

13. A possible date would be 24 Sept 2008 (Ra/Ju/Ve/Sa/Ve), after 12-43-37 PM Washington D.C. time (DST, 5hrs West of GMT), when transit Mo in the star of Sookshma lord Sa moves into the sub of Antara lord Ve, and transit Sun and DBAS lords will be in the star and sub of DBAS lords as follows:

Su: Me-Su-Ve (Sgl-Stl-Sbl)

Ra: Sa-Mo-Ve

Ju: Ju-Ve-Ra

Ve: Ve-Ra-Ra

Sa: Su-Ve-Ju

14. As the house 8 is signified by all Antara, Bhukti and Sookshma dasa lords Ju, Ve, Sa, it is supposed to get the Green Card after some kind of disappointment, like friends already got but not yet got, got late etc.

15. Unfortunately there was a feedback of not yet receiving the job related Green Card in the quota of the financial year ended at the end of Sept 2008. As the Green Card is promised and the present job is also astrologically secured, it is still expected to get it in the new financial year before the end of Venus Antara, 7 Nov 2008, after disappointment and delay due to the repeated signification of the house 8 and Punarphoo effect.

Saturn Relevant to Timing of Events

1. In considering the effect of Saturn in the timing of events, the KP guidelines are as follows:

- 1) Saturn is considered to be a delaying planet and occasionally a denying one depending upon the ownership and accidental occupation at the moment of birth of the native. Whenever Saturn is in any manner connected with Moon or Mars or Jupiter, there cannot be delay. It can delay till its own i.e. Saturn period commences and when Saturn sub-period starts, it fulfills surprisingly suddenly and most satisfactorily. If Saturn is said to be a delaying planet, it does not allow the lords of the previous sub-periods to offer the result which is he is also entitled to give. When Saturn is really very much connected with houses 2, 7 and 11 by being the owner, by being the occupant of the constellation of lord of 7, by aspecting the constellation of lord of 7, by aspecting 11 etc. and conjoined with Mars, aspected by Jupiter etc., then Saturn does miracles with lightning speed. (*KP & Astrology 1996, page 38*)
- 2) Delay, dejection, disappointment, denial, etc. are caused by Sani, and strongly so if Sani occupies the 5th house where from it will aspect the 7th, 11th and 2nd houses by its third, seventh and tenth aspects respectively. Whenever Sani happens to be a significator of a particular matter, it will not deny but will cause delay. If it is connected with houses 2, 7 and 11 by occupying the house or owning it or situated in the constellation of the planet posited in any of these houses, it will cause delay at every time- in fixation of marriage, celebration of marriage, etc. It will not

deny marital happiness. But *if Sani has no connection with houses 2, 7 and 11 but only throws its aspect, this portends denial and even disappointment. Generally, all those in whose chart Sani is placed in the 5th house will have their marriage, delayed and delayed till the very end. (KP Reader IV, page 109)*

Saturn's Effect of Delay or No Delay

2. When Punarphoo Dosha is present in the chart due to Saturn-Moon connection in any manner, it is used to consider that there would be delay in marriage or happening of the event. However, Dr. Rangarajan Krishnamoorthy has found in his study of 67 Punarphoo-effected Natal charts that only 32 (47.76%) charts corresponds to delayed marriage and 35 (52.24%) charts corresponds to no delay in marriage, like in the charts of Dr. B.V Raman, Mrs. Sandy Crowther etc. It would be no delay in the cases such as:

- 1) When Saturn is very much connected with houses 2, 7 and 11 and Mars and Jupiter etc., then Saturn does miracles with lightning speed.
- 2) If both Moon and Saturn involved in Punarphoo Dosha are connected strongly to 7th house, Saturn gives marriage in its Dasha and/or Anthara.
- 3) Generally, whenever the 7th sub-lord happens to be Moon marriage comes in an earlier or in proper age never late. *(KP & Astrology 1996, page 37)*

Choose or Avoid Saturn DBA

3. In considering whether Saturn DBA dasa periods are capable of giving marriage in the Punarphoo-effected charts, the views as given under:

- 1) Saturn who is a delaying planet will not allow marriage until his Bhukti or Anthara period is over and the event will materialize only in a favorable dasa periods of the succeeding planets.
- 2) If Saturn becomes a strong significator of the relevant houses under consideration, Saturn Dasa or Bhukti or Anthara should be preferably considered for the timing of event as Saturn takes the credit of giving the events while letting down his predecessor planets. It is supported by the above conditions in #2 and some experience that the event is used to happen in Saturn, Moon DBAS periods. (Dr. K.R. Kar, Shri Vaikari Ramamurthy, K. Subramaniam and Mr. Kanak Bosmia)
- 3) The bottom line is whether Saturn and Moon strongly signify 2,7,11 houses other than mere connection of Saturn and Moon.

Cancellation of Punarphoo

4. Dr. Kar's theory of cancellation of Punarphoo to destroy the evil effects of Punarphoo by burning Sat or Moon by Sun's ray is found not significantly working by some experience of Mr. Kanak Bosmia, Shri Rajendra Kumar and 15 Puarphoo-nullified example charts in Punarphoo book. (KPEzine July 2007, Astrovision December 2008)

5. Another cancellation idea of 'Saturn giving: a) marriage without delay, if there is adverse *Western* aspect between Moon and Saturn; b) delayed marriage, if there is Western favorable Western aspect' is to be tried. (KP for Beginners, Vol. V, 1994, page 744/ Punarphoo, 1999, page 74)

6. The experience is that whenever both Saturn and Moon are applying conjunction in the 7th house or 8th house, the date of marriage is post-phoned and in the latter case, the marriage with the first party breaks off and the marriage takes place with change of partner. But where both the planets are in rapt conjunction (exact degree) in the said houses, the dosha is totally nullified and there is no delay at all. (KP for Beginners, Vol. V, 1994, page 755/ Punarphoo, 1999, page 84)

Saturn's Denial of Marriage

7. The above KP ruling in #1.2, "*If Sani has no connection with houses 2,7 and 11 but only throws its aspect, this portends denial and even disappointment.*" is found working in the chart given below.

8. *Chart 1*: Male, 24 October 1964. 15.12 PM IST, 18N32, 73E52, New KPA (2003) 23:16:32, Asc Aq 14:16:06, Moon Dasa balance 1Y:8M:8D (attached). Saturn in 1st house throws aspect on 7th house by Hindu aspect but Saturn does not signify any of 2,7,11 marriage giving houses, i.e. Saturn is in 12, lord of 1,12 and in the star of Mars in 6, lord of 3,10. Moreover, 7th cusp sub-lord Venus is in the deciding sub-lord of Moon, which is in 4, lord of 6. Thus marriage is denied as per KP.

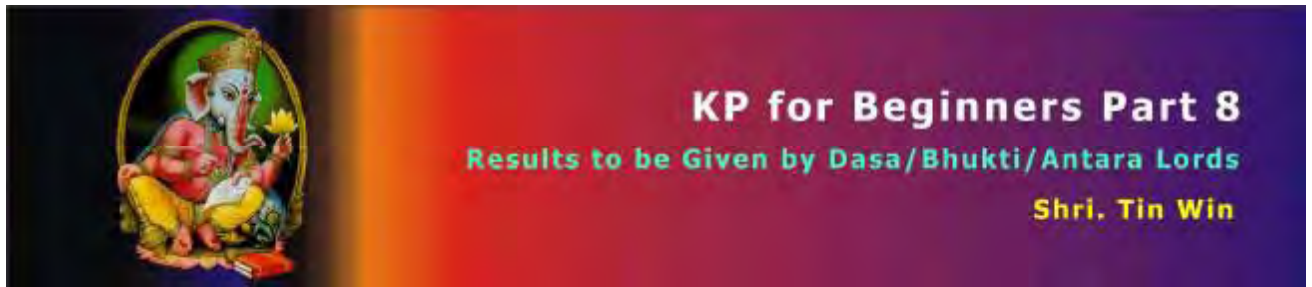

Saturn's Delay of Marriage till the Very End

9. Another above KP ruling in #1.2, "*Generally, all those in whose chart Sani is placed in the 5th house will have their marriage, delayed and delayed till the very end.*" is also found working in the following chart, causing delay of marriage till the very end of Saturn Dasa, i.e. Jupiter Bhukti of Saturn Dasa.

10. *Chart 2*: Male, 09-03-1958, 17:30 PM IST, 14N15, 75E41, New KPA 23-10-59, Asc Le 09-53-44, Rahu Dasa Bal 3Y-6M-3D. (attached) Saturn is in 5th house (sign) and aspects all marriage giving houses 7,11,2 to cause the exceptionally prolong delay of marriage only on 27-05-1994 (Sa-Ju-Ju-Su DBAS) though signifiers for 2nd house are Sun, Mercury, Jupiter, Mercury, Rahu, Ketu, for 7th Mars, Sun, Mercury, Saturn, Ketu and for 11th Mercury being capable of giving marriage in earlier Bhuktis.

11. It is to note that Saturn in 1,3,5,7 and 10 counted from lagna delays the time of fixation and celebration of marriage. Saturn placed in the 5th house (house of celebration of marriage) aspecting the 7th cusp by the 3rd aspect delays the wedding till the native gets disgusted and dejected

12. *Chart 3*: Female, 19-02-1974, 05:20 AM IST, 22N28, 70E04, New KPA 23-24-21, Asc Cp 01:34:28, Sun Dasa balance 4Y:1M:1D (attached) In this chart Saturn is in 5th house (bhava) but 6th sign, *not 5th sign*. Since Saturn does not aspect marriage giving houses 7,11,2, the above said ruling in #1.2 or 9 is not applicable to this chart. Here Punarphoo is not present to give an excuse and delay of marriage till now is possibly due to some negative signification of Rahu as 7th cuspal sub-lord and lord of the current running Dasa.

1. By occupation and lordship, the Dasa lord and its star lord indicate the houses, whose matters will be enjoyed during the Dasa period. The sub lord of the Dasa lord will indicate whether the results indicated by the Dasa lord and its star lord will be positive or negative. If the planet is conjoined with/ aspected by another planet, it will give the results indicated by another as the weak grade 'E' significators.

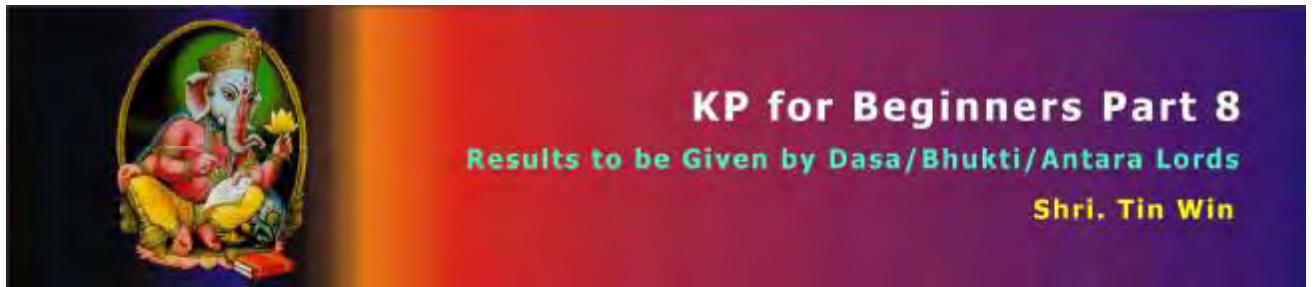

2. The same can be said about the Bhukti lord also. The Dasa lord is the most powerful commander. No Bhukti lord can offer a result, if the Dasa lord does not permit. What the Bhukti lord can do is to obstruct the Dasa lord from giving results but he cannot alter the result. The Antara and Sookshma lords can carry out the mandate of the Dasa/Bhukti lords, if they have similar significations as the Dasa/Bhukti lords. If not, the event cannot take place in their Antara or Sookshma and will have to wait for another Antara/ Sookshma periods when they can execute the results destined by the Dasa/Bhukti lords. Planets form a cabinet. The prime minister is the Dasa lord. The Bhukti lords are the ministers and the Antara lords are deputy ministers.

3. The Dasa lord can give the result in the case of marriage as follows:

- 1) If Dasa lord/its star lord signifies 2, 7, 11 and its sub also signifies 2,7,11, the marriage is fully indicated in this Dasa period;
- 2) If Dasa lord/its star lord signifies 2, 7, 11 and its sub signifies 2,7,11 and also 6,8,12, the marriage would take place but with a lot of difficulties;
- 3) If Dasa lord/its star lord signifies only 6, 8, 10,12, then no marriage is clearly indicated.

4. The following example chart- 1 (attached) shows that the Bhukti lord cannot provide the result, which is not allowed by the Dasa lord.

- 1) Female, 04/07/1927, 2:00 GMT, 41N55, 13E06, Sid Time 21:36:45, KPNA 22:45:18, Venus Dasa bal 16Y:4M:25D (KPAstro 3.0)
- 2) The native married in January 1949 (Su/Ve Dasa/Bhukti) and divorced in 1971 (Ra/Ju).
- 3) The 2nd marriage is promised:
 - a) 7CSL Ra signifies 2,7;
 - b) 7CSL Ra is in the dual sign Gemini;
 - c) 2SCL Ve signifies specifically 7 and also 11.
- 4) In October 2006 (Sa/Ke/Ke), at age 79, the native announced a wedding plan to marry her 45-years-old companion for 22 years but the plan was called off due to media pressure around the event.
- 5) Dasa lord Sa does not allow marriage by the signification of 6,10 and indicates only relation by 11:
Sa(6,6-91-11) is in own star Sa(6,6-91-11) and sub of Ve(4,1-6).
- 6) Bhukti lord Ke is favorable for marriage:
Ke is in 7, aspected by Su(2,5) and sign lord is Ju(11,8). Ke is in own star and sub of Mo+(4,3-4). No planet is in the star of Mo, which is sub lord of 11.
- 7) Although the 2nd marriage is promised, the favorable Bhukti lord Ke cannot provide the marriage which is not allowed by the Dasa lord Sa.

- 8) The previous Dasa (27/11/1984 to 27/11/2000) lord Ju also did not allow the marriage in any of its Bhukti and only provided the relationship with her companion since 1984:
Ju+(11,8) is in star Sa(6-9-10-11) and sub Ve(4,1-6)
- 9) Without the 7th signification, only the 11th signification of Dasa used to provide the relation (lover, companion, living together etc) only, not marriage.

5. The example chart-2 (attached) denotes that the Dasa lord can provide the result, which is not supported by the Bhukti lord.

- 1) 05/05/1955, 16-07 GMT, 28N41, 77E12, KPNA 23-8-36, Asc Sc 26-04-19, Ra Dasa bal 17Y-OM-9D (KPAstro 3.0)
- 2) The native married in April 1979 (Ju/Me/Sa/Ju DBAS):
Ju(8,2-4) is in own star Ju(8,2-4) and sub Mo+(10,11). No planet is in star of Mo which is sub lord of the 2nd cusp.
Me(6,8-10) is in star Su(5, 9) and in own sub Me(6, 8-10).
Sa+(11,3) is in star Ju(8,2-4) and sub Me(6,8-10). No planet is in star of Sa which is sub lord of the cusps 6, 12.
- 3) Dasa lord Ju provides the marriage which is not in line with the signification of Bhukti lord Me. In KP it is not a necessary condition for each DBA lord to signify at least one of the required houses i.e. 2,7,11 for marriage. That is the reason for failure of the prediction generally based on the houses which are commonly signified by all the dasa lords.
- 4) Ju/Me DB gives the marriage but Dasa lord Me is not capable of giving marriage as Me does not signify 2,7,11 and in contrary signifies negative houses 6,8,10.
- 5) The results of Ju/Me DB and Me/Ju DB cannot be the same for marriage because of contradictory significations by Ju and Me. The matter of similar significations by Ju and Me may happen in both Ju/Me DB and Me/Ju DB.

6. Dasa/Bhukti will change in the cyclic order of the Vimshothari Dasa But the cuspal position is ever the same and never will change. The cusps indicate whether the matter is promised or not. Significators point the time of event. Both dasa and transit must agree for the event to materialize. The agreement means that the dasa lords in transit should also signify the required houses. An event, which is promised, happens in the joint period of DBAS signifying the required houses. A promised event cannot happen, if the Dasa lords are not favorable.

7. Since an event cannot happen without being promised and the cuspal sub lord of a house is all powerful, it is worthy to test the following rules whenever they are relevant:

- 1) One cannot suffer the accident in the period of the dasa lord signifying 8th , if the 8th cuspal sub lord is the significators of 3 and 11, which promise a life without accidents;
- 2) One cannot suffer all the adverse matters indicated by the 12th house in the Dasa of 12th house significator, if the 12th cuspal sub lord is strongly signifies the improving houses 1,2,3,6,10,11, especially 11th, as in the chart of Mr. Tony Blair;
- 3) The effect of the 11th Badhaka can be relieved, if the 11th cuspal sub lord signifies the 10th house, which is 12th to 11th house, etc.

8. The karaka without the signification of the required houses is not a significator itself but the limited use of the karaka can be considered:

- 1) The dasa lords connected with 4th house and Mars will indicate house. 4th house and Venus indicates conveyance. 4th house and Moon govern mother. 4th house and Mercury indicates education.
- 2) If the 4th cusp and Moon occupy the constellation of significators of the 9,11,3 houses and if the sub belongs to Badhaka, Maraka to the 4th house, the mother will be unhealthy and not live long.
- 3) The karaka planets are helpful in the identification of diseases.

Astrologer Kanak Boshmia was born in small town of Saurashtra (Gujarat - India) - Amreli on 25th Feb 1961. He had completed His study up to 12th at Bhavnagar. In 1977 he came to Ahmedabad and started his own business. In 1979 his interest towards astrology started during his business visit of various cities of India, he did also referred many books of astrology and met many learned astrologers all over India.

He joined school of astrology and was honored by Jyotish Visharad, Jyotish Ratna, Jyotishaacharya, Jyotish Visharad. In the year 1996 he started astrology as a main profession; from 1999 he adopted totally KP Astrology and got mastery in Krishnamurthy Paddhati (KP).

K. P. MUHURAT
— A Novel Technique in K. P.

Kanak. B. Boshmia

1. A planet signifies the matters through the following three levels:

- 1) The Planet itself
- 2) The Star Lord of the Planet
- 3) The Sub Lord of the Planet

2. In order to get the better prediction results, all the houses signified at the planet level, star level and sub level are to be jointly considered, keeping in mind that the houses signified in the first two levels opposed by the sub-lord signification cannot give the desired results and the houses strongly signified at the sub level, even though not signified in the first two levels, can give the desired results. This approach has been practiced by Shri C. R. Bhatt and followed by Mr. Kanak Bosmia with success, and it has been found that sometimes the events happen by the sub signification only.

3. In addition, a cuspal sub-lords becomes the strong signifiers of houses for which a planet is the cuspal sub-lords, if that planet has no planet in its star. Moreover, if a planet is deposited close to the next cusp within 3deg:20min orb, its signification of the next house is also to be considered.

4. The sub-lord of a planet decides whether that planet is auspicious or inauspicious for the house signified by that planet. Sri K.M. Subramaniam has also reminded in his last 'Sub Lord Speaks' article LX 'that the sub-lord of a planet tells the fructification of certain matters, shown by the sub-lord and the result of either good or bad in terms of the signification of the sub-lord. In judging the signification of the sub-lord, he used to consider the star-lord of the sub-lord.

5. The sub-lord gives the decision in selecting the fruitful signifiers whose sub-lords are the signifiers of the required houses in such cases when a planet is the signifier of many or almost all houses. In a theory which takes the sub-lord as a signifier, not a decider, the sub-lord is no more helpful for selection of fruitful signifiers in such cases.

6. The cuspal sub-lord is also a planet and considering its star-lord is the second level but not the fourth level judgement. Just as the favorable or unfavorable effect of a planet in DBA analysis is controlled by its sub, an examination of the cuspal sub-lord of a house enables to decide finally and clearly, whether the matter denoted by that house in question is promised or not.

7. During the same dasa level, the sub-lords of the dasa lords indicate marriage in a sub dasa level and divorce in another sub dasa level and the same for sickness and cure etc., for which KP is capable to provide a clear prediction.

8. The application of only the first 'two levels' of planet and star-lord has been done since 'Shri Satyacharya's Dhruvanadi' of about 2000 years ago to Dr. B.V. Raman's 'How to Judge a Horoscope and Notable Horoscopes'. Without applying the sub-lord in prediction and the Placidus house system in casting a horoscope, it is not KP.

9. As Shri Kuppu Ganapathi has mentioned, KP is the sub-lord theory, nothing else and the discovery of the systematic sub application in methods of prediction has crowned KP with success.

10. The following theories have been invented on the basis of KP principles but by changing the role of the sub-lord as per KP:

- 1) Sub Sub Theory by Dr. Pt. K. R. Kar applying the sub-sub-lords
- 2) Cuspal Interlinks Theory by Mr. K. Basakaran (KB) applying interlinks of sub- lords.
- 3) Four Step Theory by Mr. Sunil Gondhalekar applying the star-lord of the sub-lord as 4th step

11. These theories are to be applied by their own names, without mixing with KP because they use the principles and methods of prediction different from KP, not traditional KP, only one KP, which is invented by Guruji KSK only.

12. As Shri Raichur has mentioned, please do not mix up KP and 4 Step Method. Though 4 Step Method is based on the KP principles, its methods of predictions and steps are not identical to KP methods. It is better to keep them separate, just as we keep Vedic methods separate from KP, though KP is based on Vedic Principles

13. The bottom line is to apply KP or any other theory separately on its own principles and methods of prediction in order to avoid the confusion. Astrology is not a monopoly but to maintain and develop KP principles as guided by Guruji KSK is, in my personal opinion, a duty of all KP lovers.

How to Use the KP House Grouping Tables

The KP House Grouping Tables are intended to help the KP lovers to check the promise and timing of the event. The cuspal sub lord of a house indicates whether the event or matter signified by that house is promised or not. If it is promised, then the event would happen in the joint period of the fruitful significators of required houses for that event. In the House Grouping Tables, if the cuspal sub lord of the house (mentioned in Column 1) is the significator (by occupation or ownership at the planet, star and sub levels) of the house or houses (mentioned in Column 4), then the event (shown in Column 3) is promised. Then only during the joint period of the significators of the house or houses (mentioned in Column 5) the results of the matter (shown in Column 3)

For example, marriage is promised, if the 7th cuspal sub lord signifies the required marriage houses 2 or 7 or 11 (2nd- addition to family members; 7th - legal bondage, spouse, the main house for marriage; 11th- permanent tie of friendship). The marriage would take place only during the joint period of the significators of houses 2 or 7 or 11.

Generally, the promised marriage fructifies when Sun, Moon and DBAS lords are transiting in the star and sub of same DBAS lords or 2,7,11 significators.

Genuineness of the horary chart is indicated, if Moon signifies the required houses for the event under consideration, for example, for foreign going 3 or 9 or 12 houses. It is promised, if the main house, 12th cuspal sub lord signifies houses 3 or 9 or 12. The promised event of foreign going would happen only during the joint period of the significators of houses 3 or 9 or 12. For fulfillment of desire, the 11th cuspal sub lord should signify houses

Mr. Murthy did is primary education at Balajipeta, secondary at Badangi & Sompeta of Srikakulam Dist. SSLC at Viziana-garam. He started his career at his tender age of 16 and pursued higher education while in job. He acquired Bachelor's Degree in Commerce at Badruka College, Hyderabad, Masters Degree in Commerce from Osmania University. His quest for knowledge continued, acquired Post Diplomas and a Fellow Membership of Institute of Company Secretaries of India New Delhi and Costing from Institute of Cost & Works Accountants, Calcutta.

He joined Government service since 1975 viz. A.P. Small Scale industrial Development Corporation Ltd., & A.P. State Essential Commodities Corporation Ltd., moved on as a General Manager (Fin) & Company Secretary in Kumar's Group of Companies (Kumar's Metallurgical Corporation, Stilbene Chemicals Ltd., Kumar's Cotex Ltd., & Kayquinone Organics (India) Ltd., at Hyderabad. AP. INDIA. Now his Professional acumen is rendered to Nizam Sugars Limited as Advisor and also Practising as Company Secretary.

The native learnt Astrology from his maternal uncle, whose family belongs to Astrologers. Later from 1975 onwards for the past 33 years the native is engaged in manual casting of birth charts on Nirayana system basing on Ephemeris and Raphael's Tables of Houses, till the computers era started. From 1994 onwards, the manual casting has been dispensed with and obtaining birth charts through computerized programs was started. His English communication skills is a testimony of his erudition. Everyday sunrise starts with regular pooja, upasana to Sri Gayathri, Sri Subhramanya Shiva Abhishekam (Namakam) and concludes with Yoga. The native has enriched and quenched his thirst for knowledge by regular study of various Astrological Magazines since 1975 (BV Raman from 1942 to 1985 and Sri KSK ji's KP System of Astrology & Athrista Magazines). Database of approximately 5000 charts of various people from different walks of life, which he has for research purpose is a testimony of his rich theoretical, practical knowledge, vast experience which he gained by indepth study of charts. He has been awarded Daivagnya Ratna title in 1994 for his Astrological research by the Speaker of AP Govt. in Ravindra Bharathi and Daivagnya Siromani in 2004 by Sri PVK Punneswara Rao, Universal College of Astro and Occult Sciences, Hyderabad. We wish him many more laurels.

Shri Sumanadasa Namarathna
(astro nickname Sunaparantha Kalyan)

E-mail: sunaparantha@yahoo.com

A well respected, elderly gentleman, native of Srilanka who retired as Accountant from Srilanka Insurance Corporation after a stint of 35 years. He has been fortunate to commence his vidyarambham in Vedic Astrology during 1969 and his Gururji was a Buddhist Monk and also related to him as uncle (i.e. father's elder brother). His quest for knowledge did not stop with Vedic Astrology and started his focus on Krishnamurti Padhdhati. His sparked intelligence helped him grasp the teachings of Sri KSKji. His fortune did not stop with that and he has been most fortunate to get the priceless guidance of Sri Tin Winji as his Mentor in his KP pursuits. He has realized that time is precious and human life is a great opportunity; these two truths propelled this gentleman's zest and zeal to delve into KP related research, why and how?

Mrs GEETA DHAGAY,

A Commerce Graduate, Holistic Healer with appreciable interests in Reiki, KP Astrology and Hypnotherapy, who is now a resident of Chennai, has contributed few medical astrology articles as Co-Author along with Sri OVN Murthy ji. Her insight into KP is well reflected in the articles scribed by her. We wish her vision, ambition and endeavour a great success.

K RAGHAVENDER KUMAR, M.Sc B.Ed

E-mail: raghavenderkumar28@gmail.com

This young gentleman, who is in his 30s, has co-authored few medical astrology articles along with Sri OVN Murthyji. His insight and quest for knowledge, especially his interest in Krishnamurti Padhdhati is a testimony of his analytical skills and sure that his entry into KP will attract many youngsters to learn the scientific system of astrology, known as Krishnamurti Padhdhati, propounded by our Gururji Sri KSKji. We wish his vision, ambition and endeavour a great success.

Introduction

1. This article is an attempt to find the astrological indicators of throat cancer, which was diagnosed only at the 4th stage even in the case of the Hollywood super star Michael Douglas. Also it is to try to find the clue why doctors were unable to see the reality of his health and the cause of his discomfort.

Theoretical Rulership of Throat Cancer

2. The nature of cancer is uncontrolled growth of cells. Such a process is connected to Jupiter, the planet of accelerated cell growth and tumor formation. Moreover Saturn is a planet for obstruction and malignant type of disease like cancer. Rahu is the planet responsible for malignant tumor or growth. Mars can trigger changes in the evolvement of the disease. Since cancer involves the mutation of cells that happen in an underground fashion, the Planet Pluto and the sign Scorpio may be prominent in the cancer chart. A cancer that commenced with a Mars connection may be cured, but one starting with a Saturn connection is more serious, and one commencing with a Pluto connection is likely to be fatal.

3. Sign Taurus governorship and planet Venus rulership of the throat are undisputed. But house rulership of the throat is taken 2nd or 3rd of different views. As per theory of relationship between sign and house meanings, it seems always to have existed in anatomical matters, such that the 1st house and Aries both relate to the head, the 2nd house and Taurus to the throat and so on.

4. The ruling or responsible signs, planets and houses for throat cancer should be studied whether they are connected with houses 6 (disease), 8 (serious disease, surgery) and 12 (hospitalization). The disease finder 6th cuspal sublord connection to these signs, planets and houses would play a crucial role. Also the sign lord and star lord of 6th cuspal sublord may be checked in addition to the 6th cuspal sublord, its star lord and sub lord.

5. Moreover the influence of Maraka (2,7), Badhaka (11 for movable, 9 for fixed and 7 for common sign Asc.) and Moksha (12) would be studied, since cancer is frequently a fatal disease. An additional indicators may be connection to trigonal or terminal houses of 4,8,12 or detrimental houses to cure or untreatable 12,4,10 (12th to 1,5,11). House 10 is also retirement from this world.

6. There are, of course, other things to be studied on case by case basis since something as varied as cancer is hard to pin down in the horoscope, because it strikes very differently in people's charts.

Charts and Source

7. The throat cancer charts under study and source of them are furnished as under.

Findings

10. Connection to houses 6,8,12 or terminal 4,8,12 or untreatable 12,4,10 and death inflicting Maraka, Badhaka and Moksha houses has been found:

- 1) for Taurus in 18 charts (90%), except charts 10 & 17;
- 2) for 2nd house in all 20 charts (100%) without exception;
- 3) for 3rd house in 15 charts (75%), except charts 1,3,12,14 & 19;
- 4) for Venus, Jupiter and 6th cuspal sublord more or less almost all 20 charts (100%).

11 Connection to any of Ta sign, 2nd & 3rd houses, planet Venus, Jupiter and 6th cuspal sublord has been found:

- 1) for Saturn in 19 charts (95%), except chart 9;
- 2) for Mars in 19 charts (95%), except chart 14;
- 3) for Jupiter in 17 charts (85%), except chart 6,10 & 20;
- 4) for Venus in 14 charts (70%), except chart 4,5,8,10,11 & 20;
- 5) for Rahu in 12 charts (60%), except chart 2,4,5,6,11,12,15 & 17;
- 6) for Pluto in 6 charts (30%) only by occupation and opposition in chart 5,7,9,13,14 & 19;
- 7) for Neptune in 3 charts (15%) only by occupation in chart 2,5 & 7.

12. DBA lords, their star lords and sub lords have been found connected to:

- 1) Saturn & Venus in 15 charts (75%);
- 2) Rahu in 14 charts (70%);
- 3) Jupiter in 13 charts (65%);
- 4) Mars in 4 charts (20%) only.
- 5) death inflicting Maraka, Badhaka and Moksha houses in 15 (88%) out of 17 death cases, except chart 8 & 9 without signifying Badhaka.

Michael Douglas's Case

13. His case is chart no. 6 and his current running Jupiter Dasa, Saturn Bhukti (19 Apr 2009 to 31 Oct 2011) may be critical because of the following reasons:

- 1) Bhukti lord Saturn indicates death inflicting houses as shown in his chart no. 6 in the table 2 and mentioned in item 5 above;
- 2) As a positive indication of Dasa lord Jupiter, it does not basically signify Maraka, Badhaka houses. But Jupiter is closely conjoined with Mercury and closely aspected by Saturn, both of which signifying death inflicting houses;
- 3) Moreover 1st cuspal sublord is also Saturn, indicating average longevity of up to 66 years of age, which had been recently reached;
- 4) His wife Catherine Zeta-Jones (Asc. Sc 29:38:30, KPNA 23:20:40) is running Venus Dasa and Bhukti (18 Nov 2009 to 17 Mar 2013), signifying houses 2,4,8,10,11 possibly related to inheritance.

14. Anyway we wish the native success in his strongly determined fight against the disease.

1. The rulers for liver trouble and cancer by Bills, Cornell and Lehman are as follows:

**liver trouble: Jupiter, Sagittarius, 5, 9th houses, Saturn and Mars;
cancer disease: Cancer sign, Moon and Saturn.**

2. In the attached chart, Jupiter is in 5, l/o 2 (Maraka), 11 (Badhaka), 12 (Moksha). In 5, Jupiter is conj. Mars l/o 3,10 and Venus l/o 4,9. Jupiter and Mars are opposite Moon in 11, l/o 7 is opposite Jupiter, Mars and Venus. Saturn is in 9, l/o 1. No planet is in the star of Saturn, which is the sublord of 4,10 cusps. Jupiter aspects Saturn in 9. Saturn aspects Moon in 11. The 7th cusp of Maraka house falls in Cancer sign, which is aspected by Saturn.

3. The 6th cuspal sublord is Venus in 5, l/o 4,9. Venus is in the star of Mars in 5, l/o 3,10 and in the sub of Moon in 11, l/o 7. No planet is in the star of Moon, which is the sublord of 9,12 cusps.

4. The 8th cuspal sublord is Jupiter in 5, l/o 2,11,12. Jupiter is in the star of Rahu in 1 and in the sub of Mercury in 4, l/o 5,6,8. Rahu is aspected by Jupiter and in the star of Jupiter. Rahu's signlord Saturn is in 9, l/o 1. No planet is in the star of Saturn, which is the sublord of 4,10 cusps. No planet is in the star of Mercury, which is the sublord of 5th cusp and so Mercury is a strong significator of 5.

5. It is the typical chart of liver cancer. But he died at the age of 90 on February 17, 1986 (Sat-Ven-Rah-Sun DBAS). Here it is worthy to note that the Ascendant sublord is Jupiter, the same of 8th cusp, and Jupiter's sublord Mercury's signification of 5 in support of 1,5 signification by the planet Jupiter and star Rahu is supposed to give him a long life despite of Jupiter's signification of Badhaka, Maraka and Moksha. In this chart 11th is Badhaka and not helpful for longevity. Another thing is that the TOB 19:09 GMT of May 11 (00:23 LMT <5:14 East> of May 12 in India), used in this analysis as per courtesy of the AstroDatatabank, is more appropriate than another circulating TOB 19:16 GMT of May 11 (00:30 LMT of May 12) for the justification of long life and 6th cusp signification.

6. The signification of dasa lords at the time of his death is as given under:

Dasa lord Saturn 9, l/o 1. No planet is in the star of Saturn, which is the sublord of 4,10 cusps. Saturn is in the star of Rahu in 1 and sub of Jupiter in 5, l/o 2,11,12. Rahu is aspected by Jupiter and in the star of Jupiter.

Bhukti lord Venus is in 5, l/o 4,9. Venus is in the star of Mars in 5, l/o 3,10 and sub of Moon in 11, l/o 7. No planet is in the star of Moon, which is the sublord of 9,12 cusps.

Antara lord Rahu is in 1 and aspected by Jupiter and in the star of Jupiter in 5, l/o 2,11,12. Rahu is in the sub of Venus in 5, l/o 4,9.

Sookshma lord Sun is in 3, in own star and sub of Mars in 5, l/o 3,10.

7. It is found that the house 4 (end of everything) and 10 (retirement from this world) became the death inflicting houses in combination of Badhaka (11), Maraka (2,7) and Moksha (12) houses.

8. This is the horoscope of great thinker Shri Jiddu Krishnamurti who left India first time for England in April 1911 (Ven-Jup DB signifying 3,9,12,7) and visited mother land last time in November 1985 (Sat-Ven DB signifying 3,9,11) just before his death in US.

Introduction

1. Heart attacks are the leading cause of death all over the world. According to the figures, released on June 19, 2009, by the Delhi Government's Economic Survey, heart disease is the single biggest killer in the National Capital, followed by diabetes, i.e. the survey, released on Friday, heart attacks killing approximately 15,442 people in 2007, in comparison to diabetes killing 3,920 people.

2. Heart attack is defined as a case of coronary thrombosis. This happens when the heart is unable to pump blood efficiently to all parts of the body.

Chief Rulers of the Heart

3. Sun is the undisputed 'ruling planet' of the heart, and consequently sign Leo owned by Sun becomes the 'ruling sign' of the heart. As Leo is 5th sign in the zodiac, the 5th house from the Ascendant is the 'ruling house' of the heart, consistently with the theory of relationship between sign and house meanings. These three chief rulers of the heart are accepted in the Vedic astrology where the 4th house is considered as a ruling house of heart. (*Essentials of Medical Astrology* by Dr. K.S. Charak, 2002, pp 163-164; *Medical Astrology* by Dr. Shanker Adawal, 2008, p 164)

4. Since there are many kinds of heart diseases and major heart attack risk factors, other rulers of the heart like Moon, Jupiter, Aquarius etc are also to be studied on case by case basis. In this paper only the chief rulers of the heart have been observed on the basis of twelve charts.

Charts under Study

5. The twelve charts under study and source are as given under, the serial no. 1 to 11 charts of death charts and no. 12 of five times heart attack surviving chart.

Connection of Heart Chief Rulers to Disease and Death Houses

6. The connection of the heart chief rulers Leo, Sun, 5th house and also 4th house, disease indicator 6th cuspal sub lord to the houses 6 (disease), 8 (serious disease, surgery) and 12 (hospitalization) as well as death inflicting houses Maraka (2,7), Badhaka (11 for movable, 9 for fixed and 7 for common sign Ascendant) and Moksha (12) has been observed as furnished in the following table 1.

7. It has been found from the above table 1:

- (1) Generally Leo, Sun, 4,5 houses and 6th CSL are connected to 6,8,12, Maraka & Badhaka, Moksha houses, except in chart no. 9;
- (2) 1st (physical constitution) and 6th (physical disorder/ disease) cuspal sub lords are found connected by their signification in 9 (75%) charts out of 12 charts under study, except in chart no. 2,3 & 7.
- (3) Mars, a 'trigger' planet about sudden things happening like a cardiac arrest, also representing muscular parts, blood, and circulatory system of body, is connected to Leo, Sun, 4,5 houses and 6th CSL almost in all charts;
- (4) 6th CSL is connected to Leo (Sun), 4,5 houses and 6th CSL in 10 (83%) charts out of 12 charts; in details to 5th house in 8 (67%) charts, to 4th house in 4 charts (34%), to Mars in 6 (50%) charts and to Sun in 2 (17%) charts;
- (5) Uranus, so-called ruler of unexpected, shocking and traumatic things taking place, is connected to Leo (Sun), 4,5 houses and 6th CSL in only 5 (42%) charts out of 12 charts.

8. The houses signified by the Dasa, Bhukti, Antara and Sookshma lords on the date of death from heart attack have been provided in the table 2 below.

9. The above table indicates the following points:

- (1) The DBAS lords on date of death signify the death inflicting houses Badhaka, Maraka and Moksha houses almost in all charts up to chart no. 11, except chart no. 2 without signifying 12th house (Moksha);
- (2) Terminal or trigonal houses of 4,8 & 12 in combination are signified in 9 charts (82%) out of 11 charts, except chart no. 2 & 5;
- (3) 6th house is signified in 10 (91%) charts out of 11 charts, except chart no.3;
- (4) 10th (name, fame) is signified in 10 (91%) charts out of 11 charts, except chart no.2, here as retirement from this world (death);
- (5) Connection of DBAS lords to Mars is found only in 4 (36%) charts of 11 death charts;
- (6) But connection of DBAS lords to Mars is found in all 5 surviving cases of chart no. 12.

10. The star lord and sub lord in which the DBAS lords, Sun and Moon were transiting on the date of death from heart attack are as provided in the table 3 under.

11. The major points learned from the above table are as given under:

- (1) The DBAS lords and Sun and Moon were transiting, on date of death, in the star or sub of signifiers of death inflicting Badhaka, Maraka and Moksha houses almost in all death charts, no. 1 to 11;
- (2) But only in 5 (45%) charts out of 11 death charts, the DBAS lords and Sun and Moon were transiting, on date of death, in the star or sub of those running same DBAS lords;
- (3) The star and sub lords in which DBAS lords and Sun and Moon were transiting, on date of death, are connected to Mars in 7 (64%) charts out of 11 death charts.

Kenneth Lay (Ch. No. 11): Ordinary Heart Attack or Suicide?

12. The indicator of the death mode, 8th cuspal sublord is found connected to Mars in only 4 (33%) charts out of 12 charts, i.e. chart no. 1,9,11 (by sign lord) & 12 only, and to Saturn, representing obstructions and blockages in body metabolism, almost in all charts, except in chart no. 12. Three charts, no. 1,9 and 11, are found connected to both Mars and Saturn.

13. Kenneth Lay's 8th cuspal sub lord Saturn's signification of Maraka and Badhak house 7 and connection to Mars by sign lord of 8th CSL are interesting in relation to the conspiracy theory of his death.

<http://bear-star.com/article%20-%20Ken%20Lay.htm>

14. But suicide may not be astrologically (by KP) inconclusive as 8th CSL connection to Mars only by sign lord but not at star level (KP Reader III p 174/ Old Edition Practical Part p 21), no connection between 1st and 8th CSLs, and death from heart attack around typical 3 am "high tide in the universe" energy, in this case at 3:11 am local time.

http://medicalastrologybyeileenman.blogspot.com/2009_06_01_archive.html

How many times can one person have heart attack?

15. Apparently, the Guinness World Records do not list the individual who has suffered the most heart attacks during his or her lifetime. But Dr. Gregg Fonarow, a cardiologist at UCLA's Reagan Medical Center. said he has patients who have had eight or nine and are still going strong.

16. In the case of Dick Cheney's survival of five mild heart attacks, the following points have been noted astrologically other than his own care and medical advancement in the US:

- (1) His longevity is in the medium arrange as 1st cuspal sub lord signification.
- (2) His ascendant is aspected by natal Jupiter. As long as Jupiter aspects Lagna there may be no fear. (KP Reader III p 174/ Old Edition Practical Part p 21) Napoleon with Jupiter in his Libra Lagna had fought sixty big battles and countless small ones, nineteen horses had been killed from under him, and yet he had only been wounded twice.
- (3) The strong signification of live saver or cure, houses 1,5,1 are found against disease and death houses.
- (4) Transit Jupiter is found aspecting Ascendant on the date of three heart attacks and natal Sun and Moon in other two heart attacks. However it has been found in many cases transit Jupiter alone cannot save the native from danger of life.

Conclusion

17. The major causes of the heart attack is astrologically found to be the connection of the chief heart rulers to 6,8,12 and Maraka, Badhaka houses in terms of natal chart, 6th cuspal sub lord, DBAS and transit.

What are the reasons for AIDS?

Before I commence this note, I wish to convey my sincere thanks with gratitude to Guruji Tin Win, for his gratuitous advise and instructions together with ten AIDS Charts to analyse, which urged me to this task. AIDS cannot be directly classified as a Venereal and Sexually Transmitted Disease, as it's propagation is not limited to only on sexual matters. For example any body can be effected with AIDS, by blood transfusion, a doctor may be a capture while treating a patients of AIDS, an unborn baby may be attacked due to the mother's virus of and so on. But the roots of the reasons of AIDS run to the sexual engagement environments too. By the way the reason for transmitting is immaterial at this juncture, but the affection of the ailment is important for astrological aspects.

AIDS is a Viral disease. It is called HUMAN IMMUNODEFICIENCY VIRUS or HIV. The word "Immunodeficiency" gives us a clue to broaden our way of findings the reasons for AIDS. The main reason for a good health and preventing of diseases is the immune system of the body which is in the blood and it's cells, especially in White Cells. The very famous medical investigation of blood, known as WBC & DC, witnessed for this. The cause for Immunodeficiency, should be checked with it's controller called, Lymphatic System of the human body. So my main opine is to consider the Karakas for Lymphatic System and other objects which are synchronized with it. According to KP Publication, "Medical Astrology for All" the 12th Bhawa denotes the Lymphatic System and 8 and 12 Bhawas for Blood.

Further it is worth to mention, the KP Rule for incurable disease, ie; "If the Sb/L of the 6th cusp is 12 th Bhawa and become a strong significator of 6th house, then the native will be definitively suffer from an incurable ailment" is not matched 100% in the charts under research. But the Sb/L of 6th is connected in anyway to the 12th, by supporting the formula. On this aspects I have lined up a formulary objects as follows.

Table - 01

As	For	Bhawa/Planet
Main reason 01	Blood	8
Main reason 02	Blood & Lymphatic System	12
A disease	Sickness	6
An incurable	Body weakness & emaciation	10
Life Ending	Hospitalization & separation	12

Comments

1. Saturn Karaka for chronicle illness has not played a remarkable role almost all the cases.
2. 4th Cusp which denotes the End of Life and one's final illness, is not a cusp of signification of the Sb/L of 6, 8, 10 or 12 in all chart.
3. In chart No.4 & 7, Sb/L of the 6th has no any direct signification to 6, 8, 10 or 12. But indirectly connected as Sb/L & SSb/L
4. Aspects & conjunctions have not been taken in to account in this research

Rating of Significations

Sb/L of	6	8	10	12
6	50%	30%	30%	30%
8	30%	30%	40%	50%
12	50%	40%	70%	30%

Conclusions

1. If the Sub Lord of the 12th (Life Ending/Separation from the family or world), signify the 10th (Incurable Illness) one will suffer from AIDS.
2. If the Sub Lord of 6 or 8 or 12, signify the cusps 6 or 8 or 10 or 12, where Ma or Me or Ju or Ve is holding any Lordship of that cusp, one will suffer from AIDS.

I never think that this is the final and most correct analyse. I am not a money maker of this science and hence I do'nt have any licensed SW yet. The members who have enough facilities have an opportunity go further in this research and find out the most correct rule/s and I humbly invite the same. As a student of KP, I have paid my utmost attention to this, with the knowledge gained through the Forum and publications of Shri KSK. As a follower and student of the KP System, it is a pleasure to forward this study in the Birth Centenary Year of our beloved Gururji Jyotish Marthand Shri K. S. Krishnamurti, as a mark of a commemoration. I wish to thank all the members who cooperated and donated their knowledge to me by sending various instructions and advises to fulfill this research.

Finally I make my Pranam to all with my bow-down head.

OM GAJAANANAM NAMAMHYAM

The entire world is after beauty and charisma which is of skin deep as per the proverb. In Astrology terms Venus is karaka for beauty apart from Mercury who indicates features of youngness and Moon is feminine character indicates for Beauty. Hence the signs that rules by the above three karakas Venus, Moon and Mercury as Ascendant cusp would indicating charming appearance. Out of the 12 signs, Libra and Taurus ruled by Venus, Virgo and Gemini by Mercury and Cancer by Moon. Airy signs also indicates slimness and attractiveness i.e. Libra, Aquarius and Gemini. In these combinations the most effective combination is Ascendants that falls in Taurus with Rohini star and Virgo with Hasta Star and Libra/Aquarius/Gemini ascendants connection with Venus/Moon/Mercury indicates for beauty.

As per the KP House Grouping Part V of Feb. 2008 e-zine compiled by Sri Tinwin ji, Charming Face– 1st Cuspal Sublord signifies 1,10,5,9,2,11 and Venus (Moon n Mercury added by me) In the light of the above combinations we discuss three charts who are very charming and beautify.

ANALYSIS:

Chart 1 – Baby Lasya who is a cute baby born in Edison NJ
(DOB: 16.05.2001, TOB: 02:00:38, POB: Edison, NJ US Lat.40.50N Long.74.06W KPA 23-46-19 Wednesday Birth Star: Sathayam-2, Rasi: Aquarius, Asc. Aquarius) Moon Star Lord Rahu is in Gemini (airy sign) agent of Mercury who is in Taurus Rohini star.

Ascendant Aquarius (airy sign) in Sa->Ma->Ve->Ve: Venus figures as sublord and subsublord who is in 1st bhava exalted as lord of 4n9 in the star and sub of Me->Me who is karaka for youngness in Venus Taurus in Moon star hence the baby is very attractive, good glittering eyes and manners enjoys riches and studying in US.

Chart 2 –Ms. Rajya Laxmi is very good looking with big eyes n fair complexion born in Vizianagaram.
(DOB: 06.10.1983, TOB: 06:59:10, POB: Vizianagaram AP Lat.18.07N Long. 83.25E KPA 23-31-38 Thursday Birth Star: Hastam-1, Rasi: Virgo, Asc. Libra)

Ascendant Libra (airy sign) in Ve->Ma->Ve->Me: Venus figures as Signlord and sublord, Mercury as sub-sublord. Venus in Ke (agent of Mercury) Leo 11th, Mercury in Sun who in Virgo as lord of 11. Mercury and Venus as given her fair complexion, big eyes and a very attractive appearance.

Chart 3 –Mr. K Kumar is very good looking with big eyes n fair complexion born in Chennai TN.
(DOB: 15.12.1970, TOB: 12:03:00, POB: Chennai TN Lat.13.05N Long. 80.18E KPA 23-20-58 Tuesday Birth Star: Punarpoosam-3, Rasi: Gemini, Asc. Aquarius)

Ascendant Aquarius in Sa->Ju->Ve->Mo; Venus n Moon are sublord and subsublord connected to Jupiter in Scorpio has given him good personality, color, big eyes and manners.

From the above combinations of Asc. Sublord connection to 1,2,5,9,10,11 gives charming appearance when it is connected to Venus, Mercury, Moon and Airy signs, Taurus and Virgo with Moon Star.

During the KP Astrologers Forum's fortnightly meeting conducted on 22-Feb-2009 chaired by Sri Rajendra Nimje, IAS., Charts on Medical Astrology were taken up. Two natal charts regarding ulcers were discussed in detail. One chart belongs to a native who underwent an operation of Left Ovary Cyst at New Jersey US recently.

ANALYSIS:

In Kalapursha the Natural zodiac 7th house is ruled by Libra n lord is Venus which in medical terms denotes Kidneys, Uterus, Ovaries, Uthrea. Venus natural karaka for gynaecology matters. From Ascendant 7th house rules these parts governed in the anatomy of the body.

Chart I – Smt Kanchana,

(DOB: 11.11.1982, TOB: 02:35:00, POB: Challapeta, Vizianagaram Dt, AP. Lat.18.18N Long.83.20E KPNA 23-31-39 Thursday Birth Star: UttaraPhalguni-I, Rasi: Leo, Asc. Virgo).

The native is running Rahu Dasa, Jupiter Bhukthi, Mercury Anthara during 16.10.2008 to 18.02.2009. Rahu is in Rah->Mer in Gemini being agent of Mercury in 2, lord of 10n1 and aspected by Mars lord of 3n8 in 4th in conjunction with Kethu indicates some problems of health and requires operation. Jupiter who is lord of Bhadhaka owning 4n7 in 2nd in conjunction with Venus, Sun & Mercury in own star Jupiter and sub Venus lord of 2 in 2nd Mrarka for Virgo Ascendant has intensified the health problem. The parents were under tension about the longevity of the native, but KP has given a confidence as the Asc. Sublord is Mercury who is in turn in star of Rahu (not Bhadhaka Jupiter Visakam) being agent of Mercury signifying 1,3,5,7,9,11 houses as the cuspal sublord of them without having any planet in its star assured the longevity. As Venus is main karaka for ovaries deposited in his own sign Libra in conjunction with Jupiter Sun 12th lord (indicator of hospitalization) along with Mercury. All these 4 planets in conjunction have made the native to suffer abdomen pain during this period and any number of oral prescriptions has given temporary relief only. In Mercury Anthara who is lord of Lagna in 2nd in conjunction with Jupiter, Venus n Sun in the star of Rahu who is lord of Dasa in 10th in his own star and sub of Saturn lord of 5n6 who is deposited in Libra has given Cyst on Left side (as Rahu is on the Left section from Ascendant). However the native underwent a surgical operation on 30th Jan 2009 at NJ US when the Moon is transiting in Ashlesh (Mercury) star and finally got relieved from the pain.

Here if we analyse the 6th co-rulers Sat->Mar->Moo connection to 4th Mars as lord of 3n8, Saturn as lord of 5n6 in 1st cusp Libra and Moon in 12th in Sun's star who is very much part of the conjunction has played role in identifying the area of trouble and operation very successfully well in advance before the Doctor's diagnosis. Panamas to Guruji KSK ji.

During the KP Astrologers Forum's fortnightly meeting conducted on 08-Mar-2009 chaired by Sri Rajendra Nimje, IAS., Charts on Medical Astrology were taken up. Two natal charts regarding Heart Ailments were discussed in detail.

Heart is the important organ for sustaining life in the body. Heart forms as a first organ after conceiving, in the tenth week of the pregnancy as per medical analysis. Everyone is very particular and frightened about heart and its problems. Heart problems are of two categories one is the functioning of the heart for supplying of blood to all parts of the body - any coronary problem leads to heart attack these are very well known as blocks in the arteries expressed in percentage by cardiologists. Second problem is valve functioning or congenital problem such as valve problems, holes in the heart chambers, etc. Normally a good heart beat is 120/80 systolic and diastolic. Any heart problem needs open heart surgery in the olden days and presently due to technical advancement only by-pass and valve problems need open heart surgery and coronary blocks are cleared by angioplasty, balloon cutting and stent in coronary arteries.

In Medical astrology in Kalapursha (Natural Zodiac 4th house Cancer and Leo rules the heart and 4th cusp from lagna governs heart. When the rasi Leo, Aquarius and the 4th cusp in the natal chart is afflicted by Saturn, Rahu or Mars indicates heart problems, Saturn in Leo is not favourable, In Kalapursha 4th house is Cancer ruled by moon and Leo ruled by sun represents heart problems, any affliction to Cancer and Leo apart from 4th house from lagna would definitely lead to heart problem.

As per the "Medical Astrology for all" written by Sri K Subramaniam, in Medical anatomy the following subdivisions of Leo are sensitive for heart diseases 1. Kethu star – subs of Kethu, Moon, Mars, Saturn and mercury, 2. Venus star sub of sun, 3. Sun's star sub of Rahu.

In natural Zodiac 4th house cancer ruled by moon governs chest, breast, mammal glands, heart, lungs, blood circulations and karaka for mind involves in thinking which is the root cause for tensions and consequently leads to high blood pressure. Mars governs blood circulation and if afflicts sun and moon in Leo/ Cancer / Aquarius and connected to evil houses 6, 8, 12 would lead to heart complaints.

- (1) Cancer rules breast, chest, ribs, stomach and digestive organs
- (2) Leo rules heart, spinal column
- (3) 4th bhava rules heart, lungs, chest and blood
- (4) Sun rules heart, eye sight, stomach, blood
- (5) Moon rules breast, eye sight, and mind.
- (6) Makha star rules heart, aorta, spinal chord
- (7) Purvaphalguni rules heart and spinal chord

During the KP Astrologers Forum's fortnightly meeting conducted on 26-Apr-2009, Charts on Medical Astrology were taken up. Two natal charts regarding Breast Cancer were discussed in details. One native underwent operation on early detection in 2005 and got cured. Second native underwent operations but could not sustain her life; she vacated the body on 11th April 2009.

In Medical astrology Natural Zodiac (Kalapursha) 4th Rasi Cancer, Moon as Rasi Lord rules the Breast, Chest, Ribs, digestive organs, stomach. Moon as lord of this sign rules mammal glands, eye sight, mind, alimentary canal, water in the body, kidneys and 4th cusp from lagna governs these parts. When Moon, Cancer Rasi, 4th cusp from lagna is afflicted and connected to evil houses 6-disease, 8-chronic disease, 12-hospitalisation would lead to Breast ailments. Jupiter is the planet for benign growth, Rahu / Kethu affliction leads to cancerous growth.

- (1) Cancer rules breast, chest, ribs, stomach and digestive organs
- (2) 4th bhava rules Breast, Lungs, etc.
- (3) Moon rules breast, eye sight, mind.
- (4) Purnurvasu 4th (Purnarpoosam) pada rules Chest, Lungs, Thoracic, Pancreas.
- (5) Pushyami (Poosam) rules Lungs, Stomach n Ribs
- (6) Ashlesha (Ailiyam) Lungs, Oesophagus, Liver Pancreas

As per the "Medical Astrology for All" written by Sri K Subramaniam S/o Sri KSK Guruji, regarding Breast Cancer occurs with more frequency in females due to the proneness of this disease to breast /uterus. Moon's affliction in Cancer rasi would lead to uterus and stomach problems and also breast. Kethu rules over the cells and tissues would lead to incurable diseases. Saturn, Mars connection to Moon would lead to cancer of Uterus/Breast. If the 6th Sub-lord is Moon and afflicted by malefics and also connected to 4th cusp would lead this disease.

ANALYSIS:

Chart 1 – Smt Chandra Kanthi,

(DOB: 02.12.1969, TOB: 01:27:00, POB: Razam, Srikakulam Dt, AP, Lat.18.27N Long.83.40E, KPNA 23-20-49, Tuesday, Birth Star: Makham-4, Rasi: Leo, Asc. Virgo 9-64-04)

The native suffered from Breast Cancer, which was diagnosed in its early stage and got operated and now she is very happy and maintaining good health.

6th cusp corulers are Sa-Ra-Ju; Jupiter being bhadhaka lord of 4n7 in 1st house in star of Mars, lord 3n8th, is connected to chronic disease of 8th by Mars. Jupiter indicates cancer growth as a negative house lord of Virgo Ascendant. Saturn n Rahu as sign lord and star lord very well posited in 8th / 6th houses further intensify the disease. Now let us verify the karaka Moon who is in 12th house along with Kethu and again in Kethu star Makham has intensified the same. 4th cusp corulers are Ju-Ke-Sa, Jupiter is 6th CSL, Kethu in 12th along with Moon, Saturn as lord of 6n5 in 8th incurable disease. During Moon major period, Moon is connected with 12th and Kethu but Moon as lord of 11th as well as 5th cusp sublord without having any planet in its star and the sublord Mercury as lord of 1n10 in 3rd house had promised the longevity. Venus sub period is from 3/2004 – 11/200 (in Nov. 2005), Venus is in star of Jupiter as 6th CSL for the disease to be detected in its early stage n operated and saved the patient from the problem. Here the 7th CSL is Venus his husband who is a Doctor and his diagnosis in right time saved his wife.

The native suffered from Breast Cancer and underwent operation two years back but could not sustain her life. She vacated her body recently on 11th March 2009 when major Venus period started when Moon is transiting in Swathi Rahu Star. ???

6th cusp corulers are Ve-Ra-Mo; sublord Moon being double karaka for breast and cancer disease is also sublord of 6th, as lord of 3 in 6th house itself, in star of Jupiter being lord of 8n11 in 3rd house, which is natural zodiac sign Cancer of both the cancer disease and breast, has strongly indicated the breast cancer. Other two planets Venus (sign lord) in Mars star as lord of 7n12 in Badhaka 9th and Rahu (star lord) in 6th house along with Saturn as lord of Badhaka 9th in Saturn's star itself. 4th cusp sublord Saturn in 6th house as lord of Badhaka 9th in conjunction with Rahu signifying Badhaka, Maraka and 6,8,12 strongly indicated the said disease. Mars as lord of 7n12 aspects Cancer Rasi, 4th house and lord of 4th Sun from Badhaka 9th and Saturn as lord of Badhaka 9th also aspects 4th house from 6th. During Kethu Dasa (Kethu in Mo-Ju) she suffered from the breast cancer and underwent operation. And Venus Dasa as soon as started gave death because Venus is lord of 1n6 in 1st and in star of Mars as lord of 7th and 12th (Maraka and Moksha) in 9th house which is Bhadhaka for a fixed ascendant Taurus. Venus' sublord Jupiter who is lord of 8n11 in 3rd Cancer Rasi indicated the demise. 1st CSL is also Venus indicating short life. Some like Cornell also take Venus as a ruler for breast.

Pranamas to Guruji KSK ji.

OM GAJANANAM NAMAMHYAM

During the KP Astrologers Forum's fortnightly meeting conducted on 24-May-2009 chaired by Sri Rajendra Nimje, IAS, Charts on Medical Astrology were taken up. Six natal charts regarding Eye Diseases were discussed in detail. Two charts are related to defective vision, two charts are related to congenital defect where blind by birth and one chart each is loss of vision because of accident/ blurred vision.

In medical astrology, 2nd house governs right eye and 12th house indicates left eye of the native. Sun is karaka for the right eye for male and left eye for female, and Moon for left eye for male and right eye for female. In natural Zodiac, Taurus rules right eye and Pisces left eye and vision is controlled by Venus. When 2nd /12th house or Taurus /Pisces and planets Sun, Moon, Venus are afflicted and connected to evil houses 6-disease, 8-chronic, 12-hospitalisation would lead to eye diseases. Planets Mars & Rahu connection would lead to defects in the vision. ("Medical Astrology for All" by Sri K Subramaniam S/o Sri KSK Guruji)

ANALYSIS

Chart 1 – Sri Appalla, (Right Vision)

(DOB: 21.06.1969, TOB: 23:30:00, POB: Visakhapatnam, AP, Lat.17.42N, Long.83.22E KPNA 23-20-26, Saturday, Birth Star: Pubba-3, Rasi: Leo, Asc. Aqua 27-58-15).

The native suffered defective vision in the right eye due to optic nerve problem. He under went an operation during DBA Ra-Sa-Ve (20/5/2006 – 11/11/2006). After the operation he lost total sight of the right eye. Analysis of 2nd sub lord Moon (karaka for Right Eye for Male) etc and DBA Ra-Sa-Ve that impaired the vision of Right Eye permanently is given in the table below.

Chart 2 – Sri Kishore (Right Vision)

(DOB: 14.09.1967, TOB: 12:25:00, POB: Secunderabad, AP, Lat.17.27N, Long.78.30E KPNA 23-18-57, Thursday, Birth Star: Uttarashada-4, Rasi: Cap, Asc. Sco 24-53-27).

The native is suffering with Right Eye vision it needs lot of effort for visualizing the object. Analysis of karakas for Left Eye for Male and Dasa lord Jupiter indicating the vision problem during burning of Retina partially by viewing Solar Eclipse. See the role of Mars in 12th damaging the vision through burning of Retina in a peculiar situation is provided as under.

During the KP Astrologers Forum's fortnightly meeting conducted on 14-June-2009 chaired by Dr. VV Mohan., some charts on Medical Astrology were taken up. Two natal charts regarding Mental Retardation were discussed in detail.

In medical astrology, 1st house being Thanu Bhava any affliction to this house would lead to disability of the relevant karakathawa. Moon is karaka for mind and Mercury is karaka for intelligence, any affliction to these planets would lead to impairment of mental faculties. Mental Retardation is a condition diagnosed before the age of 18 years that includes below average of skills necessary for daily living otherwise is known as less intelligent quotient. 1st cusp sublord connection to 6 indicates diseases, 8 indicates congenital diseases and 12 indicates continuous medical care and disabilities. Moon at the time birth gives the clue for congenital diseases. If Moon is connected to the above houses at the time of birth, it would give problems at the same time, which is known as congenital health problems in medical terms. ("Medical Astrology for All" by Sri K Subramaniam S/o Sri KSK Guruji)

ANALYSIS:

Chart 1 – Sri Apple, (Mr)

(DOB: 31.12.1975, TOB: 04:44 AM, POB: Bagh Amberpet, Hyderabad, AP, Lat.17N23, Long.78E30, KPNA 23-25-54, Wednesday, Birth Star: Jyesta-3, Rasi: Scorpio, Asc. Scorpio 16-42-39)

The native is mentally retarded since birth. 1st cusp sublord Mercury who is also karaka for mental faculties (IQ) is l/o 8 & 11 in 2, in the star of Su and sub of Ju l/o 2. Moon, karaka for mind (mathi) is l/o 9 (Badhaka), in the star of Me and sub of Ra in 12. 1st cusp and Mo are conj. by Ve l/o 7 & 12 and aspected by Ma from 7 as l/o 6. Such combination at the time of birth strongly indicates Mo's connection to Maraka, Badhaka, 6, 8 & 12 causing congenital mental disability. The native suffered meningial fever and fits in childhood which had made irreparable damage to mental faculties.

Chart 2 – Sri Banana (Mr)

(DOB: 12.03.1981, TOB: 22:13 PM, POB: Bagh Amberpet, Hyderabad, AP, Lat.17N23, Long.78E30, KPNA 23-30-16, Thursday, Birth Star: Mrigasira-1, Rasi: Taurus, Asc. Libra 23-02-02).

At the time of birth the native was a normal child but Moon in Ma-Ma as l/o 2 and 7 and Dasa lord at birth Ma in Ju-Ra which is agent of Mo (karaka for mind in 8) caused a head injury and consequently mental damage to become mentally retarded. 1st cusp sublord Sa is in 11 (Badhaka) as l/o 4 & 5, in the star of Mo (karaka for mind in 8) and sub of Ju who is in 11 l/o of 3 & 6 establishing a strong connection to Mo through Mo star. 8th cusp sublord Venus is l/o 1 & 8 in orb of 5, in Ju-Sa is also connected to Mo in 8. 6th cusp sublord Rahu (agent of Mo) in 9, in Sa-Ju, connected to Mo has also made the problem of mind.

Comparative Table of Charts

SN	Subject	Chart 1	Chart 2

OM TAT SAT

During the KP Astrologers Forum's fortnightly meeting conducted on 12-July-2009 chaired by Sri Rajendra Nimje IAS., some charts on Medical Astrology were taken up. Three natal charts regarding Epilepsy were discussed in detail.

Most astrologers consider Epilepsy a mental disease, as many of the same planetary influences which cause Insanity also this disease. Medical authorities class it as a nervous disease, with loss of consciousness, and with tonic and clonic convulsions. Some writers say that Epilepsy is due to abnormality of one of the Ductless glands, the Pineal gland.

Epilepsy is best regarded as the symptoms of some underlying brain dysfunction, which causes gross misbehaviour of brain cells, either at a specific place (focal epilepsy), or more widely (generalised epilepsy).

This misbehaviour causes physical consequences, like the loss of consciousness, or loss of muscle control. These physical consequences are called epileptic fits (aka seizures or convulsions).

In Medical astrology Ascendant (health, head), 5th cusp (house of mind), 6th cusp (disease), Mercury (consciousness) and Moon (karaka for mind) are to be analysed for Epilepsy/ Fits. ("Astrological Diagnosis of Diseases" by Sri K Hariharan S/o Sri KSK Guruji pp 95-101)

It was also brought by Sri T Seshagiri Rao, Vice President of KPAF Hyderabad that any affliction of Venus would also lead to the above disease as Bharani star in Aries head is connected to Epilepsy & Fits.

ANALYSIS:

Chart 1 – Sri Mani, (Fits)

(Date 23/05/1948 Time 09:34:00 Place Vizianagaram, AP Day Sunday, Lat: 18:07:00N Long: 83:25:00E. KPNA 23-02-47, Birth Star: Anuradha-3 Rasi: Scorpio Asc.: Cancer).

The native lagna is occupied by Saturn as l/o 7n8 in Mer-Ma; Mercury is l/o 3n12 in 11 (Badhaka). 6th cusp co-rulers are Ju-Ke-Ra. 5th sublord is Mercury. Moon, the karaka for mind, is in 5th in star Saturn l/o 7,8 supporting the same. During Venus major period where Venus is l/o 4n11 (both are occupied) in 12, in Rahu star and own sub, connected to Aries Bharani star and sublord of 6th through Rahu, the native underwent mental tensions and Fits. Whenever he took head bath the fits used to appear as Aries indicates head in Kalapurusha and Rahu connected to Venus in 12th by signlord. During Sun major period the native got complete cure and medication has been still continued. Here the adverse effect of Badhaka 11 is supposed to be reversed by the starlord Mars of 11th cuspal sublord Mercury by lordship of 5,10 (12th to 11).

Chart 2 – Sri Balu (Head Injury n Fits)

(DOB: 12.03.1981, TOB: 22:13:00, POB: Bagh Amberpet, Hyderabad, AP. Lat.17.23.00N Long.78.30.00, KPNA 23-30-16 Thursday, Birth Star: Mrigasira-I, Rasi: Taurus, Asc. Libra).

The native's chart was referred in the previous Medical article on Mental Retardation. The boy was born in Libra lagna and the lord Venus is in 5th house (by orb) and in Ju-Sa; Lagna sublord Saturn l/o 4n5 in 11 in Moon's star who is in 8th. 6th cusp co-rulers are Ju-Me-Ra. Rahu is in Sa-Ju both are in 11 as lords of 5n6. Both Mercury and Moon in Mars star has made the native a victim of Fits/epilepsy due to head injury. The boy while walking in the house was hit by a Cradle which is in swing by another boy. The boy met with an accident by hitting the head to skirting of the wall. Mars Dasa during childhood had given a permanent damage to the head as Dasa lord Mars is in Jup-Rahu (one is 6th cusp sublord and another is 6th cusp signlord). Since then the Boy is under medication for the disease.

The native was born in Kataka lagna. 1st/5th cusp sublord Rahu is in Ma-Ra where Ma is lord of Aries in 10th bhava. 6th sublord Venus is in Aries in his own star indicated the disease of fits. Jupiter Dasa at the time of birth where Jupiter is lord of 6n9 in 12, in Ra-Me had given high fever and consequently fits. However 8th sublord happens to be Jupiter had given congenital health problem. During the advent of Saturn Mahardasa where Saturn is l/o 7 n 8 in 11th in the star of moon had given relief due to regular medicines. Here again the adverse effect of Badhaka 11 is supposed to be reversed by the repeated strong signification of 10 (12 th to 11) by the 11th cuspal sublord Rahu through the conjoined and starlord Mars and signlord Venus.

OM GAJANANAM NAMAMYAHAM

During the KP Astrologers Forum's fortnightly meeting conducted on 09-August-2009 chaired by Dr. VVK Mohan, Secretary KPAF, charts on Medical Astrology were taken up. Six natal charts regarding Ear, Nose & Throat were discussed in detail.

Healthy Sinus Anatomy

In medical astrology of natural zodiac (Kalapursha), 2nd house rules speech, nose/throat and 3rd/11th houses rule right and left ears respectively. These are Taurus & Gemini/ Aquarius ruled by Venus, Mercury & Saturn. Any unfavourable effects on these houses from natural zodiac/ Ascendant would lead to speech/hearing problems. Mercury, Karaka for speech and hearing, 3rd and 11th houses from Lagna are affected by unfavourable significations and connected to evil houses 6-disease, 8-chronic, 12-hospitalisation would lead to dumb and deaf.

Mute signs in Kalapursha, watery signs – Cancer, Scorpio & Pisces, would lead to deaf and dumb problems when it is connected to 8th it is congenital otherwise it would impair during DBA of the planets of unfavourable significations.

Planets Kethu and Rahu connection would lead to defects in the speech and hearing. 3rd house governs right ear and 11th house indicates left ear of the native. Any affliction to 2nd / Venus would lead problems of nose in the ENT, as Venus is Karaka for beauty, nose is one among the face which adds beauty. Bharani Venus star indicates about nose, Rohini Moon star indicates about Larynx, throat, Arudra Rahu indicates ear/hearing in the natural zodiac.

Sri R Balaji, member of KPAF, Hyderabad who is an expert in Nadi astrology had given the rule in his article Duff and Dumb published in Astrovision e-zine of Sri MK Vishwanath given as follows:

If the cuspal sublords of 2nd & 3rd become significators of 6,8,12 houses and are connected to the mute signs i.e., Cancer, Scorpio and Pisces, it would lead to defective speech and hearing.

ANALYSIS:

Chart 1 – ENT1 Varun, (Impaired Speech/ Hearing)

(Date: 17/10/2001 Time: 14:09:00 Place: Bhimavaram, WG Dt. Day: Wednesday Lat. 16:32 N, Long. 81:32 E, KPNA23:47:31, Birth Star: Swathi-1, Rasi: Libra Asc.: Cap 26:32:11)

The native has been suffering since his birth with low IQ with impaired speech and hearing. The I CSL Jupiter in his own star and sub in Gemini, VI CSL Venus who is in the star of Sun in 8th house and 2/3 CSL Rahu in 5th house, in Mars star who is l/o 3rd n 10th in 12th house had given problems relating to ENT. At the time of his birth Moon was in Ra-Ra-Me (Sgl, Stl, Sbl). Rahu connection to 2nd and 3rd houses and Mercury in 8th house in Moon's star indicate congenital defects. The Dasa lord Rahu at the time of his birth is placed in Gemini.

Chart 2 – ENT2, (Ear Puss operated/ Throat Diphtheria, Nose Allergy)

-Chart Courtesy: Sri MC Appa, Member of KPAF Hyd.

(Date: 10/08/1956 Time: 01:00:00 Place: undisclosed Day: Friday Lat.14:15 N Long.75:35 E, KPNA 23:09:40 Birth Star: Hasta-1, Rasi: Virgo Asc.: Tau 10:45:39)

The native has been suffering with ear problem since his childhood. He had underwent 2 operations of the ear. In the early age he was subjected to Diphtheria / Tonsils and underwent a surgical operation. Nose is allergic to dust and strong smells. In this instant case Rahu, CSL of 2,3,6,8,11 n 12 houses, in VII cusp in the star of Saturn who is l/o 9 n 10 in 6th indicates chronic ill health connected to ear and throat. At the time of birth the Moon was in Me-Mo-Mo. Mercury's signification of 2 n 6 and Moon's indication of 3 n 5 had given diphtheria in childhood and ear defects. Present major Dasa lord Saturn, lord of Badhaka 9 in 6, in star of Jupiter l/o of 8 n 11 in 4th and sub of Rahu indicates continuous medication without much relief.

Chart 3 – ENT3, (Throat Problem to Acid Reflex damage Vocal Chords, Speech Problem as a Professor) -Chart Courtesy: Sri Anujay, Member of KPAF Hyd

(Date: 07/05/1968 Time: 01:29:00 Place: Vijayawada, Krishna Dt. Day: Tuesday Lat. 16:31 N, Long. 80:37:00 E, KPNA 23:19:30, Birth Star: Makha-2 Rasi: Leo, Asc. : Aqu 6:09:09)

The native is a professor and during his Moon Dasa (1998-2008) Moon l/o 6 in 7th by orb, in the star of Kethu in 8 who is in star of Mars (3rd lord in 3) conjoined with Mercury indicate problems in oesophagus.

Chart 4 – ENT4, (Narrow Nasal Path –Operated twice but relief is partial)

-Chart Courtesy Sri Anujay, Member of KPAF Hyd.

(Date: 27/12/1984 Time: 17:32:00 Place: Hanamkonda, Warangal Dt. Day: Thursday Lat. 18:01 N, Long.79:38 E, KPNA 23:33:26, Birth Star: Satabisham-2, Rasi: Aquarius, Asc. : Gem 10:27:16)

The native had underwent 3 operations of his nose to widen nasal passage, still complete relief is not witnessed. 3rd / 6th CSL Venus who is l/o 5 n 12 in 8, in star of Mars l/o 6 n 11 in 9 and in the sub of Jupiter l/o Badhaka 7 n 10 in 7, does not give complete relief even though he had underwent 3 operations. Present major Dasa lord Jupiter till 2011 is connected with Sun in 7, in the star of Kethu conjoint with Saturn of 7 significator, indicates chronic disease. Saturn major Dasa period from 2011 also is not promising well for getting the relief.

Chart 5 – ENT5, (Nose injured thru accident) -Chart Courtesy Sri Anujay.

(Date: 08/05/1974 Time: 11:46:00 Place: Hanamkonda, Warangal Dt. Day: Wednesday Lat 18:01 N, Long:79:38 E, KPNA 23:24:31, Birth Star: Anuradha-4 Rasi: Sco, Asc.: Can 19:10:36)

The native was catching a pickpocket and had to undergo a serious injury on his nose because of the thief. In this chart II CSL Sun is in Venus star who is in 8th house. III CSL Saturn is in the star and sub of Rahu (Rahu happens to be 6th cusp sub lord) in 5th house, in Mercury star who is l/o 3 n 12 in 10, has given nasal problem through injury. Present Bhukti lord Jupiter of Venus Dasa period who is in Ra-Mo does not give complete relief. It seems the same in next Saturn sub, starting from 2011, not being able to give complete relief.

Chart 6 – ENT6, (Nose unable to smell, Throat Diphtheria)

(Date: 29/09/1956 Time: 14:20:00 Place: Bapatla, Guntur Dt. Day: Saturday Lat. 15:54 N, Long. 80:28 E, KPNA 23:09:47, Birth Star:Pushyami-2, Rasi: Kataka, Asc.: Cap 09:48:56)

The native had underwent diphtheria during his Saturn Dasa balance at the time of her birth. Saturn is l/o 2 in his own star along with Rahu whose sign lord Mars in 2 has made him unable to smell (impaired talent of smelling). Mars in 2nd house and Kethu as 2nd CSL in star of Sun in 8th house have indicated the nose problem. 3rd CSL Venus in Me–Sa, Mercury l/o 6th in 8th house had also given the throat problem (Diphtheria), thus Mercury as VI CSL, l/o 6 in 8th house and Saturn as significator of 2nd house have indicated the above problems.

During the KP Astrologers Forum's fortnightly meeting conducted on 13-September-2009 chaired by Sri Rajendra Nimje, IAS. Secretary KPAF, Charts on Medical Astrology were taken up. Six Natal Charts regarding Thyroid gland were discussed in detail.

The **Thyroid** is one of the largest endocrine glands in the body. This gland is found in the neck inferior to (below) the thyroid cartilage (also known as the Adam's apple in men) and at approximately the same level as the cricoid cartilage. The thyroid controls how quickly the body burns energy, makes proteins, and controls how sensitive the body should be to other hormones.

The thyroid participates in these processes by producing thyroid hormones, principally thyroxine (T_4) and triiodothyronine (T_3). These hormones regulate the rate of metabolism and affect the growth and rate of function of many other systems in the body. Iodine and tyrosine are used to form both T_3 and T_4 . The thyroid also produces the hormone calcitonin, which plays a role in calcium homeostasis.

The thyroid is controlled by the hypothalamus and pituitary. The gland gets its name from the Greek word for "shield", after the shape of the related thyroid cartilage. Hyperthyroidism (overactive thyroid) and hypothyroidism (underactive thyroid) are the most common problems of the thyroid gland.

Anatomy

The thyroid gland is a butterfly-shaped organ and is composed of two cone-like lobes or wings: *lobus dexter* (right lobe) and *lobus sinister* (left lobe), connected with the isthmus. The organ is situated on the anterior side of the neck, lying against and around the larynx and trachea, reaching posteriorly the oesophagus and carotid sheath. It starts cranially at the oblique line on the thyroid cartilage (just below the laryngeal prominence or Adam's apple) and extends inferiorly to the fourth or fifth tracheal ring.^[1] It is difficult to demarcate the gland's upper and lower border with vertebral levels because it moves position in relation to these during swallowing.

In Medical astrology Natural Zodiac (Kalapursha) 2nd House Taurus represents Speech, Throat & Thyroid Gland in endocrinology. Venus is Karaka and Lord of Taurus represents Thyroid Gland.

Any afflictions to these two houses from Natural Zodiac/ Ascendant would lead to Thyroid Problems. Venus is Karaka for Thyroid gland, Taurus & 2nd House from Lagna are afflicted and connected to evil houses 6-disease, 8-chronic, 12-hospitalisation would lead to Hyper/Hypo thyroid problems.

Venus = Throat, Water in body & Glands. 3rd Cusp = Neck & Throat.

Sub33= Ven-Moo-Sat=Thyroid; Sub34= Ven-Moo-Mer=Goitre, Sore-throat, Cerebellum Tonsils. Throat troubles, diabetes, fever and diseases concerning glands.

Punarvasu 1-2-3 = Goiter due to iodine deficiency.

Goitre = swelling of the neck due to enlargement of the Thyroid gland.

Any affliction to 2nd / Venus would lead problems of Thyroid Gland.

Rohini Moon star indicates about Larynx, Throat, Thyroid; Punarvasu star indicates Throat Problems Goiter. (Above Medical information from Sri V Satyanarayana Murthy, Kurnool, KPAF Member)

ANALYSIS:

Chart 1 – Thyroid 1 Mariyakumari, (Hyperthyroid):

(Date 31/08/1974 Time 14:23:00; Place Bangalore* Day: Saturday, Lat 13:05:00N Long 77:31:00E KPNA 23:24:32, Birth Star: Dhanista-2 Rasi: Makara Asc.: Sagi 10:23:59).

The native underwent thyroid problem and treatment during Jupiter major period and sub periods of Sun & Moon. Jupiter being 6 cuspal sublord in his own star in 3rd cusp, Sun in Venus star who is in 8th cusp created hereditary thyroid problem. Moon who is l/o 8th in 2nd cusp has given radio active iodine treatment. In this chart Ketu in 6th house which is Taurus, Jupiter, Sun, Moon, Venus connection to 2,3,8,6 and Taurus of the Kala Purusha.

Chart 2 – Thyroid 2, Female (Thyroid Problem):

Chart 3 – Thyroid 3 Nataraj, (Thyroid lead to death):

Chart Courtesy Sri RVSN Sharma-AIR, Member of KPAF Hyd.

(Date 23/05/1964 Time 12:50:00 Place: Secunderabad; Day-Saturday; Lat 17:25:00 N, Long 78:30:00 E; KPNA 23:15:56 Birth Star: Chitra-4 Rasi: Libra Asc.: Leo 17:05:21).

The native was suffered with thyroid problem. The 1st cusp sublord Moon as l/o 12 in 2nd in Mars star who is 9th lord in Bhadhaka house has given him medium life. Present Saturn major period (6th CSL). who is l/o 6 n 7 in Rahu star; who is in turn conjunction with Venus has given serious thyroid problem. During Venus sub period it has proved fatal.

Chart 4 – Thyroid 4, Rama Devi (Hypo Thyroid):

Chart Courtesy Dr. Bhamidipati Satyanarayana, Member of KPAF Hyd.

(Date 21/02/1975 Time 15:32:00 Place Secunderabad; Day-Friday, Lat 17:25:00 N Long:78:30:00E, KPNA -23:24:56, Birth Star:Mrigasira-4 Rasi: Mithuna Asc.: Can 1:20:18).

The native is suffering with hypo thyroid (deficiency) during Jupiter major period who is lord of 6 in his own star and moon's sub; who in turn connected with 6 n 12. Karaka Venus is 6th CSL in the star of Saturn who is in 12 in Gemini sign. In this chart also Kethu has figured in Taurus.

Chart 5 – Thyroid 5, Dinakar (Hyper Thyroid)

(Date 27/05/1964, Time 00:57:30, Place: Madanapalle; Day-Wednesday, Lat 13:41:56 N Long: 78:47:44 E; KPNA 23:15:56; Birth Star:Jyesta-I Rasi: Vrichika Asc.: Aqu 18:39:18).

The native has recently detected his thyroid problem during his Sun major and Rahu sub. In this chart also we could found similarities that Jupiter as 6th CSL in Venus star. Venus with Rahu conjunction in Gemini, Sun major lord in Taurus in Moon star who is lord of 6th in Scorpio.

Chart 6 – Mrs. Thangam, (Hyper Thyroid, underwent Radio Active Iodine treatment for thyroid):

Chart Courtesy Mr. Sunaparantha Kalyan, Member of k_p_system Yahoo Groups.

(Date 19/12/1943 Time 19:25:00 Place: Vigoda, West Province, Sri Lanka. Day: Sunday, Lat:7:08:00 N, Long: 80:01:00E, KPNA: 22:58:50, Birth Star: Uttaram-2 Rasi: Kanni, Asc. : Gem 24:33:14)

The native is suffering with hyperthyroid from Ju-Ke-Ke-Ra (23/12/1989). Rahu is 6th CSL in Saturn star who is l/o 8 and 9 in 12 (Taurus) indicates congenital thyroid problem. Kethu is in Moon's star who is l/o 2 in 3. Kethu's sign lord is again connected with Taurus. Jupiter is in Kethu-Moon strongly indicating the same. The native underwent radio active iodine therapy during Ju-Mo-Me-Sa; As we have already discussed about Jupiter, Moon, Saturn connected to thyroid problem. Present mercury who is in Mercury star has given appropriate medical treatment.

Conclusion: From the above 6 charts for thyroid problem we can make out the following connections are strongly indicating the above disease.

6th CSL Jupiter prominently and also Venus, Rahu. In zodiac Taurus, Gemini, 2nd and 3rd cusps connection to 6,8,12. Kethu in Taurus, Moon is a planet for obesity is involved in many cases of Thyroid. Moon, Jupiter, Venus, Rahu, Kethu's role is very significant.

OM TAT SAT

* * * * *

During the KP Astrologers Forum's fortnightly meeting conducted on 11-October-2009, Charts on Medical Astrology were taken up. Six Natal Charts regarding Cervical Spondylosis were discussed in detail.

Cervical Spondylosis can lead to chronic pain and stiffness in the neck that may also lead numbness of the upper extremities. Well the most common symptoms with which these patients approach the doctor are

- 1- Pain and stiffness in the neck.
- 2-The pain and stiffness could be confined to the neck alone
- 3-There could be radiation of the pain from the neck to the right hand
- 4-There could be radiation of the pain from the neck to the left hand
- 5-There could be radiation of the pain from the neck to the back of the head
- 6-There could be giddiness associated with pain and stiffness
- 7-There could be only pain in the upper arm
- 8-There could be numbness in the tips of the fingers
- 9-These above symptoms could all suggest that you could be suffering from a condition known as - cervical Spondylosis

Neck stiffness and pain may be worse with upright activities.

Numbness and weakness may appear in the arms, hands, and fingers, and weakness in the legs.

May feel or hear grinding or popping in the neck when you move.

Muscle spasms or headaches.

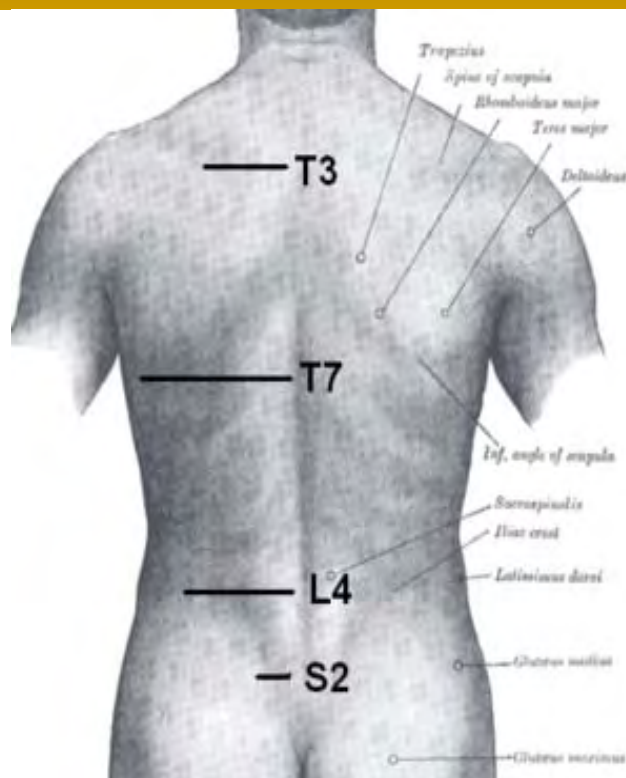

May feel irritable and fatigue, disturb sleep and impair your ability to work.

Cervical vertebrae

These seven (7) bones are generally small and delicate. Their spinous processes are short (with the exception of C2 and C7, which have palpable spinous processes). Numbered top-to-bottom from C1-C7, atlas (C1) and axis (C2), are the vertebrae that allow the neck and head so much movement. For the most part, the atlanto-occipital joint allows the skull to move up and down, while the atlanto-axial joint allows the upper neck to twist left and right. The axis also sits upon the first intervertebral disk of the spinal column.

Thoracic vertebrae

The twelve (12) thoracic bones and their transverse processes have surfaces that articulate with the ribs. Some rotation can occur between the thoracic vertebrae, but their connection with the rib cage prevents much flexion or other excursion. They may also be

known as 'dorsal vertebrae', in the human context.

Bodies are roughly heart-shaped and are about as wide antero-posteriorly as they are in the transverse dimension. Vertebral foramina are roughly circular in shape.

Lumbar vertebrae

These five (5) vertebrae are very robust in construction, as they must support more weight than other vertebrae. They allow significant flexion and extension, moderate lateral flexion (sidebending), and a small degree of rotation. The discs between these vertebrae create a lumbar lordosis (curvature that is concave posteriorly) in the human spine.

Sacral vertebrae

There are five (5) vertebrae (S1-S5) and they are fused in maturity, with no intervertebral discs.

Coccygeal vertebrae

There are usually four (4) and rarely 3-5 vertebrae (Co1-Co5), with no intervertebral discs. Many animals have a greater number of "tail vertebrae" and, in animals, they are more commonly known as "caudal vertebrae." Pain at the coccyx (tailbone) is known as occydynia.

In Medical astrology Natural Zodiac (Kalapursha), taken Cervical Vertebrae as a whole these Vertebrae are ruled by the Tau-

rus sign which rules the throat and neck. Also planets and affliction in the opposite signs, Scorpio and Libra tend to affect the Cervical Vertebrae. The Taurus and Scorpio signs, being opposite and supplemental to each other, both strongly influence the throat and sex organs. (HL Cornell: Encyclopaedia of Medical Astrology pp 906-7) The 2nd house Taurus represents throat & neck where the Seven Cervical Vertebrae are existing (C1–C7) which are representing Spondylosis. Saturn is Karaka for bones & Mercury represents nervous system. Discs are soft jelly made lubricant organs which makes vertebrae to be flexible for movement any direction. Moon and Venus are karakas for these Disc formation and maintenance.

Lumbar Spondylosis is 6th house Virgo & Libra of kidney region represents Lumbar and Abdomen region where the five Lumbar Vertebrae are existing (L1–L5) which are representing Lumbar Spondylosis.

Saturn is Karaka for bones, Taurus/Vir / Lib & 2nd/6th/7th houses from Lagna if afflicted and connected to evil houses 6-disease, 8-chronic, 12-hospitalisation would lead to Cervical Spondylosis problems.

KP MUHURAT, a new concept, novel technique, developed by KANAK BOSMIA who has 15 years of rich experience in analyzing horoscopes, applying Krishnamurti Padhdhati and offering appreciable predictions following scientific methodologies as propounded in Krishnamurti Padhdhati which proves that Astrology is a Science applying Maths and it is an Art by how you predict.

His insight into KP sparked his intelligence and KP MUHURAT has sprung from his thought flow which took shape into a book when his pen started flowing, documenting his creative thoughts.

KP MUHURAT facilitates select a suitable muhurta hora (auspicious lagna and time) to perform / commence various materialistic and spiritual pursuits. Any user will find his findings are logical, useful and handy.

Kanak Bosmia is regularly publishing KP-EZine, an exclusive astrological eMagazine on Krishnamurti Padhdhati, every month as its Editor & Publisher.

KP-Ezine eMagazine is downloaded in more than 63 countries around the world and has a registered subscriber base crossing 2700+ and its readership is in multiples of its subscriber base.

His bio-data published in the book speaks in volumes of his ingenuity and analytical skills in offering scientific and astounding predictions.

During the KP Astrologers Forum's fortnightly meeting conducted on 08-November-2009 chaired by Sri Rajendra Nimje, IAS. President, Spinal Curvature Disease was discussed in detail and 3 practical charts were taken up.

Although Spinal Curvature (or curvature of spine) can refer to the normal concave and convex curvature of the spine, in clinical contexts, the phrase usually refers to deviations from the expected curvature, even when that difference is a reduction in curvature. Types include Kyphosis, Lordosis, and Scoliosis.

Thoracic vertebrae:

The twelve (12) thoracic bones and their transverse processes have surfaces that articulate with the ribs. Some rotation can occur between the thoracic vertebrae, but their connection with the rib cage prevents much flexion or other excursion. They may also be known as 'dorsal vertebrae', in the human context. Bodies are roughly heart-shaped and are about as wide antero-posteriorly as they are in the transverse dimension. Vertebral foramina are roughly circular in shape.

Scoliosis is an abnormal curve of the spine, with the spine curving to the side, according to the American Academy of Family Physicians (AAFP). Depending on the extent of the curvature, one shoulder may be lower than another and the ribs or hips may stick out more on one side. AAOS says only 2 percent of the population is affected by scoliosis, which tends to be more common in girls, and runs in families.

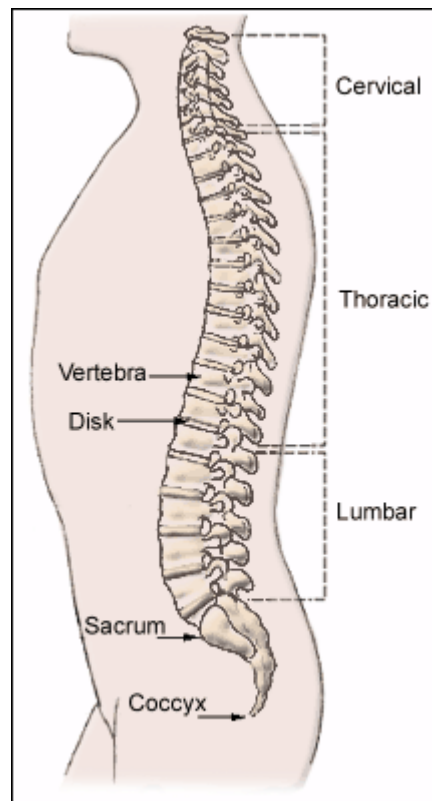

While scoliosis usually develops during childhood, it can also affect adults, according to AAOS. Actually, adult scoliosis may be the progression of a condition that began in childhood, and was never diagnosed or treated. AAOS says adult scoliosis can be caused by changes in the spine that occur as we age. AAOS says, as more people age in this country, the incidence of adult scoliosis will probably increase.

In most cases, AAFP says scoliosis causes few problems. Usually the curve of the spine is small, and rarely is there any back pain. (Read about "Back Pain") Cosmetics are a prime concern of many patients. However, according to AAOS, there could be some long-term effects if scoliosis is left untreated. AAOS says the condition can worsen.

Kyphosis

An exaggerated curve of the back that looks like a rounded or hunched back could be Kyphosis, according to AAOS. Kyphosis might develop as a result of slouching. Poor posture can stretch spinal ligaments and according to AAOS, increase the natural curve in the spine. It is more common among females than males. Luckily, kyphosis is rarely painful and AAOS says strengthening exercises may even help correct the problem.

Congenital Kyphosis however is more serious. This occurs in some infants whose spinal column does not develop properly. AAOS says this type of Kyphosis will worsen as the child grows, but can be helped with surgery. Kyphosis or round back is also a common problem among those suffering from osteoporosis. AAOS says, as more people age in this country, the incidence of adult Kyphosis will probably increase. Other conditions which can cause curvature include spinal problems such as arthritis and ankylosing Spondylosis - and connective tissue disorders such as Marfan syndrome.

In Medical Astrology Natural Zodiac (Kalapursha) **5th sign Leo** represents Spine & **Makham** Star where the Twelve Thoracic Vertebrae are existing (T1–T12) which are representing Spinal Curvature.

Sun is karaka for spine. Some are taking Mercury as karaka for spine. Any affliction to Leo, 5th house from Ascendant & Makha Star in Leo, thru 6th cuspal sublord connection and Karaka Sun would lead to Spinal Curvature problem. (HL Cornell: Encyclopedia of Medical Astrology; Judith Hill: Medical Astrology and discussed by Sri S Kalyan, KP Astrologer, Sri Lanka). In this regard three types of curvature are indicated, including Kyphosis, Lordosis, and Scoliosis.

ANALYSIS:

Chart 1 – Sri Apple (Spinal Curvature Kyphosis)

(Date 31/12/1975, Time 04:44:00 Place: SriDeviNursingHome, Warasiguda, Hyd. Day Wednesday Lat 17:23:00N Long 78:30:00E KPNA 23:25:54 Birth Star: Jyesta-3 Rasi: Scorpio Asc.:16:42:39)

The native was born in Scorpio Lagna. 6th CSL Jupiter (lord of 2-5) is on 5th cusp orb in Me-Su. Mercury as l/o 8-11 in 2nd cusp and Sun (Karaka for Spine) aspected by 6th lord Mars from 7th are indicating spinal problem from childhood as the involvement of 8th lord Mercury. Leo is also aspected by Mars as l/o 1n6 in 7. 5th CSL Sun (Karaka for Spine) is in star & sub Venus as l/o 7n12 in 12. All these malefic combinations and connections to Leo, 5th and Sun have not given any relief.

Chart 2 – Sri Jaya Simha CI Clock (Spinal Curvature)

(Date: 16/06/1984 Time 20:10:00 Place Secunderabad AP * Day Saturday Lat 17:25:00N Long 78:30:00E KPNA 23:32:59 Birth Star: Uttarashada-4 Rasi: Capricorn Asc. : 21:12:33).

The native was born in Sagittarius Lagna; 6th sublord Rahu is in 5th house along with Mercury as lord of 7th (Bhadhaka). Rahu is in Mo-Ra. Star Moon is lord of 8th in 1st house and unfavourable Rahu own sub is repeated at the sub level also making Rahu to be strong. Now look at 5th sublord who also happens to be Rahu as described above. Mercury is also placed in 5th house as l/o Badhaka 7. No planet is in star of Jupiter who is sublord of Badhaka 7th cusp, and Jupiter aspects Leo sign. Sun (Karaka for Spine) is conjoined with Venus as l/o 6 and aspected by Badhaka significator Jupiter. Thus the native has been suffering with Spinal Curvature since his childhood with no relief through any medication.

The native was born in Virgo Lagna. 6th sublord Venus is l/o 2-9 in 11th cusp (Leo in Makha star) Ke-Ve. Kethu is starlord of Makham in Leo 5th sign of Zodiac and in his own star Kethu and sign lord Jupiter is Bhadhaka lord (lord of 4n7 in 2) and own sub Kethu reflects the above signification only. 5th cuspal sublord Jupiter is Bhadhaka 7 lord and in Sa-Ve represents chronic problem thru Saturn who is lord of 5n6 in 1st house and sub Venus who is l/o of 2. Sun is conjoined with Mars as l/o 8. 12th cusp sublord and Ve is placed in Leo. Such adverse effects on Leo, Sun and 5th house indicate spinal problem. As there is no planet in star of Venus who is lord of 2n9 in 11, it gives relief thru medication.

Conclusion: From the analysis of above 3 charts for Spinal Curvature problem we can conclude that 6th CSL connection to 5th house, Leo sign and Sun through signification of negative houses would strongly indicate this disease.

Pranamas to Guruji KSK ji.

At the outset I wish everybody a Happy and Prosperous New Year 2010. During the KP Astrologers Forum's fortnightly meeting conducted in Dec-2009 chaired by Sri Rajendra Nimje, IAS. President, Respiratory Disease Pneumonia was discussed in detail and 17 practical charts were taken up (Source: Astrodatabank).

Pneumonia is an abnormal inflammatory condition of the lung. It is often characterized as including inflammation of the parenchyma of the lung (that is, the alveoli) and abnormal alveolar filling with fluid (consolidation and exudation).

The alveoli are microscopic air-filled sacs in the lungs responsible for absorbing oxygen. Pneumonia can result from a variety of causes, including infection with bacteria, viruses, fungi, or parasites, and chemical or physical injury to the lungs. Its cause may also be officially described as idiopathic—that is, unknown—when infectious causes have been excluded.

Typical symptoms associated with pneumonia include cough, chest pain, fever, and difficulty in breathing. Diagnostic tools include x-rays and examination of the sputum. Treatment depends on the cause of pneumonia; bacterial pneumonia is treated with antibiotics. Pneumonia is a common illness which occurs in all age groups, and is a leading cause of death among the elderly and people who are chronically and terminally ill. Additionally, it is the leading cause of death in children under five years old worldwide.

In Medical Astrology Natural Zodiac (Kalapursha), 3rd House Gemini sign (breathing), its lord Mercury (karaka), ruling lungs, Saturn, Jupiter (karaka) indicate respiratory system & pneumonia disease. Cancer sign is for lower lung, 4th Cusp (Lungs) and Moon (depositing of fluids in lower lobes of the lungs) & Sun also indicate lung infection; Rahu is also a significator of lung problems. Star Punurvasu indicates lungs, respiratory system & pneumonia. (Bill Rex's Rulership Book/ Umang Taneja's Dictionary of Significators; Dr. J. Conclusion: From the analysis of above 17 charts for respiratory system (Pneumonia) we can conclude that 6th CSL connection to Moon (ruler of fluids), Mercury (karaka and Gemini sign lord), karaka Jupiter, Saturn/Kethu (chronic and creation of lung problems) and Gemini sign apart from 3rd CSL plays a significant role in this disease. If 1st CSL promised longevity, the native would recover from the disease.

Pranams to Guru Prof. KSK ji.

This month I am going to discuss about Respiratory Disease Bronchitis. four practical charts are taken up (Source: Dr. Sheetal & Astrodatbank).

Acute bronchitis is an inflammation of the large bronchi (medium-sized airways) in the lungs that is usually caused by viruses or bacteria and may last several days or weeks. Characteristic symptoms include cough, sputum (phlegm) production, and shortness of breath and wheezing related to the obstruction of the inflamed airways. Diagnosis is by clinical examination and sometimes microbiological examination of the phlegm. Treatment for acute bronchitis is typically symptomatic. As viruses cause most cases of acute bronchitis, antibiotics should not be used unless microscopic examination of Gram stained sputum reveals large numbers of bacteria.

In Medical Astrology Natural Zodiac (Kalapursha), 3rd house, Gemini sign and Mercury are the rulers of respiratory system & bronchitis disease. (Rex Bill's Rulership and Judith Hill's Medical Astrology) Star: Punarvasu indicates lungs, respiratory system & bronchitis.

The connection of 3rd house, Gemini sign and Mercury to the KP disease indicator VI CSL and how these three rulers are adversely affected for health are analysed in the following four charts.

<p>1 Winston Churchill Date 30/11/1874 Time 01:30:00 GMT, TZ Hr 00:00 West, Place Woodstock UK Day Monday Lat 51:52 N Long 1:21 W KPNA 22:01:15 Birth Star: Makha-3 Rasi: Leo Asc. : Vir 7:54:49</p>	<p>British politician, a descendant of the 1st Duke of Marlborough (1650 to 1722). In 1940 and 1951 he was elected as Prime Minister of Great Britain until 4/05/1955. One of the greatest statesmen in world history, Churchill is known as the great WW II Prime Minister.</p> <p>VI CSL Me(2,1,10) in Ju(2,4,7 Bhadhaka); III & Gemini located X CSLs Ra (8,2); Gemini & Rahu aspected by Ju(2,4,7). Thus connected respiratory problems & suffered bronchitis, pneumonia, jaundice throughout his long life.</p>	
<p>2 Bronchitis (Courtesy: Dr. Sheetal) Date:14/07/1950 Time 04:18:00 TZ Hr 5:30 East Place Nagpur Day Friday Lat 21:09 N Long 79:05 E (Google Earth) KPNA 23:04:35 Birth Star: Thiruvadurai-2 Rasi: Mithuna Asc. : Gem 8:44:24</p>	<p>VI CSL Me(2,1) in Ju(9,7 Bhadhaka); III CSL Sa(3,8,9,10) in Ve(12,5); Gemini located I CSL Ju(9,7) in Ra(10-3,8,9,10); Sa & Gemini aspected by Ju(9,7). Thus Me & Sa are well connected with 3,6,8,12, hence chronic bronchitis since more than 30yrs. He was chain smoker and alcoholic. He had heart attack (coronary artery block) on 10 April 2000 (Me-Su DB). Su(1,4) in Ju(9,7). Since then stopped smoking but still he takes alcohol.</p>

No planet in stars of Sa which is I & VII (Badhaka) CSLs. Thus involvement of Me, Sa, Mo, Ke has given chronic bronchitis-asthma during Saturn Major.</p>	

Conclusion: From the analysis of the above 4 charts for respiratory system (bronchitis) we can conclude that 6th CSL connection to adversely affected 3rd, Me, Gemini plays a significant role in this disease. In all the above cases Me happens be the Ascendant lord (Gemini particularly) and Sa, Ke, Moon (fluids) intensify the problem.

This month I am going to discuss about Gastritis relating to Disease of Stomach and 4 practical charts were taken up (Source: Dr. Bhamidipati Satyanarayana Murthy & Astrodatbank). Sri K Raghavendra Kumar M.Sc. B.Ed, was extended his assistance in preparing this article.

Gastrectomies are performed to treat cancer and perforations of the stomach wall. In severe duodenal ulcers it may be necessary to remove the lower portion of the stomach called the pylorus and the upper portion of the small intestine called the duodenum. If there is a sufficient portion of the upper duodenum remaining a Billroth I procedure is performed, where the remaining portion of the stomach is reattached to the duodenum before the bile duct and the duct of the pancreas. If the stomach cannot be reattached to the duodenum a Billroth II is performed, where the remaining portion of the duodenum is sealed off, a hole is cut into the next section of the small intestine called the jejunum and the stomach is reattached at this hole. As the pylorus is used to grind food and slowly release the food into the small intestine, removal of the pylorus can cause food to move into the small intestine faster than normal, leading to gastric dumping syndrome. (Courtesy: Dr. Bhadmidipati Satyanarayana, MD)

In Medical Astrology Natural Zodiac (Kalapursha) 4rd House Cancer Lungs Breast Stomach, Moon is the Lord of the house, Jupiter is Karaka for stomach and liver, Sa, Ra, Ke Malefic Planets indicates this dreadful Disease.

VI CSL Me(8,1,10) In Ve(9,2); IV CSL Ju(10,4,7 Bdk) in Ra(6, 10,4,7/Ju); in Cancer XI CSL Ma(10,3,8) in Ve(9,2) and Cancer aspected by Sa(2,5,6,7); Ma(10,3,8) in Ra(6, 10,4,7/Ju); Mo(1,11) in Mo(1,11); DBA Ju-Me both are connected to 6 n 4 hence suffered illness and death because Ju is Bhadhaka Lord also. 

Conclusion: From the analysis of the above 4 charts for Digestive System (Gastritis Stomach) we can conclude that 6th CSL connection to Mo, Ju, Sa, Nodes. In all the above cases 4th cusp happens to play vital role & VI CSL, Sa & Ke intensify the problem and Cancer Sign apart from 4th cusp from Ascendant plays a significant role in this disease. Punarvasu star Jupiter plays a vital role in deciding this disease. The commonly used gastritis rulers 4th house, Cancer sign, Ma and Mo (Judith Hill: Medical Astrology) are practically found connected mostly to 8th (serious disease) and 6th (disease) houses and to some extent to 12th, Mrk and Bdk houses.
Pranams to Guru Prof. KSK.

This month I am going to discuss about Pancreas relating to Digestive System and 4 charts were taken up (Source: Dr. Bhamidipati Satyanarayana Murthy & Astrodatbank). Sri K Raghavendra Kumar M.Sc. B.Ed, was extended his assistance in preparing this article.

Pancreatic cancer: Pancreatic cancer is sometimes called a "silent killer" because early pancreatic cancer often does not cause symptoms, and the later symptoms are usually non-specific and varied. Therefore, pancreatic cancer is often not diagnosed until it is advanced. Common symptoms include:

- Pain in the upper abdomen that typically radiates to the back (seen in carcinoma of the body or tail of the pancreas)
- Loss of appetite and/or nausea and vomiting.
- Significant weight loss.
- Painless jaundice (yellow skin/eyes, dark urine) when a cancer of the head of the pancreas (about 60% of cases) obstructs the common bile duct as it runs through the pancreas. This may also cause pale-colored stool and steatorrhea.
- Trousseau sign, in which blood clots form spontaneously in the portal blood vessels, the deep veins of the extremities, or the superficial veins anywhere on the body, is sometimes associated with pancreatic cancer.
- Diabetes mellitus, or elevated blood sugar levels. Many patients with pancreatic cancer develop diabetes months to even years before they are diagnosed with pancreatic cancer, suggesting that new onset diabetes in an elderly individual may be an early warning sign of pancreatic cancer.
- Clinical depression has been reported in association with pancreatic cancer, sometimes presenting before the cancer is diagnosed. However, the mechanism for this association is not known. (Courtesy: Dr. Bhadmidipati Satyanarayana, MD)

The pancreas is a gland organ in the digestive and endocrine system of vertebrates. It is both an endocrine gland producing several important hormones, including insulin, glucagon, and somatostatin, as well as an exocrine gland, secreting pancreatic juice containing digestive enzymes that pass to the small intestine. These enzymes help in the further breakdown of the carbohydrates, protein, and fat in the chyme. The pancreas is a dual-function gland, having features of both endocrine and exocrine glands.

Diseases of the pancreas: Because the pancreas is a storage depot for digestive enzymes, injury to the pancreas is potentially very dangerous. A puncture of the pancreas generally requires prompt and experienced medical intervention.

Pancreatic cancer, particularly cancers of the Exocrine Pancreas remain one of the most deadly cancers, and the mortality rate is very high.

In Medical Astrology Natural Zodiac (Kalapursha), pancreas is ruled by the sign Cancer, 4th house and severe affliction to Cancer sign is one of the indications for pancreas cancer. Pancreas, which secretes insulin, is ruled by the 6th house while the secretions and glands are denoted by Venus. At the same time lack of exercise is also denoted by Venus. According to K.P. System if the sublord of the 6th cusp is connected to either Venus, Jupiter or Moon and houses 1, 6 and 8, and also the Cancer sign, one would be attacked by this disease of pancreas or diabetes. Venus also indicates diabetes due to excess of sugar, nephritis, syphilis, venereal disease, dropsy, impotency etc. Moon indicates breasts, lungs, left eye, kidney and liquid matter in the body and pancreas etc.

British actor, internationally known on stage and film, the winner of an Academy Award, three Tony Awards, New York Theatre Critics Award, A Golden Globe Award, and Order of Merit of the Italian Public. He has appeared in over 40 films and plays, including his signature role of Professor Henry Higgins in the musical "My Fair Lady."

VI CSL Ra(6) in own star Ra(1,6,7/Me); IV CSL Sa(2) in own star, Ju (7,1,12) in Sa(2). Ve (2,4,59) in Ma(3,10,11). During Ju-Ke (1990) the native died of pancreatic cancer. Ke (12) in Ve (2,4,5,9) had given the trouble.

Conclusion: From the analysis of the above 4 charts for pancreatic cancer we can conclude that 4th and 6th CSLs are generally connected to Mo, Ju, Ve, Cancer sign. In all the above cases 4th cusp happens to play vital role in this disease.

Pranams to Guruji Prof. KSK.

OM GAJANANAM NAMAMYAHAM

This month I am going to discuss about Appendicitis relating to Intestine and 8 charts were taken up (Source: Dr. Bhamidipati Satyanarayana Murthy & Astrodatbank). Sri K Raghavendra Kumar M.Sc. B.Ed, was extended his assistance in preparing this article.

Appendicitis: Appendicitis is a condition characterized by inflammation of the appendix. It is classified as a medical emergency and many cases require removal of the inflamed appendix, either by laparotomy or laparoscopy. Untreated, mortality is high, mainly because of peritonitis and shock. Reginald Fitz first described acute and chronic appendicitis in 1886, and it has been recognized as one of the most common causes of severe acute abdominal pain worldwide. A correctly diagnosed non-acute form of appendicitis is known as "rumbling appendicitis."

Rovsing's sign: Continuous deep palpation starting from the left iliac fossa upwards (anti clockwise along the colon) may cause pain in the right iliac fossa, by pushing bowel contents towards the ileocaecal valve and thus increasing pressure around the appendix. This is the Rovsing's sign.

Psoas sign: Psoas sign is right lower-quadrant pain that is produced with the patient extending the hip due to inflammation of the peritoneum overlying the iliopsoas muscles and inflammation of the psoas muscles themselves. Straightening out the leg causes the pain because it stretches the muscles, and flexing the hip into the "fetal position" relieves the pain.

Obturator sign: If an inflamed appendix is in contact with the obturator internus, spasm of the muscle can be demonstrated by flexing and internal rotation of the hip. This maneuver will cause pain in the hypogastrium.

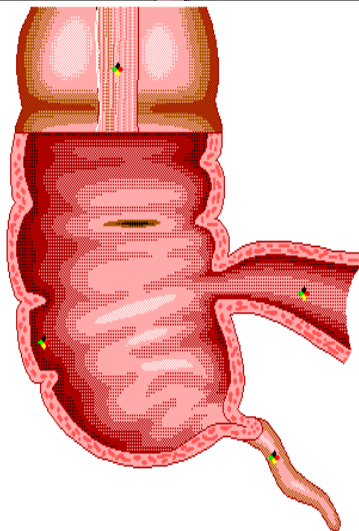

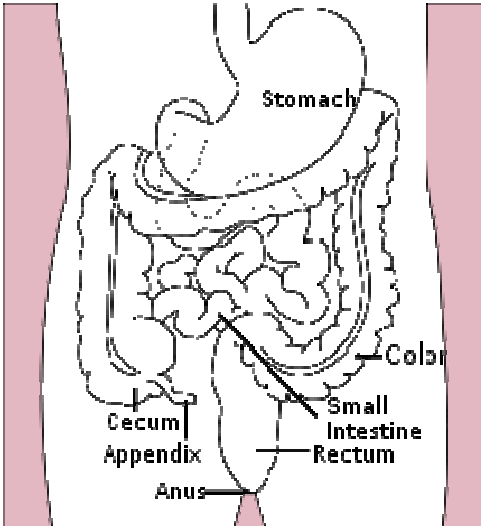

Blumberg sign: Deep palpation of the viscera over the suspected inflamed appendix followed by sudden release of the pressure causes the severe pain on the site indicating positive Blumberg's sign and peritonitis.

Causes: On the basis of experimental evidence, acute appendicitis seems to be the end result of a primary obstruction of the appendix lumen. Once this obstruction occurs the appendix subsequently becomes filled with mucus and swells, increasing pressures within the lumen and the walls of the appendix, resulting in thrombosis and occlusion of the small vessels, and stasis of lymphatic flow. Rarely, spontaneous recovery can occur at this point. As the former progresses, the appendix becomes ischemic and then necrotic. As bacteria begin to leak out through the dying walls, pus forms within and around the appendix (suppuration). The end result of this cascade is appendiceal rupture (a 'burst appendix') causing peritonitis, which may lead to septicemia and eventually death.

Among the causative agents, such as foreign bodies, trauma, intestinal worms, lymphadenitis, and calcified deposits known as appendicoliths, the occurrence of an obstructing fecalith has attracted attention. The prevalence of fecaliths in patients with appendicitis is significantly higher in developed than in developing countries, and an appendiceal fecalith is commonly associated with complicated appendicitis. Also, fecal stasis and arrest may play a role, as demonstrated by a significantly lower number of bowel movements per week in patients with acute appendicitis compared with healthy controls. The occurrence of a fecalith in the appendix seems to be attributed to a right sided fecal retention reservoir in the colon and a prolonged transit time. From epidemiological data it has been stated that diverticular disease and adenomatous polyps were unknown and colon cancer exceedingly rare in communities exempt for appendicitis. Also, acute appendicitis has been shown to occur antecedent to cancer in the colon and rectum. Several studies offer evidence that a low fiber intake is involved in the pathogenesis of appendicitis. This is in accordance with the occurrence of a right sided fecal reservoir and the fact that dietary fiber reduces transit time.

Diagnosis is based on patient history (symptoms) and physical examination backed by an elevation of neutrophilic white blood cells. Histories fall into two categories, typical and atypical. Typical appendicitis usually includes abdominal pain beginning in the region of the umbilicus for several hours, associated with anorexia, nausea or vomiting. The pain then "settles" into the right lower quadrant, where tenderness de-

velops. Atypical histories lack this typical progression and may include pain in the right lower quadrant as an initial symptom. Atypical histories often require imaging with ultrasound and/or CT scanning. A pregnancy test is vital in all women of child bearing age, as ectopic pregnancies and appendicitis present with similar symptoms. The consequences of missing an ectopic pregnancy are serious, and potentially life threatening. Furthermore the general principles of approaching abdominal pain in women (in so much that it is different from the approach in men) should be appreciated.

In Medical Astrology and as per the “Medical Astrology for All” written by Sri K Subramaniam S/o Sri KSK Guruji, regarding Appendix indicated the following information. Natural Zodiac (Kalapursha) the location of this part of the body is ruled by 6th sign Virgo /6th house from Ascendant. Mars is the chief planet for appendicitis. Mars if afflicted by Saturn or Rahu in Virgo or Scorpio may give rise to this disease. Mars desires to eliminate wastes and injurious substances from human body, by causing inflammation, fever etc. Mercury is concerned with those organs which carry out-ward things within the body, and tries to retain them without any consideration of their beneficial or injurious effect.

The sign Gemini, Virgo, Scorpio and Pisces are prominent appendicitis signs. The 6th, 8th, 12th houses are relevant to the disease. Mercury and Mars are vital appendicitis planets. The Saturn in 5th house makes a person voracious eater with consequent disease of over eating, and disease like appendicitis are caused.

Uttara 2-4: Intestines, Bowels & Liver. Tumours in the Bowels, Obstructions, Stomach disorder.

Hastha: Bowels, Intestines, Secreting Glands, Enzymes. Gas formation, Loose Bowels, Pain & disorders in Bowels, Obstructions, Worms, Mucui, Cholera, Diarrhoea, Typhoid, Amoebic, Dysentery.

Chithra 1-2 Belly, Lower Part. Ulcers, Sharp & Acute pains, Worms, Irritation & itching.

109 sub Sun-Mercury: Appendix (t. of large & small intestines)

Mars: Blood disease, Fevers, Tissue breakages, Burns, Itches, Cuts (surgery) and wounds, Bone Fractures, Urine diseases, Boils, CANCER, Piles, Ulcer, Rectum, Plague, Small/chicken pox, Messels, Mumps, Fistula, Haemorrhage, Typhoid, Hernia, Malaria, Abortion, Bleeding, Muscular rheumatism, Septic, Tetanus.

Mercury: Disease of Nerves, Nose, disease from poison Itches, disease of Gall Bladder, Paralysis, Fits, Ulcers, Indigestion, Cholera, disease of Mouth & Skin, Neuromas, Leucoderma, Impotence, Vertigo deafness and skin diseases.

As the Appendix is attached to the Caesum near its junction with the large intestine shown by the star Hastha (bowels and intestine). Chita, (loose bowels, pain and disorder in his bowels, mucous, diarrhoea etc) any malefic planet in the above constellation will show this disease. As the function of appendix is more or less similar to tonsils, the planets on Rohini star (tonsils) at times contribute to this disease, also.

Mars is the Karaka for all raptures, inflammations tumours, abscess, boils etc. Its desire is to eliminate waste and injurious substances, from the body through the above process. So in the case of appendicitis whether Mars is essential or not, it has to be appear to bring about the inflammations of appendix, fever, pain etc., besides the surgical treatment.

Mercury rules Ulcers; the most of this disease is sudden and unexpected including death also.

As Sun is the Karaka for bowels while Moon denotes colon, these two planets may also be connected to with this disease. As Venus is the Karaka for throat disease like Tonsils, Pharyngitis, Diphtheria etc there is no wonder if Venus is seen among the planets appendicitis more or less similar to the same.

Generally the 6th, 8th and 12th houses or lords of the above houses are relevant to this disease as the 6th denotes disease besides the house of location of disease. 8th house is the house of surgery, while the 12th is house of hospitalization, surgical treatment besides the location of disease, the houses 12, 8, 6 have to be taken into account besides the Lagna. Therefore the following signs in the zodiac, Pisces, Scorpio, and Virgo besides Gemini are prominent Appendicitis signs.

It has found that Jupiter, Mars, Mercury & Venus are relevant for this Appendicitis.

VI, VIII, XII, Virgo, Pisces CSL Sa (8,10,11) in Ve (10,1); Scorpio CSL Ve(10,1) in Ra(2-8,10,11 Sa aspect,9,3,6/Me by sign lord); In Su-Ma(2/1925) the native underwent Appendicitis which has proved fatal. Sun as lord of 5 n 10 in Mo lord 4 in 3. Subperiod Ma is connected to Mo and at Sublevel Sa has given this Malady. Sun in 10th house has given the Crown with Majority in the Election but Ma as a lord of 7 in Virgo in 5 has given death by disease.

Conclusion: From the analysis of the above 8 charts for Appendicitis we can conclude that 6th 8th and 12th CSLs connection to primarily Ma, Me and Virgo, Scorpio signs, and also Ju, Ve, Scorpio sign. In all the above cases 6th cusp connection to Mars, Rahu happens to play vital role in one's susceptibility to appendicitis as found by S.K. Duggal's study of hundreds of charts in Revelation of Medical Astrology. Extra finding is that 5 n 7 cusps also plays vital role in recovery or fatal. Pranams to Guru Prof. KSK.

OM GAJANANAM NANAMYAHAM

This month I am going to discuss about Duodenednal complaints relating to Intestine and 3 charts were taken up (Source: Dr. Bhamidipati Satyanarayana Murthy & Astrodatbank). Sri K Raghavendra Kumar M.Sc. B.Ed, Member of KPAF Hyderabad was extended his assistance in preparing this article.

Duodenum: The duodenum is the first section of the small intestine in most higher vertebrates, including mammals, reptiles, and birds. The duodenum precedes the jejunum and ileum and is the shortest part of the small intestine, where most chemical digestion takes place. The name duodenum is from the Latin duodenum digitorum, or twelve fingers' breadths. In humans, the duodenum is a hollow jointed tube about 25-30 cm (10-12 in) long connecting the stomach to the jejunum. It begins with the duodenal bulb and ends at the ligament of Treitz.

Function: The duodenum is largely responsible for the breakdown of food in the small intestine, using enzymes. Brunner's glands, which secrete mucus, are found in the duodenum. The duodenum wall is composed of a very thin layer of cells that form the muscularis mucosae. The duodenum is almost entirely retroperitoneal.

The duodenum also regulates the rate of emptying of the stomach via hormonal pathways. Secretin and cholecystokinin are released from cells in the duodenal epithelium in response to acidic and fatty stimuli present there when the pylorus opens and releases gastric chyme into the duodenum for further digestion. These cause the liver and gall bladder to release bile, and the pancreas to release bicarbonate and digestive enzymes such as trypsin, lipase and amylase into the duodenum as they are needed.

New studies have shown that around 80% of obese people who had gastric bypass surgery (bypassing the duodenum) were cured of their type 2 diabetes. However, the disappearance of their diabetes came long before the actual weight loss. When the same operation was performed on diabetic rats, they too were rid of their diabetes. However, when the operation was reversed in the animals, the diabetes returned. This shows that preventing food from entering the duodenum can have a dramatic impact on people suffering from type 2 diabetes.

It is most likely that one of the digestive additives produced by the Duodenum on entry of food in to it (or a secondary product) is absorbed by the jejunum and ileum and spread into the body instead of passing through the digestive system. The presence of those chemicals causes the muscles to exhibit insulin resistance and ultimately Type 2 Diabetes. Identification of these chemicals may lead to a cure for Type 2 Diabetes.

Sections: The duodenum is divided into four sections for the purposes of description. The first three sections curve in a "C"-loop concavity in which the head of the pancreas lies. Only the first 2 cm of the superior part is mobile (covered by peritoneum) - the distal 3cm of the first part along with the rest of the duodenum is retroperitoneal (immobile).

First part : The first (superior) part begins as a continuation of the duodenal end of the pylorus. From here it passes laterally (right), superiorly and posteriorly, for approximately 5 cm, before making a sharp curve inferiorly into the superior duodenal flexure (the end of the superior part). It is intraperitoneal Relations

- Anterior
 - * Peritoneum * Gallbladder * Quadrate lobe of liver
- Posterior
 - * Bile duct * Gastroduodenal artery * Portal vein * IVC
- Superior
- Neck of gallbladder * Hepatoduodenal ligament (lesser omentum)
- Inferior
 - * Neck of pancreas * Greater omentum

Second part: The second (descending) part of the duodenum begins at the superior duodenal flexure. It passes inferiorly to the lower border of vertebral body L3, before making a sharp turn medially into the

inferior duodenal flexure (the end of the descending part).

The pancreatic duct and common bile duct enter the descending duodenum, commonly known together as the hepatopancreatic duct (or pancreatic duct in the United States), through the major duodenal papilla (known as Ampulla of Vater). This part of the duodenum also contains the minor duodenal papilla, the entrance for the accessory pancreatic duct. The junction between the embryological foregut and midgut lies just below the major duodenal papilla.

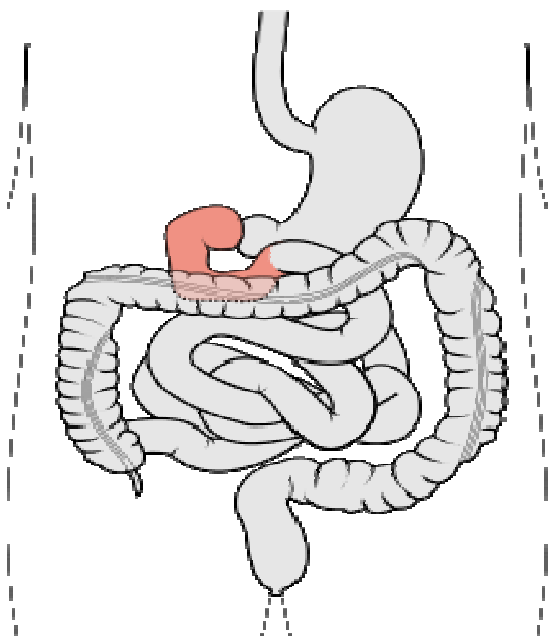

Third part: The third (inferior/horizontal) part of the duodenum begins at the inferior duodenal flexure and passes transversely to the left, crossing the right ureter, right testicular/ovarian vessels, inferior vena cava, abdominal aorta, superior mesenteric artery and the vertebral column.

Fourth part: The fourth (ascending) part passes superiorly, either anterior to, or to the right of, the aorta, until it reaches the inferior border of the body of the pancreas. Then, it curves anteriorly and terminates at the duodenojejunal flexure where it joins the jejunum. The duodenojejunal flexure is surrounded by a peritoneal fold containing muscle fibres: the ligament of Treitz.

Duodenal cancer is a cancer in the beginning section of the small intestine. It is relatively rare compared to gastric cancer and colorectal cancer. Its histology is usually adenocarcinoma. Familial adenomatous polyposis (FAP) is a risk factor for developing this cancer. The duodenum is the first part of the small intestine. It is located between the stomach and the jejunum. After foods combine with stomach acid, they descend into the duodenum where they mix with bile from the gall bladder and digestive juices from the pancreas.

Treatment: Resection is sometimes a part of a treatment plan, but duodenal cancer is difficult to remove surgically because of the area that it resides in--there are many blood vessels supplying the lower body. Chemotherapy is sometimes used to try and shrink the cancerous mass. Other times intestinal bypass surgery is tried to reroute the stomach to intestine connection around the blockage. A 'Whipple' is a possible surgery that is tried sometimes with this cancer. Some patients are fitted with tubes to either add nutrients (feeding tubes) or drainage tubes to remove excess processed food that can not pass the blockage.

The cancerous mass tends to block food from getting to the small intestine. If food can not get to the intestines, it will cause pain, acid reflux, and weight loss because the food can not get to where it is supposed to be processed and absorbed by the body. Patients with duodenal cancer may experience abdominal pain, weight loss, nausea, vomiting, and chronic GI bleeding. (Courtesy: Dr. Bhadmidipati Satyanarayana, MD – KPAF Member)

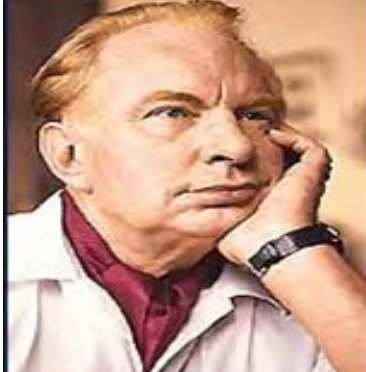

In Medical Astrology, as per the “Medical Astrology for All” written by Sri K Subramaniam S/o Sri KSK Guruji, duodenum part of the body is ruled by 6th sign Virgo /6th house from Ascendant. Moon and Venus are the chief governors for duodenal ulcers. Virgo rules the abdominal region, intestines, the lower lobes of the liver, the spleen, the duodenum, and the sympathetic nervous system. (Source: Medical Astrology: Message of the Stars by Max Heindel and Augusta Foss Heindel/ A Handbook of Medical Astrology by Jane Ridder-Patrick)

Virgo contains Uttara Phalguni 2-4, Hasta & Chitta 1-2 pada who rules the following anatomy of the body:

Uttara 2-4: Duodenum, Intestines, Bowels & Liver, Obstructions, Stomach disorder, Sore Throat and swelling in Neck. Tumours in the Bowels.

Generally the 6th CSL connection to 6th, 8th, 12th, Maraka, Badhaka houses and Moon, Venus, and the adverse effect of these houses on Virgo sign indicate duodenal ulcers.

ANALYSIS:

<p>01 Hirohito</p> <p>Date 29/04/1901, Time 22:00:00 JST, Place Tokyo, Japan, Day Monday, Lat 35:42 N, Long 139:46 E, TZ 9hrs East of GMT, KPNA 22:23:22, Birth Star: Uttaraphalguni-2 Rasi: Virgo <u>Asc. : Sag 1:39:20</u></p> <p>VI CSL Mo+(9,8) is 6th CSL with no planet ints star, in Su(5,9), in sub Ra+ whose sign lord Ma+(8,5,12); Mo+(9,8) being 6th CSL with no planet in its star is placed in Virgo, which is also aspected by 2nd Maraka lord Sa. CSL Ke(5- 5,6,11/Ve) in Su(5 9); During Me-Ju (July 1989) Mr. Hito died due to duodenal cancer. Me is in star and sub Ke, chief significator for malign tumours / cancers. Ju Lagnesh Bhukthi which is connected to Venus by star lord and sapect had finally given the disease.</p>	
<p>02 James Joyce</p> <p>Date 02/02/1882, Time 06:24:00GMT, Place Dublin, Ireland, Day Thursday, Lat 53:20 North, Long 6:15 West, TZ 00:00 hrs, KPNA 22:07:16, Birth Star: Pushyami-3 Rasi: Cancer <u>Asc. : Sag 14:03:41</u></p> <p>VI CSL Ju+(4,1,3) is 6,12 CSL with no planet in its stars, in star Ve(2,5,6,11), sub Me+(2,7Badhaka,9); VIII CSL Ra(11 Sco) in Sa(3 Ari 2); XII CSL Ju (as above); Virgo sign is aspected by 12th lord Ma from 6. During Mo-Ma (Jan 1941) Mr. James was admitted for duodenal ulcer operation and died after 3 days with peritonitis (abdomen/belly). Moon in 7th Can in star Sa(3,2), sub Su(1,8) conj Venus in Moon star indicated the disease.</p>	
<p>03 Ron Hubbard</p> <p>Date 13/03/1911, Time 02:01:00 MST, Place Tilden, Nebraska, USA, Day Monday, Lat 42:03 North, Long 97:50 West, TZ 6 hrs West of GMT, KPNA 22:31:38, Birth Star: Makha-3 Rasi: Leo, <u>Asc. : Sco 27:55:47</u></p> <p>VI CSL Ve(4,6,7,11) is in star Me(3,10), sub Ra+ conj Sa+ being 1,2,7,8 CSL & aspected by Ma+(2,1,5,12). Virgo sign is aspected by 6,7th lord Ve. During Ra-Ve (Mar 1971) Mr. Ron had duodenal ulcers but cured, remission was given. Ra in star Ve(4,6,7,11) had given the problem but Ra+(5) in sub Ju(11,4) had given relief. Bhukthi lord Venus (4,6,7,11) in star Me (3n10) and in sub Ra+(5) had given recovery.</p>	

Conclusion: From the analysis of the above 3 charts for duodenal ulcers, we can conclude that 6th CSL and Virgo sign connection to 6th, 8th, 12th, Maraka, Badhaka houses and Moon, Venus plays a vital role in this duodenal disease.

Pranams to Guru Prof. KSK.

This month I am going to discuss about Kidney Stone complaints relating to Kidneys and 7 charts were taken up (Source: Dr. Bhamidipati Satyanarayana Murthy & Astrodatbank). Smt Geeta Vani Dhagay, was extended her assistance in preparing this article.

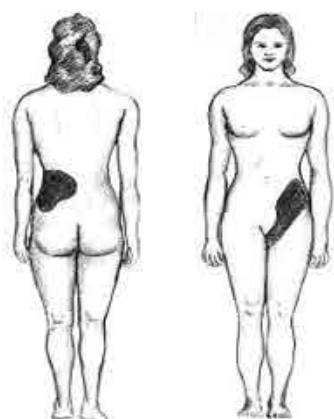

Kidney stone:

Kidney stones (ureterolithiasis) result from stones or renal calculi (from Latin ren, renes, "kidney" and calculi, "pebbles") in the ureter. The stones are solid concretions or calculi (crystal aggregations) formed in the kidneys from dissolved urinary minerals. Nephrolithiasis (from Greek (nephros, "kidney") and (lithos, "stone")) refers to the condition of having kidney stones. Urolithiasis refers to the condition of having calculi in the urinary tract (which also includes the kidneys), which may form or pass into the urinary bladder. Ureterolithiasis is the condition of having a calculus in the ureter, the tube connecting the kidneys and the bladder. The term bladder stones usually applies to urolithiasis of the bladder in non-human animals such as dogs and cats.

Kidney stones typically leave the body by passage in the urine stream, and many stones are formed and passed without causing symptoms. If stones grow to sufficient size before passage on the order of at least 2-3 millimeters they can cause obstruction of the ureter. The resulting obstruction causes dilation or stretching of the upper ureter and renal pelvis (the part of the kidney where the urine collects before entering the ureter) as well as muscle spasm of the Ureter, trying to move the stone. This leads to pain, most commonly felt in the flank, lower abdomen and groin (a condition called renal colic). Renal colic can be associated with nausea and vomiting. There can be blood in the urine, visible with the naked eye or under the microscope (macroscopic or microscopic hematuria) due to damage to the lining of the urinary tract.

There are several types of kidney stones based on the type of crystals of which they consist. The majority are calcium oxalate stones, followed by calcium phosphate stones. More rarely, struvite stones are produced by urea-splitting bacteria in people with urinary tract infections, and people with certain metabolic abnormalities may produce uric acid stones or cystine stones.

The diagnosis of a kidney stone can be confirmed by radiological studies and or ultrasound examination; urine tests and blood tests are also commonly performed. When a stone causes no symptoms, watchful waiting is a valid option. In other cases, pain control is the first measure, using for example non-steroidal anti-inflammatory drugs or opioids. Using soundwaves, some stones can be shattered into smaller fragments (this is called extracorporeal shock wave lithotripsy). Sometimes a procedure is required, which can be through a tube into the urethra, bladder and ureter (ureteroscopy), or a keyhole or open surgical approach from the kidney's side. Sometimes, a tube may be left in the ureter (a ureteric stent) to prevent the recurrence of pain. Preventive and structive measures are often advised such as drinking sufficient amounts of water, milk and coffee, although the effect of many dietary interventions has not been rigorously studied.

Signs and symptoms: Symptoms of kidney stones include

Localization of kidney stone pain

- * Colicky pain: "loin to groin". Often described as "the worst pain [...] ever experienced". This can also occur in the lower back
- * Nausea/vomiting: embryological link with intestine— stimulates the vomiting center.
- * Hematuria: blood in the urine, due to minor damage to inside wall of kidney, ureter and/or urethra.

- * Pyuria: pus in the urine.
- * Dysuria: burning on urination when passing stones (rare). More typical of infection.
- * Oliguria: reduced urinary volume caused by obstruction of the bladder or urethra by stone, or extremely rarely, simultaneous obstruction of both ureters by a stone.
- * Postrenal azotemia: the blockage of urine flow through a ureter.

Hydronephrosis: the distension and dilation of the renal pelvis and calyces.

Causes:

Kidney stones or calcium oxalate crystals in kidney can be due to underlying metabolic conditions, such as renal tubular acidosis, Dent's disease, hyperparathyroidism, primary hyperoxaluria and medullary sponge kidney. Kidney stones are also more common in patients with Crohn's disease. Patients with recurrent kidney stones should be screened for these disorders. This is typically done with a 24 hour urine collection that is chemically analyzed for deficiencies and excesses that promote stone formation.

There has been some evidence that water fluoridation may increase the risk of kidney stone formation. In one study, patients with symptoms of skeletal fluorosis were 4.6 times as likely to develop kidney stones.

A 1998 paper in the Archives of Internal Medicine examined the sources of a widely-held belief in the medical community that vitamin C can cause kidney stones, and found it to be based on several circular references, ultimately attributing the belief to a wider pattern of skepticism regarding efficacy of vitamin supplements. A more recent study suggested a causal relationship may exist, but it was not conclusive.

The American Urological Association has projected that increasing global temperatures will lead to greater future prevalence of kidney stones, notably by expanding the "kidney stone belt" of the southern United States. Astronauts seem to show a higher risk of developing kidney stones during or after long duration space flights.

Calcium oxalate stones:

The most common type of kidney stone is composed of calcium oxalate crystals, occurring in about 80% of cases, and the factors that promote the precipitation of crystals in the urine are associated with the development of these stones.

Common sense has long held that consumption of too much calcium could promote the development of calcium kidney stones. However, current evidence suggests that the consumption of low-calcium diets is actually associated with a higher overall risk for the development of kidney stones. This is perhaps related

to the role of calcium in binding ingested oxalate in the gastrointestinal tract. As the amount of calcium intake decreases, the amount of oxalate available for absorption into the bloodstream increases; this oxalate is then excreted in greater amounts into the urine by the kidneys. In the urine, oxalate is a very strong promoter of calcium oxalate precipitation, about 15 times stronger than calcium.

Uric acid (urate):

About 5–10% of all stones are formed from uric acid. Uric acid stones form in association with conditions that cause hyper uricosuria with or without high blood serum uric acid levels (hyperuricemia); and with acid/base metabolism disorders where the urine is excessively acidic (low pH) resulting in uric acid precipitation. A diagnosis of uric acid nephrolithiasis is supported if there is a radiolucent stone, a persistent undue urine acidity, and uric acid crystals in fresh urine samples.

Other types:

Other types of kidney stones are composed of struvite (magnesium, ammonium and phosphate); calcium phosphate; and cystine. Struvite stones are also known as infection stones, urease or triple-phosphate stones. About 10–15% of urinary calculi consist of struvite stones. The formation of struvite stones is associated with the presence of urea-splitting bacteria, most commonly *Proteus mirabilis*. These organisms are capable of splitting urea into ammonia, decreasing the acidity of the urine and resulting in favorable conditions for the formation of struvite stones. Struvite stones are always associated with urinary tract infections.

The formation of calcium phosphate stones is associated with conditions such as hyperparathyroidism and renal tubular acidosis. Formation of cystine stones is uniquely associated with people suffering from cystinuria, who accumulate cystine in their urine. Cystinuria can be caused by Fanconi's syndrome. Urolithiasis has also been noted to occur in the setting of therapeutic drug use, with crystals of drug forming within the renal tract in some patients currently being treated with Indinavir, Sulfadiazine or Triamterene. Initially homeopathic remedies are good before going to Laser/Key hole treatments.

Diagnosis:

Clinical diagnosis is usually made on the basis of the location and severity of the pain, which is typically colicky in nature (comes and goes in spasmodic waves). Pain in the back occurs when calculi produce an obstruction in the kidney.

Imaging is used to confirm the diagnosis and a number of other tests can be undertaken to help establish both the possible cause and consequences of the stone.

Computed tomography: CT Scan

Computed tomography without contrast is considered the gold standard diagnostic test for the detection of kidney stones. All stones are detectable by CT except very rare stones composed of certain drug residues in the urine. If positive for stones, a single standard X-ray (digital) of the abdomen (KUB Kidney Ureter Bladder) is recommended. This gives a clearer idea of the exact size and shape of the stone as well as its surgical orientation. Further, it makes it simple to follow the progress of the stone by doing another X-ray in the future.

Ultrasound:

Ultrasound imaging is useful as it gives details about the presence of hydronephrosis (swelling of the kidney—suggesting the stone is blocking the outflow of urine). It can also be used to detect stones during pregnancy when x-rays or CT are discouraged. Radiolucent stones may show up on ultrasound however they are also typically seen on CT scans. Some recommend that US be used as the primary diagnostic technique with CT being reserved for those with negative US result and continued suspicion of a kidney stone. This is due to its lesser cost and avoidance of radiation.

Staghorn Calculus

Multiple kidney stones composed of uric acid and a small amount of calcium oxalate.

Star-shaped bladder urolith on an X-ray of the pelvis.

Bilateral kidney stones on abdominal X-ray. Not to be confused with phleboliths seen in the pelvis.

CT of abdomen without contrast showing right proximal ureteric stone causing mild obstruction and hydronephrosis marked by an arrow).

Prevention:

Preventive strategies include dietary modifications and sometimes also taking drugs with the goal of reducing excretory load on the kidneys:

Drinking enough water to make 2 to 2.5 liters of urine per day.

A diet low in protein, nitrogen and sodium intake

Restriction of oxalate-rich foods, such as chocolate, nuts, soybeans, rhubarb and spinach, plus maintenance of an adequate intake of dietary calcium. There is equivocal evidence that calcium supplements increase the risk of stone formation, though calcium citrate appears to carry the lowest, if any, risk.

Taking drugs such as thiazides, potassium citrate, magnesium citrate and allopurinol, depending on the cause of stone formation.

Some fruit juices, such as orange, blackcurrant, and cranberry, may be useful for lowering the risk factors for specific types of stones. Orange juice may help prevent calcium oxalate stone formation, black currant may help prevent uric acid stones, and cranberry may help with UTI-caused stones.

A kidney stone at the tip of an ultrasonic instrument.

Limit intake of caffeinated beverages, such as coffee.

Avoidance of Cola beverages.

Avoiding large doses of vitamin C.

For those patients interested in optimizing their kidney stone prevention options, a 24 hour urine test can be a useful diagnostic.

In Medical Astrology and as per the “Medical Astrology for All” written by Sri K Subramaniam S/o Sri KSK Guruji, regarding KIDNEY STONE and Ureter are ruled by 7th sign Libra /7th house from Ascendant. Moon/ Venus are the chief signifiers for KIDNEY STONE. Jupiter (enlargement), Saturn (slowness/delays crystallization), Mars (Nodes) are indicated for stone formation and laser or surgery. (Source: Medical Astrology - Message of the Stars by Max Heindel and Augusta Foss Heindel.)

Libra contains Chitta 3-4, Swati I-4, Vishakha I-2 who rules the following anatomy of the body:

CHITTA 3-4: Libra indicates Kidneys Uterus Ureter Ovaries, etc. Moon is karaka of fluids and Venus play an important role in Nephrology. The 6th, 8th, 12th houses are relevant to the disease.

Generally the 6th, 8th and 12th houses or lords of the above houses are relevant to this disease as the 6th denotes disease besides the house of location of disease. 8th house is the house of surgery, while the 12th is house of hospitalization, surgical treatment besides the location of disease, the houses 12, 8, 6 have to be taken into account from Lagna.

This month I am going to discuss about Hernia complaints relating to Abdomen and 6 charts were taken up (Source: Dr. Bhamidipati Satyanarayana Murthy & Astrodatatabank). K Raghavendra Kumar, M.Sc. B.Ed., was extended her assistance in preparing this article.

Inguinal hernia:

An inguinal hernia is a protrusion of abdominal-cavity contents through the inguinal canal. They are very common (lifetime risk 27% for men, 3% for women, and their repair is one of the most frequently performed surgical operations.

There are two types of inguinal hernia, direct and indirect, which are defined by their relationship to the inferior epigastric vessels. Direct inguinal hernias occur medial to the inferior epigastric vessels when abdominal contents herniate through the external inguinal ring. Indirect inguinal hernias occur when abdominal contents protrude through the deep inguinal ring, lateral to the inferior epigastric vessels; this may be caused by failure of embryonic closure of the processus vaginalis.

Type	Description	Relationship to inferior epigastric vessels	Covered by internal spermatic fascia?	Usual Onset
Indirect inguinal hernia	protrudes through the inguinal ring and is ultimately the result of the failure of embryonic closure of the internal inguinal ring after the <u>testicle</u> passes through it	Lateral	Yes	Congenital
Direct inguinal hernia	enters through a weak point in the fascia of the abdominal wall (<u>Hesselbach triangle</u>)	Medial	No	Adult

Inguinal hernias, in turn, belongs to groin hernias, which also includes femoral hernias. A femoral hernia is not via the inguinal canal, but via the femoral canal, which normally allows passage of the common femoral artery and vein from the pelvis to the leg.

In Amyand's hernia, the content of the hernial sac is the vermiform appendix.

In Littre's hernia, the content of the hernial sac contains a Meckel's Diverticulum.

Hernias present as bulges in the groin area that can become more prominent when coughing, straining, or standing up. They are rarely painful, and the bulge commonly disappears on lying down. The inability to "reduce", or place the bulge back into the abdomen usually means the hernia is 'incarcerated' which is a surgical emergency.

Significant pain is suggestive of strangulated bowel (an incarcerated indirect inguinal hernia).

As the hernia progresses, contents of the abdominal cavity, such as the intestines, can descend into the hernia and run the risk of being pinched within the hernia, causing an intestinal obstruction. If the blood supply of the portion of the intestine caught in the hernia is compromised, the hernia is deemed "strangulated," and gut ischemia and gangrene can result, with potentially fatal consequences. The timing of complications is not predictable. Some hernias remain static for years, others progress rapidly from the time of onset. Provided there are no serious co-existing medical problems, patients are advised to get the hernia repaired surgically at the earliest convenience after a diagnosis is made. Emergency surgery for

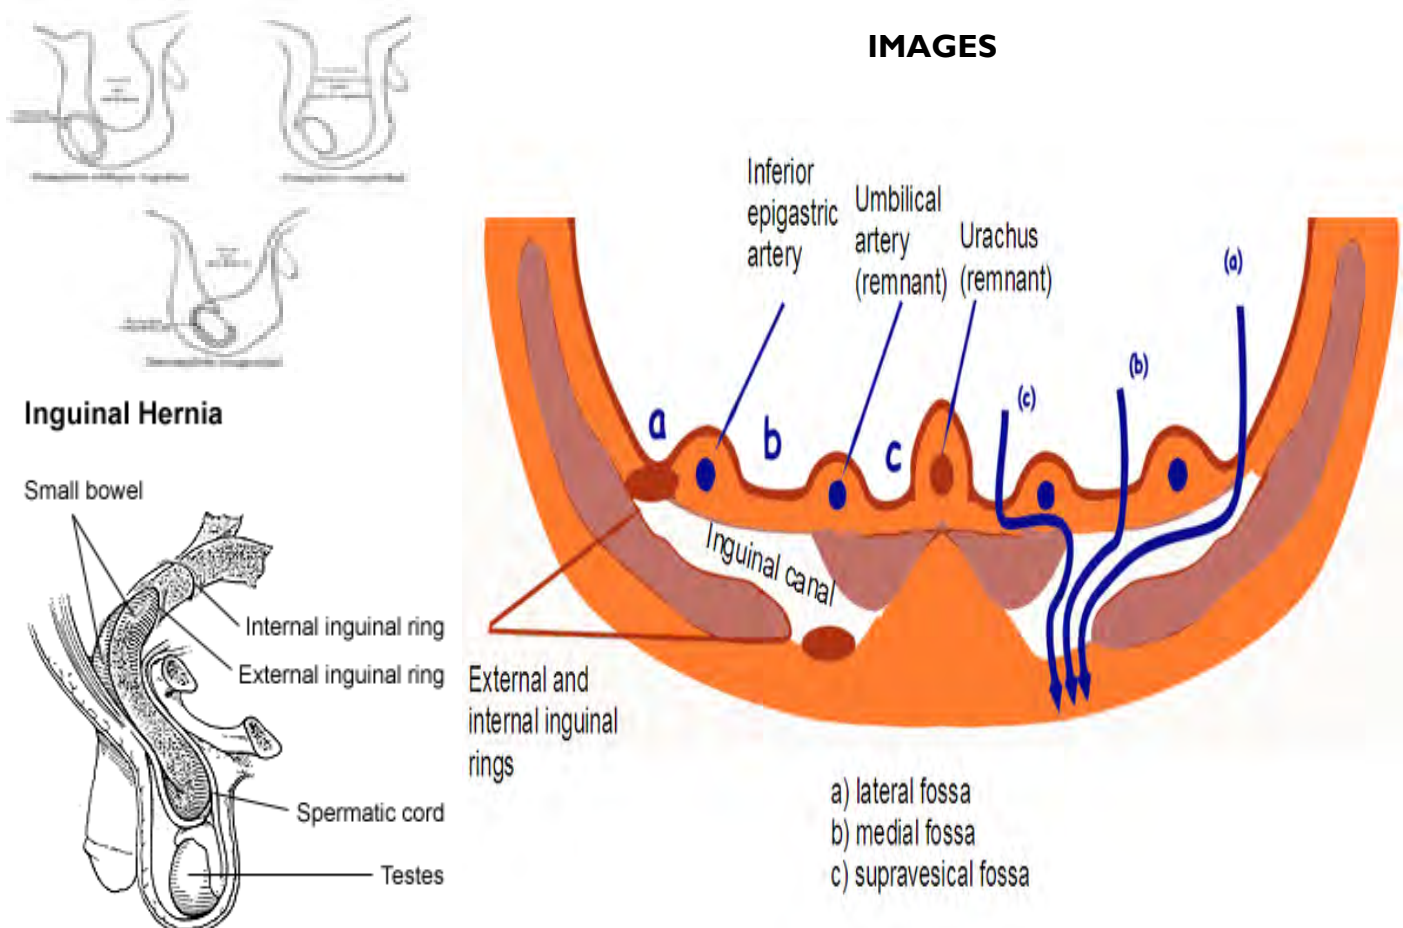

complications such as incarceration and strangulation carry much higher risk than planned, "elective" procedures.

In men, indirect hernias follow the same route as the descending testes, which migrate from the abdomen into the scrotum during the development of the urinary and reproductive organs. The larger size of their inguinal canal, which transmitted the testicle and accommodates the structures of the spermatic cord, might be one reason why men are 25 times more likely to have an inguinal hernia than women. Although several mechanisms such as strength of the posterior wall of the inguinal canal and shutter mechanisms compensating for raised intra-abdominal pressure prevent hernia formation in normal individuals, the exact importance of each factor is still under debate.

The hernia truss is intended to contain a reducible inguinal hernia within the abdomen. This device fell out of favour with the advent of hernia surgery. It is not considered to provide a cure, and if the pads are hard and intrude into the hernia aperture they may cause scarring and enlargement of the aperture. In addition, most trusses with older designs are not able effectively to contain the hernia at all times, because their pads do not remain permanently in contact with the hernia. The more modern variety of truss (medicine) is made with non-intrusive flat pads and comes with a guarantee to hold the hernia securely during all activities. Although there is as yet no proof that such devices can prevent an inguinal hernia from progressing, they have been described by users as providing greater confidence and comfort when carrying out physically demanding tasks. Their popularity is likely to increase, as many individuals with small, painless hernias are now delaying hernia surgery due to recently published reports on the incidence of Post Herniorrhaphy Pain Syndrome.

Surgical correction of inguinal hernias, called a herniorrhaphy or hernioplasty, is now often performed as outpatient surgery. There are various surgical strategies which may be considered in the planning of inguinal hernia repair. These include the consideration of mesh use, type of open repair, use of laparoscopy, type of anesthesia, appropriateness of bilateral repair, etc. During surgery conducted under local anaesthesia, the patient will be asked to cough and strain during the procedure to help in demonstrating that the repair is "tension free" and sound.

Symptoms:

Early symptoms can include nausea, vomiting - sometimes bile stained (green color), pulling legs to the chest area, and intermittent moderate to severe cramping abdominal pain. Pain is intermittent not because the intussusception temporarily resolves, but because the intussuscepted bowel segment transiently stops contracting. Later signs include rectal bleeding, often with 'red currant jelly' stool (stool mixed with blood and mucus), and lethargy. Physical examination may reveal a 'sausage-shaped' mass felt upon palpation of the abdomen.

In children or those too young to communicate their symptoms verbally, they may cry, draw their knees up to their chest or experience dyspnea (difficult or painful breathing) with paroxysms of pain.

Fever is not a symptom of intussusception. However, intussusception can cause a loop of bowel to become necrotic. This leads to perforation and sepsis, which causes fever.

Medical Astrology

Hernia is classed as a Sa, Ma, Vir & Sco disease, also a Ve disease when Ve is afflicted by Sa; afflictions in Vi or Sc, and especially when these signs occupy the 6th house; Sa in Vir or Sco in the 6th house; Ve in Vir or Sco and afflicted by Sa; Sa's adverse aspect on the Asc. are also an indication of hernia problem. (H.L. Cornell: Encyclopaedia of Medical Astrology; Rex Bills: Rulership Book)

Generally the KP disease finder 6th Cuspal Sub Lord's connection with these hernia rulers Sa, Ma & Ve and 8th (house of surgery), 12th (house of hospitalization) are to be taken into consideration. The stars representing Hernia are Chitra Anuradha, UttaraBhadhra.

Date 08/10/1931, Time 21:00, Place Bornholm Baltic Sea, Denmark, Day Thursday, Lat 55:07 N, Long 15:07 E, TZ 1hr East of GMT, KPNA 22:48:52, Birth Star: Pubba-I, Rasi: Leo, Asc. : Gem 15:52:45

Danish astrologer since 1975, a full time pro; lecturer, teacher, and writer, educated in electronics. He published "Astrological Handbook" in June 1985. The son of a teacher, Paul had a pleasant childhood. In wrote an article about **Pluto**, he relates: (condensed by LMR) "At 15, PR Asc. was conjunct Pluto when my grandfather died (in Nov), after meaning much to me during my childhood. On 7/05/1945, the Russians bombed Bornholm and destroyed my grandfather's house. "TR Pluto crossed my Sun when I took a training job in a business house, 1948, and completed the last pass when I quit in 1949. I began taking classes in electronics. As Pluto transited Jupiter and Uranus transited Pluto, I went through my conscripted military service. I spent some time in a military hospital due to a viral infection of the throat.

VI CSL Mo(4,3) is in star & sub of Ve(5,12) aspected by Sa(Badhaka 7,9-10); VI cusp sign lord is Ma; Sa aspects Vir & Ve there and VI cusp is placed in Sco.

During dasa period Ma-Ra (1968), in Ma-Ke(1972) and In Ra-Sa(1981) the native had three times hernia problems. Dasa lord Ma(5,6) is in star of Ju(3,7-11) and sub of Sa(Badhaka 7,9-10); Bhukthi lord Ra(11) aspected by Ve(5-12) is in star of Sa(Badhaka 7,9-10) and sub of Mo(4,3); no planet is in stars of Ra which is CSL of 4,8,10,12. Bhukthi lord Ke(5) aspected by Sa(Badhaka 7,9-10), conj Ve is in Mo star and Ra sub, indicating hernia problem. Again in 1982 (Ra-Sa), hernia problem revisited him as Ra, Sa are directly connected to the event.

Conclusion: From the analysis of the above 6 charts for hernia problem/operation, we can conclude that hernia operations can be indicated by VI CSL's connection to Ma, Sa, Ve, and Vir & Sco signs under adverse effect of o Ma, Sa, Maraka, Badhaka, 6,8,12, during DBA of 6,8,12 & connected to Ma,Sa, Ve.

Pranams to Guruji Prof. KSK.

This month I am going to discuss about arthritis complaints relating to Abdomen and 5 charts were taken up (Source: Dr. Bhamidipati Satyanarayana Murthy & Astrodatbank). K Raghavendra Kumar, M.Sc. B.Ed., Member of KPAF Hyderabad had extended assistance in preparing this article.

Arthritis:

Classification and External Resources:

Arthritis (from Greek *arthro*-, joint + *-itis*, inflammation; plural: arthritides) is a group of conditions involving damage to the joints of the body. There are over 100 different forms of arthritis. The most common form, osteoarthritis (degenerative joint disease) is a result of trauma to the joint, infection of the joint, or age. Other arthritis forms are rheumatoid arthritis, psoriatic arthritis, and related autoimmune diseases. Septic arthritis is caused by joint infection.

The major complaint by individuals who have arthritis is joint pain. Pain is often a constant and may be localized to the joint affected. The pain from arthritis occurs due to inflammation that occurs around the joint, damage to the joint from disease, daily wear and tear of joint, muscle strains caused by forceful movements against stiff, painful joints and fatigue.

Classification

Primary forms of arthritis:

Osteoarthritis

Rheumatoid arthritis

Septic arthritis

Gout and pseudo-gout

Juvenile idiopathic arthritis

Still's disease

Ankylosing spondylitis

Osteoarthritis: Osteoarthritis is the most common form of arthritis. It can affect both the larger and the smaller joints of the body, including the hands, feet, back, hip or knee. The disease is essentially one acquired from daily wear and tear of the joint. Osteoarthritis begins in the cartilage and eventually leads to the two opposing bones eroding into each other. Initially, the condition starts with minor pain while walking but soon the pain can be continuous and even occur at night. The pain can be debilitating and prevent one from doing any type of activity. Osteoarthritis typically affects the weight bearing joints like the back, spine and pelvis. Unlike rheumatoid arthritis, osteoarthritis is a disease of the elderly. More than 30 percent of females have some degree of osteoarthritis by age 65. Risk factors for osteoarthritis include: prior joint trauma, obesity, sedentary lifestyle

Osteoarthritis, like rheumatoid arthritis, cannot be cured but one can prevent the condition from worsening. Weight loss is the key to improving symptoms and preventing progression. Physical therapy to strengthen muscles and joints is very helpful. Pain medications are widely required by individuals with osteoarthritis. When the disease is far advanced and the pain is continuous, surgery may be an option. Unlike rheumatoid arthritis, joint replacement does help many individuals with osteoarthritis.

Rheumatoid arthritis: Rheumatoid arthritis is a disorder in which, for some unknown reason, the body's own immune system starts to attack body tissues. The attack is not only directed at the joint but to many other parts of the body. In rheumatoid arthritis, most damage occurs to the joint lining and cartilage which eventually results in erosion of two opposing bones. Rheumatoid arthritis affects

joints in the fingers, wrists, knees and elbows. The disease is symmetrical and can lead to severe deformity in a few years if not treated. Rheumatoid arthritis occurs mostly in people aged 20 and above. In children, the disorder can present with a skin rash, fever, pain, disability, and limitations in daily activities. No one knows why rheumatoid arthritis occurs and all treatments are focused on easing the symptoms. With earlier diagnosis and aggressive treatment, many individuals can lead a decent quality of life. The drugs to treat rheumatoid arthritis range from corticosteroids to monoclonal antibodies given intravenously. The latest drugs like Remicade can significantly improve quality of life in the short term. In rare cases, surgery may be required to replace joints but there is no cure for the illness.

Rheumatic fever has now seen resurgence in America primarily because of mass immigration of people from developing countries. The disorder can present with a migratory nature of arthritis with many other features like heart problems, skin rash, gait abnormality and skin nodules.

Lupus: This is a common collagen vascular disorder that can be present with severe arthritis. Other features of lupus include a skin rash, extreme photosensitivity, hair loss, kidney problems, emotional lability, lung fibrosis and constant joint pain.

Gout: Gout is caused by deposition of uric acid crystals in the joint, causing inflammation. There is also an uncommon form of gouty arthritis caused by the formation of rhomboid crystals of calcium pyrophosphate known as pseudogout. In the early stages, the gouty arthritis usually occur in one joint, but with time, it can occur in many joints and be quite crippling. The joints in gout can often become swollen and lose function.

Other: Infectious arthritis is another severe form of arthritis. It presents with sudden onset of chills, fever and joint pain. The condition is caused by bacteria elsewhere in the body. Infectious arthritis must be rapidly diagnosed and treated promptly to prevent irreversible and permanent joint damage. Psoriasis is another type of arthritis. With psoriasis, most individuals develop the skin problem first and then the arthritis. The typical features are of continuous joint pains, stiffness and swelling. The disease does recur with periods of remission but there is no cure for the disorder. A small percentage develop a severe painful and destructive form of arthritis which destroys the small joint in the hands and can lead to permanent disability and loss of hand function (Courtesy: Dr. Bhadmidipati Satyanarayana, MD – KPAF Member, Wikipedia)

Sagittarius rules the region of the body directly surrounding the hips, the sacral region of the spine, the coccygeal vertebrae, the femur, the ileum, the iliac arteries, the sciatic nerves, and the ischium.

The Sagittarian diseases are locomotor ataxia, sciatica, rheumatism, and hip disease.

JUPITER rules Liver, glycogen, suprarenals, arterial circulation, fibrin of blood, disposition of fats. Thighs, Fat, Brain, Lungs, Kidney, Right Ear, Memory, Tongue, Spleen, Semen and Pleura. Liver, Kidney and Lung diseases. In Medical Astrology, the significators for arthritis and rheumatism are Saturn, Mars, Moon, Jupiter and Mercury and also Sagittarius/9th house and Capricorn/10th from Ascendant. Mars usually leads to short periods of intense pain, while Saturn mostly means long periods of ache. (Encyclopaedia of Medical Astrology by H.L. Cornell) The stars representing the disease are Moola, Purvashada, Uttarashada and Sravanam.

Generally the 6th, 8th and 12th houses or lords of the above houses are relevant to this disease as the 6th denotes disease besides the house of location of disease. 8th house is the house of surgery, while the 12th is house of hospitalization, surgical treatment besides the location of disease, the houses 12, 8, 6 have to be taken into account from Lagna.

ANALYSIS:**4 Jane Withers:**

Date 12/04/1926 Time 23:07:00 CST Place Atlanta GA USA Day Monday, Lat 33:45:00 N Long 84:23:00 W TZ 6:00:00 W, KPNA 22:44:16 Birth Star: Ashwini-3, Rasi: Aries, Asc. : Sag 3:46:01.

American actress who starred as a bratty little kid who was mean to Shirley Temple in a 1934 film.

VI CSL Ra(7/Badhaka) in Ju(2,1,4); IX / Sagi I CSL Mo(4,8) in Ke(1 - 4,9/Su); X / Cap II CSL Ve(2/3,6,11) in Ra(7 Bdk- 2,1,4/Ju); During Mo-Ke (1962) the native experienced miraculous healing from arthritis. Mo(4,8) in Ke(1 - 4,9/Su) signification for Sagittarius Ascendant had given full relief from the disease.

**5 Betty Ford:**

Date 08/04/1918 Time 15:45:00 CST Place Chicago IL USA Day Monday, Lat 41:52:00 N Long 87:39:00 W TZ 6:00:00 W, KPNA 22:37:33 Birth Star: Purvabhadra-I Rasi: Aquarius Asc. : Leo 25:33:32

American First Lady when her husband, Gerald Ford, was sworn in as the nation's 38th president, minutes after Richard Nixon resigned, 8/09/1974.

VI / Cap VI CSL Sa(11,6,7) in own star; IX CSL Ra(4) in Ke(10 -1,4,9/Ma); X CSL Ma(1,4,9) in Ve(6,3,10); Sagi V CSL Mo(7,12) in Ju(9,5,8); During Ve-Sa (11/20/1987), she had coronary by-pass surgery & also suffered from arthritis. Ve(6,3,8) in Ra(4,10, 1,4,9/Ma) and Sa being CSL of VI in Capricorn and Karaka for the disease had very well indicated the problem.

Conclusion: From the analysis of the above 5 charts for arthritic problem, we can conclude that 6th, 9th/10th and Sagittarius/Capricorn-located CSLs connection to mainly to Saturn, Mars and also Moon, Jupiter, Mercury & Venus is the indication for disease and operations. In the four charts Pluto is found as a cause for arthritis by being in Gemini opposite to Sagittarius, and in Joe Namath's chart in Cancer opposite to Capricorn, as said, especially for old people, in "Your Health in your Horoscope by Stefan Stenudd".

This month I am going to discuss about Leucoderma complaints relating to Skin and 5 charts were taken up (Source: Dr. Bhamidipati Satyanarayana Murthy & Astrodatbank). Smt Geeta Vani Dhagay, was extended her assistance in preparing this article.

Leucoderma:

Vitiligo:

Vitiligo is a chronic disorder that causes depigmentation of patches of skin. It occurs when melanocytes, the cells responsible for skin pigmentation, die or are unable to function. The cause of vitiligo is unknown, but research suggests that it may arise from autoimmune, genetic, oxidative stress, neural, or viral causes. The incidence worldwide is less than 1%. The most common form is non-segmental vitiligo.

Signs and symptoms:

The most notable symptom of vitiligo is depigmentation of patches of skin that occurs on the extremities. Although patches are initially small, they often enlarge and change shape. When skin lesions occur, they are most prominent on the face, hands and wrists. Depigmentation is particularly noticeable around body orifices, such as the mouth, eyes, nostrils, genitalia and umbilicus. Some lesions have hyperpigmentation around the edges. Patients who are stigmatised for their condition may experience depression and similar mood disorders.

Notable cases:

Michael Jackson two years after he was diagnosed with vitiligo universalis, pictured in the early stages of the disease. Amitabh Bachchan, the famous Bollywood actor, also has vitiligo. (Courtesy: Dr. Bhadmidipati Satyanarayana, MD, Wikipedia)

Capricorn governs the skin and the knees, but it has also a reflex action on the stomach, which is governed by the opposite sign Cancer. Hence afflictions in Capricorn produce eczema and other skin diseases, erysipelas, leprosy, and digestive disturbances. Affects the skin, the patella, knee cap and the knee,

Stomach, Eczema, Cry Spelas, Leprosy, Leucoderma, Digestive disturbances, Rheumatism, Chills gout, Neuralgia, Melancholia, Blood disorders.

CAPRICORN contains Uttarashada 2,3,4 Sravanam and Dhanista 1,2 who rules the following anatomy of the body:

Uttarashada 2,3,4: Skin, Knees, Patella

Sravanam : Lymphatic Vessels, Knees, Skin

Dhanista: Knee Cap Bones

The Sun afflicted in Capricorn gives a tendency to rheumatism, skin diseases, and digestive troubles.

Mercury afflicted in Capricorn gives a tendency to rheumatism, especially in the knees; pains in the back, skin diseases, melancholy; by reflex action in Cancer, nervous indigestion, flatulence.

The Moon afflicted in Capricorn gives a tendency to articular rheumatism, lack of synovial fluid, eruptions of the skin, and by reflex action in Cancer, digestive troubles.

Saturn in Capricorn gives a tendency to articular rheumatism, eczema, erysipelas, and other diseases of the skin; by reflex action in Cancer, jaundice, gallstones, and dyspepsia.

Jupiter afflicted in Capricorn gives a tendency to various skin diseases, and, by reflex action in Cancer, digestive ailments, dropsy, jaundice, and fatty degeneration of the liver.

Mars in Capricorn gives a tendency to carbuncles, erysipelas, smallpox, chicken pox, measles, pimples, itch and other eruptive or inflammatory skin diseases; by reflex action in Cancer, dyspepsia and ulcerated stomach.

In Medical Astrology and as per the “Medical Astrology for All” written by Sri K Subramaniam S/o Sri KSK Guruji, regarding Leucoderma by Capricorn Saturn, Mercury is karaka for skin diseases such as Leucoderma, Vitiligo, Eczema & Leprosy, and Venus rules skin beauty /lustre. In Vedic Astro Lord Sun Suryanarayana Murthy is the planet for white patches (Bolli). From the above list majority of the planets when connected to Capricorn (10th sign of Zodiac Saturn lord) leads to skin problems. Natural Zodiac (Kalapursha) the location of this part of the body is ruled by 10th signs of Kalapursha i.e. Capricorn/10th from Ascendant. Saturn/Mercury are the Significators for this disease. The star representing are Uttarashada and Sravanam.

Capricorn in an astrology chart governs the skin and the knees, Hence afflictions in Capricorn sign produce Eczema, Leucoderma and Itch and other eruptive or inflammatory skin diseases. Libra rules the kidneys, the lumbar region of the spine, and the skin, hence afflictions in Libra produce eczema and other skin diseases etc. Jupiter afflicted in Libra in astrology chart gives a tendency to melancholy due to diminished adrenal secretion, skin eruptions due to sluggish action of kidneys. Swathi star rules skin, kidney, Ureter and Bladder. Mercury rules disease of the mouth and skin disease, Leucoderma, itches etc. Uthrashada 2,3,4 padas represent eczema, skin disease, leprosy etc. Sravana represents Filariasis, eczema, skin disease etc. (Source: Article of Pradeep Muthukulam)

VI (in Capri) & X CSL Saturn is lord of 6n7 in 3 Libra in star Jupiter as lord of 5n8 in 12, indicating congenital problem of leucoderma. Mercury as Karaka lord of 2n11 in 10 in Mar's Star lord of 4n9 in 11 Gem. In majority of the cases Jupiter is also well connected for this disease along with Saturn for chronic and non curable diseases.

04 Amitabh Bachchan:

Date 11/10/1942 Time 16:00 Place Allahabad UP Day Sunday, Lat 25:25 N Long 81:52 E Time Zone 5:30 East KPNA 22:58:05 Birth Star: Swati-2 Rasi: Thula Asc. : Aqu 2:04:04

He is an Indian film actor and producer. He first gained popularity in the early 1970s as the "angry young man" of Bollywood cinema, and has since become one of the most prominent figures in the history of Indian cinema.

Aqua Asc. lord Saturn as lord of 1n12 in 4 is in Moon star who is lord of 6 in 8 (congenital). I CSL Ke is in 1st in Rahu star who is in 7th, sign lord Sun in 8th Virgo conjunct with Mars/Mercury/Venus. VI CSL Rahu is in 7th in the star of Ke in 1st. XII CSL (in Cap) Ju as lord 2n11 in 6th by close conjunction in own star indicates strong signification of 6th house with watery sign and Cancer rasi. Mercury as lord of 5n8 in 8 Virgo in Mars star in 8th indicates skin problems and sudden accidents or upsets in health.

**05 Michael Jackson:**

Date 29/08/1958 Time 12:09 CST (ref: Michael Munkasey) Place Gary IN US Day Friday Lat 41:35 N Long 87:20 Time Zone 6:00 West of GMT DST+1 KPNA 23:11:23 Birth Star: Sathayam-4 Rasi: Aquarius Asc. : Lib 21:34:50

American singer, dancer and exceptionally talented entertainer. The seventh of nine kids, he performed from age six as one of the Jackson Five, a group promoted by Motown and consisting of Michael, Jermaine, Marion. Believed to be the rebirth of Mozart great singer of 18th century.

Lib Asc. Lord Venus as lord of 1,8n12 in 9th house in Me star lord of 9,11 in 10. I CSL Jupiter as lord of 3n5 in 12th house in Mars's star in 7 as lord of 2,6n7. VI CSL Kethu in 6 conjunct Mars in 7 as lord of 2,6n7, in own star of Kethu. X CSL Venus as lord of 1,8n12 in 9 Cancer in Mercury star who is karaka in 10 as lord of 9n11. Mercury is karaka and connected to 6th by being in the star of Kethu in 6 conjunct Mars and Venus is in Mercury star. Such Mercury connections have given vitiligo and cosmetic surgery.

Conclusion: From the analysis of the above 5 charts for leucoderma problem we may conclude astrologically that unfavourable connection of 6th CSL and Capricorn to Mercury, Venus and also Saturn, Jupiter & Mars indicates the disease and operation. J.N. Bhasin's karaka Mercury connected to Lagna, Moon or Sun and adversely affected is also generally found in the charts.

Even today, despite advanced medical research, medical researchers are still trying to find out the root cause of leucoderma.

Pranams to Guru Prof. KSK.
